INTRODUCTION

This policy manual contains the policies of the board of directors of the Shenandoah Community School District. Policy development is a dynamic, ongoing process. New problems, issues, and needs give rise to the continuing need to develop new policies or to revise existing ones.

How To Use This Policy Manual

The Shenandoah Community School District operates according to policies established by its board of directors. The board develops policies after careful deliberation, and the school administration implements them through specific regulations and procedures. The board reviews and evaluates its policies and makes revisions as necessary.

The manual is organized according to a numeric codification system. There are nine major classifications bearing a numeric Series Code.

100	SCHOOL DISTRICT
200	BOARD OF DIRECTORS
300	ADMINISTRATION
400	EMPLOYEES
500	STUDENTS
600	EDUCATION PROGRAM
700	NON-INSTRUCTIONAL OPERATIONS AND BUSINESS SERVICES
800	BUILDINGS AND SITES
900	SCHOOL DISTRICT-COMMUNITY RELATIONS

Subclassifications under each numeric Series are based on a logical sequence and coded by the subclassification numeric code.

The index pages that follow each tab present the policies included in that Series. These index pages serve as a table of contents for each Series.

How To Find A Policy

There are two ways to find a policy. The first is to review the nine Series and determine which section the policy may be in. By turning to that Series, you can review the table of contents to determine whether the policy is included. If the policy is included, you can turn to the policy by finding the correct code number in the upper right-hand corner of the policy.

The second way to find a policy is to look up the policy in the alphabetical index found under the tab entitled "Index" at the end of the manual. It will direct you to the Series and the policy code number. Again, you can turn to the policy by finding the correct code number in the upper right hand corner of the policy. How To Read The Signs And Symbols

A variety of signs and symbols are used in concert with the numeric codification system. These are explained below:

- R This symbol following a policy code number indicates the statement is an administrative regulation rather than a board policy. These statements appear on yellow paper.

- E This symbol following a policy code number indicates the statement is an exhibit rather than a board policy. These statements appear on green paper.

Legal Reference: This sign indicates the legal references. They tell the user where the user may find the statutes, case law, attorney general opinions, or administrative rules that give authority to a policy.

Cross Reference: Many policies in the manual related to other policies in the manual. Cross references are provided to assist the user in finding all of the related policies.

Inquiries about the policies included in this manual may be directed to the board members or to the superintendent by telephone at (712)246-1581 or by writing the school district at 304 W. Nishna Road, Shenandoah, IA 51601.

103.R1 GRIEVANCE PROCEDURE

Students, parents of students, employees, and applicants for employment in the school district will have the right to file a formal complaint alleging discrimination under federal or state regulations requiring non-discrimination in programs and employment.

Level One Principal, Immediate Supervisor or Personal Contact Person (Informal and Optional-may be bypassed by the grievant)

Employees with a complaint of discrimination based upon their age, race, color, national origin, gender, religion, creed, marital status, sexual orientation, or disability are encouraged to first discuss it with their immediate supervisor, with the objective of resolving the matter informally. An applicant for employment with a complaint of discrimination based upon their age, race, color, national origin, gender, gender identity, religion, creed, marital status, sex, sexual orientation, or disability are encouraged to first discuss it with the personnel contact person.

A student, or a parent of a student, with a complaint of discrimination based upon their age, race, color, national origin, gender, gender identity, religion, creed, marital status, sex, sexual orientation, or disability are encouraged to discuss it with the instructor, counselor, supervisor, building administrator, program administrator or personnel contact person directly involved.

Level Two-Compliance Officer

If the grievance is not resolved at level one and the grievant wishes to pursue the grievance, the grievant may formalize it by filing a complaint in writing on a Grievance Filing Form, which may be obtained from the Compliance Officer. The complaint will state the nature of the grievance and the remedy requested. The filing of the formal, written complaint at level two must be within 15 working days from the date of the event giving rise to the grievance, or from the date the grievant could reasonably become aware of such occurrence. The grievant may request that a meeting concerning the complaint be held with the Compliance Officer. A minor student may be accompanied at that meeting by a parent or guardian. The Compliance Officer will investigate the complaint and attempt to resolve it. A written report from the Compliance Officer regarding action taken will be sent to the involved parties within a reasonable time after receipt of the complaint.

Level Three-Superintendent/Administrator

If the complaint is not resolved at level two, the grievant may appeal it to level three by presenting a written appeal to the superintendent within five working days after the grievant receives the report from the Compliance Officer. The superintendent may request a meeting with the grievant to discuss the appeal. A decision will be rendered by the superintendent within a reasonable time after the receipt of the written appeal. If, in cases of disability grievances at the elementary and secondary level, the issue is not resolved through the grievance process, rather, the parents have a right to an impartial hearing to resolve the issue.

This procedure in no way denies the right of the grievant to file formal complaints with the Iowa Civil Rights Commission, the U.S. Department of Education Office for Civil Rights or Office of Special Education Programs, the Equal Employment Opportunity Commission, or the Iowa Department of Education for mediation or rectification of civil rights grievances, or to seek private counsel for complaints alleging discrimination.

Level Four-Appeal to Board

If the grievant is not satisfied with the superintendent's decision, the grievant can file an appeal with the board within five working days of the decision. It is within the discretion of the board to determine whether it will hear the appeal.

104.1R1 ANTI-HARASSMENT/BULLYING INVESTIGATION PROCEDURES

Individuals who feel that they have been harassed should:

Communicate to the bully/harasser that the individual expects the behavior to stop, if the individual is comfortable doing so. If the individual wants assistance communicating with the bully/harasser, the individual should ask a teacher, counselor, principal, or superintendent to help.

If the harassment does not stop, or the individual does not feel comfortable confronting the harasser, the individual should:

1. tell a teacher, counselor, principal or superintendent: and
2. write down exactly what happened, keep a copy and give another copy to the teacher, principal or superintendent including:
 - what, when and where it happened;
 - who was involved;
 - exactly what was said or what the harasser did;
 - witnesses to the harassment;
 - what the complainant said or did, either at the time or later;
 - how the complainant felt; and
 - how the bully/harasser responded.

COMPLAINT PROCEDURE

An individual who believes that the individual has been harassed or bullied will notify the building principal or designee for all complaints at the school building level. The superintendent or designee will be responsible for handling all complaints of bullying and harassment at the district administration or board level. The alternate investigator is the Equity Coordinator, Assistant Principal or designee. The investigator may request that the individual complete the Harassment/Bullying Complaint form and turn over evidence of the harassment, including, but not limited to, letters, tapes, or pictures. However, completion of a complaint on the Harassment/Bullying Complaint form is not mandatory for purposes of investigating a complaint. The complainant shall be given a copy of the completed complaint form. Information received during the investigation is kept confidential to the extent possible.

An investigator, with the approval of the principal or the superintendent has the authority to initiate an investigation in the absence of a written complaint.

INVESTIGATION PROCEDURE

Level One

The building principal (or designee), for harassment or bullying occurring at the school building level, and the superintendent (or designee), for harassment or bullying occurring at the district administration or board level, will assign an investigator. The investigator will be designated by the building principal or superintendent and can be a supervisor, a building or district administrator, or a designated level 1 investigator for Chapter 102 complaints. The complainant should be informed of these choices and given the opportunity for input into the choice of investigator assigned to the complaint. Once assigned, the investigator will reasonably and promptly commence the investigation. The investigator will interview the complainant and the alleged harasser/bully. The alleged harasser/bully may file a written statement in response to the complaint. The investigator may also interview

witnesses and consider other evidence as deemed appropriate. Upon completion of the investigation, the investigator will make written findings and conclusions as to each allegation of harassment or bullying and report the findings and conclusions to the principal (or designee), superintendent (or designee) or board president (or designee), depending upon whether the alleged harassment or bullying occurred at the school building or district administration or board level. The investigator will provide a copy of the written findings and conclusions of the investigation to the principal (or designee), superintendent (or designee) or board president (or designee), as appropriate.

Following receipt of the investigator's report, the principal, superintendent, or board president designee, as appropriate, may investigate further, if deemed necessary, and make a determination of any appropriate additional steps, which may include discipline or other remedial action.

Prior to the determination of the appropriate discipline or other remedial action, the principal, superintendent, or designee, as appropriate, may, at his/her discretion, interview the complainant and the alleged harasser/bully. The principal, superintendent, or designee, as appropriate, will file a written report closing the case and documenting any disciplinary action taken or any other action taken in response to the complaint. The complainant, the alleged harasser/bully and the investigator will receive notice as to the conclusion of the investigation. The principal, superintendent, or designee, as appropriate will maintain a log of information necessary to comply with Iowa Department of Education reporting procedures.

Level Two

If the complaint is not resolved at level one to the satisfaction of the complainant or the alleged harasser/bully, the grievant(s) may appeal the findings to the superintendent or appropriate designee. The filing of the level two complaint must be within fifteen (15) working days from the date of the conclusion of the level one investigation and must be made in writing using the anti-harassment/bullying complaint form stating the nature of the grievance. The grievant may request a meeting concerning the complaint with the superintendent or designee. A parent or guardian may accompany a minor student. The superintendent or designee shall investigate the complaint and attempt to resolve it. A written report from the superintendent or designee regarding action taken will be sent to the involved parties within fifteen (15) working days after receipt of the level two complaint.

POINTS TO REMEMBER IN THE INVESTIGATION

- Evidence uncovered in the investigation is treated as confidential, to the extent possible.
- Complaints must be taken seriously and investigated.
- No retaliation will be taken against individuals involved in the investigation process.
- Individuals who retaliate will be subject to discipline as appropriate.
- The totality of the circumstances will be considered in determining whether conduct constitutes harassment or bullying in violation of this policy.
- Students, employees, officers, board directors, and volunteers are expected to fully and fairly cooperate in any investigation.

CONFLICTS

If the designated investigator is the subject of or a witness to the incident or is otherwise personally affected by the complaint procedures related to the incident, an alternate investigator shall investigate the complaint. If the building principal, superintendent, or designee involved in the investigation procedure and resolution of the complaint is the subject of or a witness to the incident or is otherwise personally affected by the complaint procedures related to the incident, an alternate administrator shall serve as a substitute.

This procedure in no way denies the right of a person to file a formal complaint with the Iowa Civil Rights Commission, the Federal Office of Civil Rights for the U.S. Department of Education, the Federal Equal Employment Opportunity Commission, and/or the Iowa Department of Education for mediation or rectification of civil rights grievances, or to seek private counsel for complaints alleging bullying, harassment, or discrimination.

The Superintendent for the school district is responsible for ensuring the proper implementation of this policy and procedures.

BOARD OF DIRECTORS (Series 200)

200.1 ROLE OF THE BOARD OF DIRECTORS

In this series of the board policy manual, the board defines its role in the governance of the school district and how it will carry out that role in the school district and its community.

The ultimate goal of the board is to achieve the educational philosophy of the school district. As school officials elected by the members of the community, the board shall strive to represent the needs and wishes of the members of the school district in its deliberations and action.

While the board shall be aware of the desires of the school district, the needs of the students in the Shenandoah Community School District shall be considered above others. The board strives to meet the needs of the students through evaluation of the financial and educational benefits of the various alternatives available to the board and the school district.

200.2 ORGANIZATION OF THE BOARD OF DIRECTORS

The Shenandoah Community School District board is authorized by and derives its organization from Iowa law. The board will consist of five board members. Board members are elected at large.

The board is organized for the purpose of setting policy and providing general direction for the school district. The outgoing board will adjourn and the new board will then begin. The secretary will administer the oath of office to the newly-elected board members. The board secretary will preside while the new board elects the president of the new board.

200.3 POWERS OF THE BOARD OF DIRECTORS

The board of the Shenandoah Community School District, acting on behalf of the school district, will have jurisdiction over school matters within the territory of the school district.

The board is empowered to make policy for its own governance, for employees, for students and for school district facilities. The board is also empowered to enforce its policies. The board may, through its quasi-judicial power, conduct hearings and rule on issues and disputes confronting the school district.

200.4 RESPONSIBILITIES OF THE BOARD OF DIRECTORS

The board is authorized to govern the school district which it oversees. As the governing board of the school district, the board has three duties to perform: legislative duty, executive duty and evaluative duty.

As a representative of the citizens of the school district community, the board is responsible for legislating policy for the school district. As a policy making body, the board has jurisdiction to enact policy with the force and effect of law for the management and operation of the school district.

It is the responsibility of the board, under the board's executive duty, to select its chief executive officer, the superintendent, to operate the school district on the board's behalf. The board delegates to the superintendent its authority to carry out board policy, to formulate and carry out rules and regulations and to handle the administrative details in a manner which supports and is consistent with board policy.

The board has a responsibility to review the education program's performance under its evaluative duty. The board regularly reviews the education program and ancillary services at a minimum of every three years. The review includes a careful study and examination of the facts, conditions and circumstances surrounding the amount of funds received or expensed and the education program's ability to achieve the boards' educational philosophy for the school district.

201 BOARD OF DIRECTORS' ELECTIONS

The school election takes place on the second Tuesday in September of odd-number years. Each school election is used to elect citizens to the board to maintain a five-member board and to address other questions that must be submitted to the voters.

Citizens of the school district community seeking a seat on the board must file their nomination papers with the board secretary, or the board secretary's designee, between sixty-four and forty days before the school election unless otherwise directed.

If a vacancy occurs on the board it may be filled by appointment within 30 days of the vacancy. If the board does not fill the vacancy by appointment, the board secretary will call a special election to fill the vacancy. Candidates for a seat created by a vacancy must file their nomination papers 30 days before the special election.

It is the responsibility of the county commissioner of elections to conduct school elections.

202.1 QUALIFICATIONS

Serving on the board of directors is an honor and privilege. Its rewards are respect from the community, students, and employees and the satisfaction from knowing each board member contributed to the success of the children in the school district community. Only those who are willing to put forth the effort to care and to make a difference should consider running for a position on the board.

Individuals who are willing to serve on the board should believe public education is important, support the democratic process, willingly devote time and energy to board work, respect educators and have the ability to examine the facts and make a decision. The board believes an individual considering a position on the school board should possess these characteristics.

Citizens wanting to run for a position on the board must be a citizen of the school district, an eligible elector of the district and free from a financial conflict of interest with the position.

202.2 OATH OF OFFICE

Board members are officials of the state. As a public official, each board member must pledge to uphold the Iowa and the United States Constitution and carry out the responsibilities of the office to the best of the board member's ability.

Each newly-elected board member will take the oath of office prior to any action taken as a school official. The oath of office is taken by each new board member elected at the annual school election at or before the organizational meeting of the board. In the event of an appointment of special election to fill a vacancy, the new board member will take the oath of office within ten days of the appointment or election.

Board members elected to offices of the board will also take the same oath of office but replacing the office of board member with the title of the office to which they were elected.

The oath of office is administered by the board secretary and does not need to be given at a board meeting. In the event the board secretary is absent, the oath is administered by another board member.

“Do you solemnly swear that you will support the Constitution of the United States and Constitution of the State of Iowa, and that you will faithfully and impartially to the best of your ability discharge the duties of the office of _____(naming the office) in Shenandoah Community School District as now and hereafter required by law?”

Board members appointed to fill a vacant position will serve until the next scheduled school election. A board member elected to fill a vacancy will serve out the unexpired term.

202.4 VACANCIES

A vacancy occurs when a board member resigns, forfeits or otherwise leaves the office. A vacancy also includes, but is not limited to, the following: failure to be properly elected, failure to qualify within the time fixed by law, failure to reside in the school district or director district, a court order declaring the seat vacant, conviction of a felony, three violations of the open meetings law, or conviction of a public offense in violation of the oath of office.

If a vacancy occurs prior to the expiration of a term of office, the vacancy will be filled by board appointment within 30 days of the vacancy. The newly-appointed board member will hold the position until the next scheduled school election. At that time the appointed board member may run for three-year term, if one is available, or run for the remainder of the unexpired term.

If the board is unable to fill a vacancy by appointment within 30 days after the vacancy occurs, the board secretary will call a special election to be held no sooner than 60 days and not later than 60 days after the vacancy occurred. 202.5 INDIVIDUAL AUTHORITY

School districts of the public education system in Iowa are governed by an elected board of directors of the school corporation. The board operates as a corporate body, and only the board may make decisions regarding the education program and operations of the school district and to take action affecting the school district.

Individual board members exercise their authority as a board member when they vote to take action at a board meeting. Individual board members, alone, have no authority to make decisions or take action to affect the management of the school district. Without the consent of the board, an individual board member has no authority to act on behalf of the district or the board.

It shall be the responsibility of each board member and the superintendent to educate the public, the employees and the students of the limits of the board member's authority.

203 BOARD OF DIRECTORS' CONFLICT OF INTEREST

Board members must be able to make decisions objectively. It is a conflict of interest for a board member to receive direct compensation from the school district, unless exempted in this policy, for anything other than reimbursement of actual and necessary expenses, including travel, incurred in the performance of official duties. A board member will not act as an agent for a school textbook or school supply company during the board member's term of office. It will not be a conflict of interest for board members to receive compensation from the school district for contracts to purchase goods or services if the benefit to the board member does not exceed \$2,500 in a fiscal year or if the contracts are made by the board, upon competitive bid in writing, publicly invited and opened.

The conflict of interest provisions do not apply to a contract that is a bond, note or other obligation of a school corporation if the contract is not acquired directly from the school corporation, but is acquired in a transaction with a third party, who may or may not be the original underwriter, purchaser, or obligee of the contract, or to a contract in which a director has an interest solely by reason of employment if the contract was made by competitive bid, in writing, publicly invited and opened, or if the remuneration for employment will not be directly affected as a result of the contract and duties of employment do not involve any of the preparation or procurement of any part of the contract. The competitive bid section of the conflict of interest provision does not apply to a contract for professional services not customarily competitively bid.

It will also be a conflict of interest for a board member to engage in any outside employment or activity which is in conflict with the board member's official duties and responsibilities. In determining whether outside employment or activity of a board member creates a conflict of interest, situations in which an unacceptable conflict of interest is deemed to exist includes, but are not limited to, any of the following:

- (1) The outside employment or activity involves the use of the school district's time, facilities, equipment and supplies or the use of the school district badge, uniform, business card or other evidence of office to give the board member or member of the board member's immediate family an advantage or pecuniary benefit that is not available to other similarly situated members or classes of members of the general public. For purposes of this section, a person is not "similarly situated" merely by being related to a board member.
- (2) The outside employment or activity involves the receipt of, promise of, or acceptance of more or other consideration by the board member or a member of the board member's immediate family from anyone other than the state or the school district for the performance of any act that the board member would be required or expected to perform as part of the board member's regular duties or during the hours in which the board member performs service or work for the school district.
- (3) The outside employment or activity is subject to the official control, inspection, review, audit, or enforcement authority of the board member, during the performance of the board member's duties of office or employment.
- (4)

If the outside employment or activity is in (1) or (2) above, the board member must cease the employment of or activity. If the activity or employment falls under (3), then the board member must:

- Cease the outside employment or activity; or
- Publicly disclose the existence of the conflict and refrain from taking any official action or performing any official duty that would detrimentally affect or create a benefit for the outside

employment or activity. Official action or official duty includes, but is not limited to, participating in any vote, taking affirmative action to influence any vote, or providing any other official service or thing that is not available generally to members of the public in order to further the interests of the outside employment or activity.

When procurement is supported by Federal Child Nutrition funds, employees will not participate in the selection, award, or administration of a contract if there is a real or apparent conflict of interest in the contract. Contract, for purposes of this paragraph, includes a contract where the employee, employee's immediate family, partner, or a non-school district employer of these individuals is a party to the contract.

It is the responsibility of each board member to be aware of an actual or potential conflict of interest. It is also the responsibility of each board member to take the action necessary to eliminate such a conflict of interest. Should a conflict of interest arise, a board member should not participate in any action relating to the issue from which the conflict arose.

204 CODE OF ETHICS

Board members' actions, verbal and nonverbal, reflect the attitude and the beliefs of the school district. Therefore, board members must conduct themselves professionally and in a manner fitting to their position.

Each board member shall follow the code of ethics stated in this policy.

AS A SCHOOL BOARD MEMBER:

1. I will listen.
2. I will respect the opinion of others.
3. I will recognize the integrity of my predecessors and associates and the merit of their work.
4. I will be motivated only by an earnest desire to serve my school district and the children of my school district community in the best possible way.
5. I will not use the school district or any part of the school district program for my own personal advantage or for the advantage of my friends or supporters.
6. I will vote for a closed session of the board if the situation requires it, but I will consider "star chamber" or "secret" sessions of board members unethical.
7. I will recognize that to promise in advance of a meeting how I will vote on any proposition which is to be considered is to close my mind and agree not to think through other facts and points of view which may be presented in the meeting.
8. I will expect, in board meetings, to spend more time on education programs and procedures than on business details.
9. I will recognize that authority rests with the board in legal session and not with individual members of the board, except as authorized by law.
10. I will make no disparaging remarks, in or out of the board meeting, about other members of the board or their opinions.
11. I will express my honest and most thoughtful opinions frankly in board meetings in an effort to have decisions made for the best interests of the children and the education program.
12. I will insist that the members of the board participate fully in board action and recommend that when special committees are appointed, they serve only in an investigative and advisory capacity.
13. I will abide by majority decisions of the board.
14. I will carefully consider petitions, resolutions and complaints and will act in the best interests of the school district.
15. I will not discuss the confidential business of the board in my home, on the street or in my office; the place for such discussion is the board meeting.
16. I will endeavor to keep informed on local, state and national educational developments of significance so I may become a better board member.

IN MEETING MY RESPONSIBILITY TO MY SCHOOL DISTRICT COMMUNITY

1. I will consider myself a trustee of public education and will do my best to protect it, conserve it, and advance it, giving to the children of my school district community the educational facilities that are as complete and adequate as it is possible to provide.
2. I will consider it an important responsibility of the board to interpret the aims, methods and attitudes of the school district to the community.
3. I will earnestly try to interpret the needs and attitudes of the school district community and do my best to translate them into the education program of the school district.
4. I will attempt to procure adequate financial support for the school district.
5. I will represent the entire school district rather than individual electors, patrons or groups.

6. I will not regard the school district facilities as my own private property but as the property of the people.

IN MY RELATIONSHIP WITH SUPERINTENDENT AND EMPLOYEES

1. I will function, in meeting the legal responsibility that is mine, as a part of a legislative, policy-forming body, not as an administrative officer.
2. I will recognize that it is my responsibility, together with that of my fellow board members, to see the school district is properly run and not to run them myself.
3. I will expect the school district to be administered by the best-trained technical and professional people it is possible to procure within the financial resources of the school district.
4. I will recognize the superintendent as executive officer of the board.
5. I will work through the administrative employees of the board, not over or around them.
6. I will expect the superintendent to keep the board adequately informed through oral and written reports.
7. I will vote to employ employees only after the recommendation of the superintendent has been received.
8. I will insist that contracts be equally binding on teachers and the board.
9. I will give the superintendent power commensurate with the superintendent's responsibility and will not in any way interfere with, or seek to undermine, the superintendent's authority.
10. I will give the superintendent friendly counsel and advice.
11. I will present any personal criticism of employees to the superintendent.
12. I will refer complaints to the proper administrative officer.

TO COOPERATE WITH OTHER SCHOOL BOARDS

1. I will not employ a superintendent, principal or teacher who is already under contract with another school district without first securing assurance from the proper authority that the person can be released from contract.
2. I will consider it unethical to pursue any procedure calculated to embarrass a neighboring board or its representatives.
3. I will not recommend an employee for a position in another school district unless I would employ the employee under similar circumstances.
4. I will answer all inquiries about the standing and ability of an employee to the best of my knowledge and judgment, with complete frankness.
5. I will associate myself with board members of other school districts for the purpose of discussing school district issues and cooperating in the improvement of the education program.

209.1 AD HOC COMMITTEES

Whenever the board deems it necessary, the board may appoint a committee composed of citizens, employees or students to assist the board. Committees formed by the board are ad hoc committees.

An ad hoc committee may be formed by board resolution which will outline the duties and purpose of the committee. The committee will automatically dissolve upon the delivery of its final recommendation to the board or upon completion of the duties outlined in the board resolution. The board will receive the report of the committee for consideration. The board retains the authority to make a final decision on the issue. The committee will be subject to the open meetings law if the committee is established by statute or if the committee makes policy recommendations and is established or approved by the board.

The method for selection of committee members will be stated in the board resolution. When possible, and when the necessary expertise required allows, the committee members will be representative of the school district community and will consider the various viewpoints on the issue. Ad Hoc Committee Purpose and Function

The specific purpose of each ad hoc committee varies. Generally, the primary function of an ad hoc committee is to give specific advice and suggestions. The advice and suggestions should focus on the purpose and duties stated in the board resolution establishing the committee. It is the board's role to take action based on information received from the ad hoc committee and other sources. Ad hoc committees may be subject to the open meetings law.

Role of an Ad Hoc Committee Member

The primary role of an ad hoc committee member is to be a productive, positive member of the committee. In doing so, it is important to listen to and respect the opinions of others. When the ad hoc committee makes a recommendation to the board, it is important for the ad hoc committee members to support the majority decision of the ad hoc committee. An ad hoc committee will function best when its members work within the committee framework and bring items of business to the ad hoc committee.

Ad Hoc Committee Membership

Ad hoc committee members may be appointed by the board. The board may request input from individuals or organizations, or it may seek volunteers to serve. Only the board or superintendent has the authority to appoint members to an ad hoc committee. Boards must follow the legal limitations or requirements regarding the membership of an ad hoc committee.

210.1 DEVELOPMENT OF POLICY

The board has jurisdiction to legislate policy for the school district with the force and effect of law. Board policy provides the general direction as to what the board wishes to accomplish and why it wishes to accomplish it while allowing the superintendent to implement board policy.

The written policy statements contained in this manual provide guidelines and goals to the citizens, administration, employees and students in the school district community. The policy statements are the basis for the formulation of regulations by the administration. The board will determine the effectiveness of the policy statements by evaluating periodic reports from the administration.

Policy statements may be proposed by a board member, administrator, employee, student or member of the school district community. Proposed policy statements or ideas will be submitted to the superintendent's office for possible placement on the board agenda. It is the responsibility of the superintendent to bring these proposals to the attention of the board.

This notice procedure will be required except for emergency situations. If the board adopts a policy in an emergency situation, a statement regarding the emergency and the need for immediate adoption of the policy will be included in the minutes. The board will have complete discretion to determine what constitutes an emergency situation.

The final action taken to adopt the proposed policy will be approved by a simple majority vote of the board at the next regular meeting after the meeting allowing public discussion. The policy will be effective on the later of the date of passage or the date stated in the motion.

In the case of an emergency, the new or changed policy may be adopted by a majority vote of a quorum of the board. 211.7 RULES OF ORDER

An orderly board meeting allows the board members to participate in the discussion and decision process on an issue confronting the school district. Rules of order for board meetings allow school district business and the relative information concerning the business to be brought to the attention of the board. They also allow the board to discuss, act upon and make a clear record of school district business in a regular, ordered, reasonable and consistent manner.

It is the responsibility of each board member to follow the rules of order stated in this policy at each meeting, and it is the responsibility of the presiding officer to conduct the board meeting within these rules.

The board will follow Robert's Rule of Order, Revised, latest edition as modified by this policy and subsequent rule.

The purpose of modified rules adopted by the board are:

- To establish guidelines by which the business of the governing board can be conducted in a regular and internally consistent manner;
- To organize the meetings so all necessary matters can be brought to the board and decisions of the board can be made in an orderly and reasonable manner;
- To ensure members of the board, concentrating on the substantive issues at hand, have the necessary information to make decisions, and to ensure adequate discussion of decisions to be made; and,
- To ensure meetings and actions of the board are conducted so as to be informative to the staff and the public, and to produce a clear record of actions taken and decisions made.

211.8 METHOD OF VOTING

In keeping with the public nature of the meeting, votes by the board shall be roll call votes.

It shall be the responsibility of the board secretary to record the vote of each board member in the minutes of the board meetings. The minutes should be written so that a reader can determine how each board member present at the meeting voted on each issue.

212 OPEN MEETINGS

A gathering of a majority of board members in which deliberation of an issue within the jurisdiction of the board takes place is a board meeting. A gathering for the purpose of social or ministerial action will not constitute a board meeting unless a discussion of policy takes place. Meetings of the board will be conducted in an open meeting unless a closed session is authorized by law or the meeting is exempt from the open meetings law.

213 CLOSED SESSIONS

Generally, board meetings will be open meetings, unless a closed session or exempt meeting is provided for by law. The board will hold a closed session or exempt meeting in the situations stated below.

Exceptions to the Open Meetings Law

Closed sessions take place as part of an open meeting. The item for discussion in the closed session will be listed as part of the tentative agenda on the public notice. The motion for a closed session, stating the purpose for the closed session, will be made and seconded during the open meeting. A minimum of two-thirds of the board, or all of the board members present, must vote in favor of the motion on a roll call vote. Closed sessions will be tape recorded and have detailed minutes kept by the board secretary. Final action on matters discussed in the closed session will be taken in an open meeting.

The minutes and the tape recording will restate the motion made in the open meeting, the roll call vote, the members present, and the time the closed session began and ended. The tape recordings and the written minutes will be kept for one year from the date of the meeting. Real estate related minutes and tapes will be made public after the real estate transaction is completed.

The detailed minutes and tape recording will be sealed and will not be public records open to public inspection. The minutes and tape recording will only be opened upon court order in an action to enforce the requirements of the open meetings law. The board has complete discretion as to who may be present at a closed session.

Reasons for the board entering into a closed session from an open meeting include, but are not limited to, the following:

1. To review or discuss records which are required or authorized by state or federal law to be kept confidential or to be kept confidential as a condition for the board's possession or receipt of federal funds.
2. To discuss strategy with legal counsel in matters presently in litigation, or where litigation is imminent, if disclosure would be likely to prejudice or disadvantage the board.
3. To discuss whether to conduct a hearing for suspension or expulsion of a student, unless an open meeting is requested by the student or the parent of the student.
4. To evaluate the professional competency of an individual whose appointment, hiring, performance, or discharge is being considered when a closed session is necessary to prevent needless and irreparable injury to that individual's reputation and that individual requests a closed session.
5. To discuss the purchase of particular real estate, but only when premature disclosure could be reasonably expected to increase the price the board would have to pay for the property.

Exemptions to the Open Meetings Law

Board meetings at which a quorum is not present, or gatherings of the board for purely ministerial or social purposes when there is no discussion of policy or no intent to avoid the purposes of the open meetings law, are exempt from the open meetings law requirements. Since gatherings of this type are exempt from the open meetings requirements, they can be held without public notice, be separate from an open meeting, be held without taping the gathering or taking minutes, and be held without a vote or motion. The board may also hold an exempt session for the following:

1. negotiating sessions, strategy meetings of public employers or employee organizations, mediation and the deliberative process of arbitration;
2. to discuss strategy in matters relating to employment conditions of employees not covered by the collective bargaining law;
3. to conduct a private hearing relating to the recommended termination of a teacher's contract. However, the private hearing in the teacher's contract termination will be recorded verbatim by a court reporter; and
4. to conduct a private hearing relating to the termination of a probationary administrator's contract or to review the proposed decision of the administrative law judge regarding the termination of an administrator's contract.

214.1 BOARD MEETING AGENDA

The tentative agenda for each board meeting shall state the topics for discussion and action at the board meeting. The agenda is part of the public notice of the board meeting and will be posted and distributed.

Persons requesting to place an item on the agenda must make a request to the superintendent at least five days prior to the drafting of the tentative agenda. The person making the request must state the person's name, address, purpose of the presentation, action desired and pertinent background information. Requests from the public may be added to the tentative agenda at the discretion of the superintendent after consultation with the board president. Requests received after the deadline may only be added to the agenda for good cause.

The tentative agenda and supporting documents shall be delivered to the board members three days prior to the scheduled board meeting. These documents are the private property of the board member. Persons wishing to view the tentative agenda and supporting documents may do so at the central administration office.

The board shall take action only on the items listed on the tentative agenda posted with the public notice. Items added to the agenda may be discussed or taken under advisement by the board. If an added item is acted upon, the minutes of the board meeting shall state the reason justifying the immediate action.

It shall be responsibility of the board president and superintendent to develop the agenda for each board meeting.

The board shall conduct an orderly board meeting. The board will, at all regular board meetings, follow an agenda order similar to:

1. Call to order
2. Roll call and determination of quorum
3. Open forum
4. Welcome to audience
5. Recognition

The agenda required by the open meetings law should be included with the notice given at least 24 hours before the meeting and shall be specific enough to properly inform the public of the business before the board. The agenda can be amended within the 24-hour notice period only if good cause exists requiring action on an issue. If such matters are added, as much advance notice as possible should be given to the public and the media. This is not meant to prevent the board or members of the public from introducing items for discussion only such as during the open or public forum. Action on discussion items, however, must normally be deferred to a subsequent meeting when the legally required notice can be given.

214.3 CONSENT AGENDAS

In order for a more efficient administration of board meetings, the board may elect to use a consent agenda for the passage of non-controversial items or items of a similar nature. Such agenda items might include ministerial tasks such as, but not limited to, the approval of the agenda, approval of previous minutes, approval of bills, approval of reports, etc. These items might also include similar groups of decisions such as, but not limited to, approval of staff contracts, approval of maintenance details for the school buildings and grounds, open enrollment requests or approval of various schedules.

By using a consent agenda, the board has consented to the consideration of certain items as a group under one resolution. Items may be removed from the consent agenda at the request of a board member.

Nothing in this policy is to be construed as an attempt to avoid full compliance with laws dealing with open meeting or public notice of the agenda and meeting.

215 PUBLIC PARTICIPATION IN BOARD MEETINGS

The board recognizes the importance of citizen participation in school district matters. In order to assure citizens are heard and board meetings are conducted efficiently and in an organized manner, the board will set time aside for citizen participation, either at a specific time during the meeting or during the discussion of agenda items. The board will only receive the petitions and not act upon them or their contents. The board has the discretion to limit the amount of time set aside for public participation.

If the pressure of business or other circumstances dictate, the board president may decide to eliminate this practice for that meeting. The board president will recognize these individuals to make their comments at the appropriate time. The orderly process of the board meeting will not be interfered with or disrupted. Only those speakers recognized by the board president will be allowed to speak. Comments by others are out of order. If disruptive, the individual making the comments, or another individual causing disruption may be asked to leave the board meeting.

Individuals who have a complaint about employees may bring their complaint to the board only after they have followed board policy addressing citizens' complaints. Students who have a complaint may only bring their complaint to the board after they have followed board policy addressing students' complaints.

215.1 GENERAL COMPLAINTS BY CITIZENS

The board recognizes that concerns regarding the operation of the school district will arise. The board further believes that constructive criticism can assist in improving the quality of the education program and in meeting individual student needs more effectively. The board also places trust in its employees and desires to support their actions in a manner which frees them from unnecessary or unwarranted criticism and complaints.

Procedures for dealing with complaints concerning programs or practices should be governed by the following principles:

- Where action/investigation is desired by the complainant, or where it seems appropriate, the matter should be handled as near the source as possible;
- Complaints should both be investigated and, if possible, resolved expeditiously;
- Complaints should be dealt with courteously and in a constrictive manner; and,
- Individuals directly affected by the compliant should have an opportunity to respond.

Specific procedures for handling complaints may be established in policies. The board, consistent with its board policy-making role, will deal with complaints concerning specific schools, programs or procedures only after the usual channels have been exhausted. Complaints regarding employees or complaints by students will follow the more specific policies on those issues.

When a complaint requiring attention is received by the board or a board member it will be referred to the superintendent. After all of the channels have been exhausted, the complainant may appeal to the board by requesting a place on the board agenda or during the public audience portion of the board meeting. If the complainant appeals to the board, the appeal will be in writing, signed and explain the process followed by the complainant prior to the appeal to the board.

216 PUBLIC HEARINGS

Public hearings may be held on school district matters at the discretion of the board. Public notice of a public hearing will be in the same manner as for a board meeting except that the notice will be given at least ten days before the hearing is to be held unless it is impossible or impractical to do so.

At public hearings, citizens of the district who register at the door will be allowed to speak on the issue for which the public hearing is being held. Others may be allowed to speak at the board's discretion. Speakers are asked to keep their remarks as brief as possible. Prior to the beginning of the hearing, speakers and spectators will be apprised of the rules of order to be followed regarding time limitations, questions, remarks and rebuttals. In no event will a speaker be allowed to take the time of another speaker.

The board will conduct public hearings in an orderly fashion. At the beginning of the hearing, statements, background materials and public hearing rules and procedures will be presented by the board president. The board president will recognize the speakers. A board member may ask questions of the speakers after receiving permission for the board president. Only those speakers recognized by the chair will be allowed to speak. Comments by others are out of order. Individuals who interfere with or interrupt speakers, the board or the proceedings will be asked to leave.

As an elected public official, the board member is a public servant who serves without compensation. Board members will be reimbursed for actual and necessary expenses incurred in the performance of their official duties.

Prior to reimbursement of actual and necessary expenses, the board member must submit a detailed receipt indicating the date, purpose and nature of the expense for each claim item. A credit card receipt is generally not considered a detailed receipt. Failure to provide a detailed receipt will make the expense non-reimbursable. Personal expenses will be reimbursed by the board member to the school district no later than ten working days following the date of the expense. In exceptional circumstances, the board may allow a claim without proper receipt. Written documentation explaining the exceptional circumstances will be maintained as part of the school district's record of the claim.

It is the responsibility of the board secretary to compile the expenses of board members and bring them to the board for audit and approval in the same manner as other claims of the school district. It is the responsibility of the board to determine through the audit and approval process of the board whether the expenses incurred by a board member are actual and necessary expenses incurred in the performance of their official duties.

221 GIFTS TO BOARD OF DIRECTORS

Board members may receive a gift on behalf of the school district. Board members will not, either directly or indirectly, solicit, accept or receive a gift, series of gifts or an honorarium unless the donor does not meet the definition of "restricted donor" stated below or the gift or honorarium does not meet the definition of gift or honorarium stated below.

A "restricted donor" is defined as a person or other entity which:

- Is seeking to be or is a party to any one or any combination of sales, purchases, leases or contracts to, from or with the school district;
- Will be directly and substantially affected financially by the performance or nonperformance of the board member's official duty in a way that is greater than the effect on the public generally or on a substantial class of persons to which the person belongs as a member of a profession, occupation, industry or region; or
- Is a lobbyist or a client of a lobbyist with respect to matters within the school district's jurisdiction.

A "gift" is the giving of anything of value in return for which something of equal or greater value is not given or received. However, "gift" does not include any of the following:

- Contributions to a candidate or a candidate's committee;
- Information material relevant to a board member's official function, such as books, pamphlets, reports, documents, periodicals or other information that is recorded in a written, audio or visual format;
- Anything received from a person related within the fourth degree by kinship or marriage, unless the donor is acting as an agent or intermediary for another person not so related;
- An inheritance;
- Anything available or distributed to the general public free of charge without regard to the official status of the board recipient;
- Items received from a charitable, professional, educational or business organization to which the board member belongs as a dues paying member if the items are given to all members of the organization without regard to an individual member's status or positions held outside of the organization and if the dues paid are not inconsequential when compared to the items received;

ADMINISTRATION (Series 300)

300 ROLE OF SCHOOL DISTRICT ADMINISTRATION

In this series of the board policy manual, the board defines the role and the employment of school district administrators. Policies in the 400 Series, "Employees," also apply to administrators unless a more specific policy exists in the 300 Series, "Administration."

School district administrators have been given a great opportunity and responsibility to manage the school district, to provide educational leadership, and to implement the educational philosophy of the school district. They are responsible for the day-to-day operations of the school district. In carrying out these operations, the administrators are guided by board policies, the law, the needs of the students, and the wishes of the citizens in the school district community.

It is the responsibility of the administrators to implement and enforce the policies of the board, to oversee employees, to monitor educational issues confronting the school district, and to inform the board about school district operations.

While the board holds the superintendent ultimately responsible for these duties, the principals are more directly responsible for educational results, for the administration of the school facilities and for the employees.

The board and the administration will work together to share information and decisions under the management team concept.

Approved 8/8/94Reviewed 11/07/16Revised 9/14/09

301.1 MANAGEMENT

The board and the administrators will work together in making decisions and setting goals for the school district. This effort is designed to obtain, share, and use information to solve problems, make decisions, and formulate school district policies and regulations.

It is the responsibility of each administrator to fully participate in the management of the school district by investigating, analyzing, and expressing their views on issues. Those board members or administrators with special expertise or knowledge of an issue may be called upon to provide information. Each board member and administrator will support the decisions reached on the issues confronting the school district.

The board is responsible for making the final decision in matters pertaining to the school district.

It is the responsibility of the superintendent to develop guidelines for cooperative decision-making.

301.2 MANAGEMENT TEAM

The board and the administration of the school district believe in and endorse the concept of “team Management.” This is an expression of the commitment to the belief that participatory management will result in comprehensive and efficient solutions to local educational concerns.

Decisions made by the management team in a collaborative way have more quality due to the inclusion of diverse approaches and greater quantity of informational input. There is more understanding of the decision and its rationale and a great commitment to the solution by team members. Group decision making improves the cohesiveness of attitudes, and favorable attitudes tend to be associated with high productivity.

The administrative team consists of the superintendent, the building principals, assistant principal and any other employees assigned administrative responsibilities whose day-to-day functions include the recruitment, the evaluation, and the recommendation of release and retention of employees.

The management team is more encompassing than the administrative team and includes all members of the board and the administrative team.

The board is responsible for making the final decision in all matters pertaining the school district policy. The board delegates the responsibility for the operation of schools to the superintendent and hence to other school administrators.

The superintendent is the chief executive officer for the board and the leader of the administrative team. These two roles are joined as the superintendent convenes meeting of the management team to discuss district policy development, administrative procedures and other matters as shall be brought to the superintendent’s attention or which the superintendent deems appropriate. The management team shall convene from time to time when the board or the superintendent calls a meeting.

All members of the administrative team are accountable to the superintendent for their performance. All administrators are responsible for administering their areas of operation as defined by board policy and in keeping with the goals and objectives of the school district. The building administrator is responsible for administering an educational unit in accordance with the individual’s management document.

All members of the management team have the responsibility for exercising full expression during the decision-making process which leads to recommendations for board action on policy matters. Those members of the team who shall be directly affected by the team’s action shall be specifically called upon to provide the team with necessary information as well as their professional judgment as to the effects of the various proposed actions. An attempt will be made by all team members to reach mutual agreement on areas discussed.

Guidelines for implementation of this policy shall be a primary management team concern. These guidelines shall include, but not be limited to, the following:

- Procedures for convening the team;
- Procedures for implementing in-service management team training;
- Procedures for establishing team evaluation;

- Procedures for establishing administrator benefit concerns;
- Procedures for establishing administrator evaluation; and
- Procedures for implementing goals and objectives of the school district.

303.5 SUPERINTENDENT EVALUATION

The board will conduct an ongoing evaluation of the superintendent's skills, abilities, and competence. At a minimum, the board will formally evaluate the superintendent on an annual basis. The goal of the superintendent's formal evaluation is to ensure the education program for the students is carried out, promote growth in effective administrative leadership, clarify the superintendent's role, clarify the immediate priorities of the board, and develop a working relationship between the board and the superintendent.

The superintendent will be an educational leader who promotes the success of all students by:

- Each board member will have an opportunity to individually evaluate the superintendent, and these individual evaluations will be compiled into an overall evaluation by the entire board;

Board members are encouraged to communicate their criticisms and concerns to the superintendent in the closed session. The board president will develop a written summary of the individual evaluations, including both the strengths and the weaknesses of the superintendent, and place it in the superintendent's personnel file to be incorporated into the next cycle of evaluations.

304.5 ADMINISTRATOR DUTIES

Administrators will be hired by the board to assist the superintendent in the day-to-day operations of the school district.

Each attendance center will have a principal responsible for the administration and operation of the attendance center. Each principal, as chief administrator of the assigned attendance center, is responsible for the building and grounds, for the students and employees assigned to the attendance center, for school activities at the attendance center, for the education program offered in the attendance center, and the budget for the attendance center. The principal is considered the professional advisor to the superintendent in matters pertaining to the attendance center supervised by the principal. Although the principals serve under the direction of the superintendent, duties of the principal may include, but not be limited to the following:

- Cooperate in the general organization and plan of procedure in the school under the principal's supervision;
- Supervision of the teachers in the principal's attendance center;
- Maintain the necessary records for carrying out delegated duties;
- Work with the superintendent in rating, recommending and selecting supervised employees whenever possible;
- Work with the superintendent in determining the education program to be offered and in arranging the schedules. As much of the schedule as possible should be made before school closes for summer vacation. In the matter of courses offered, the final approval rests with the superintendent who is in turn responsible to the board;
- Ensure that proper care is taken of all school books, supplies, materials, equipment, furniture and facilities;
- Instruct teachers to make a complete annual inventory of all school property contained in their individual rooms. This inventory is reviewed and filed with the board secretary;
- Investigate excessive cases of absence or tardiness of students and notify the parents or guardians of unexcused absence or tardiness. All such cases should be reported to the superintendent;
- Make such reports from time to time as the superintendent may require;
- Maintain the regular schedule of school hours established by the board and make no temporary changes in the schedule without the consent of the superintendent;
- Promptly notify the superintendent whenever ventilation, sanitation or heating of the building is unsatisfactory;
- Contribute to the formation and implementation of general policies and procedures of the school;
- Perform such other duties as may be assigned by the superintendent of schools.

This list of duties will not act to limit the board's authority and responsibility over the position of the administrators. In executing these duties and others the board may delegate; the administrators will consider the school district's financial condition as well as the needs of the students in the school district.

304.6 ADMINISTRATOR EVALUATION

The superintendent will conduct an ongoing process of evaluating the administrators on their skills, abilities, and competence. Annually, the superintendent will formally evaluate the administrators annually. The goal of the formal evaluation process is to ensure that the educational program for the students is carried out, student learning goals of the school district are met, promote growth in effective administrative leadership for the school district, clarify the administrator's role as defined by the board and the superintendent, ascertain areas in need of improvement, clarify the immediate priorities of the responsibilities listed in the job description, and develop a working relationship between the superintendent and the administrator.

The superintendent is responsible for designing an administrator evaluation instrument. The formal evaluation will include written criteria related to the job description. The superintendent, after receiving input from the administrators, will present the formal evaluation instrument to the board for approval.

The formal evaluation will also include an opportunity for the administrator and the superintendent to discuss the written criteria, the past year's performance and the future areas of growth. The evaluation is completed by the superintendent, signed by the administrator and filed in the administrator's personnel file.

It is the responsibility of the superintendent to conduct a formal evaluation of the probationary administrators and non-probationary administrators prior to May 15.

This policy supports and does not preclude the ongoing informal evaluation of the administrator's skills, abilities and competence.

It is the responsibility of the administrators to arrange their schedules in order to attend various conferences and events in which they are involved. Prior to attendance at an event, the administrator must receive approval from the superintendent. In the case where overnight travel or unusual expense is involved, the superintendent will bring it to the attention of the board prior to the administrator attending the event.

The administrator will report to the superintendent after an event.

The board may include a lump sum amount as part of the administrator's compensation to be used specifically for paying the annual fees of the administrator for school district community activities and events if, in the board's judgment, the administrator's participation will further the public purpose of promoting and deriving support for the school district and public education in general. 304.9 ADMINISTRATOR CONSULTING/OUTSIDE EMPLOYMENT

An administrative position is considered full-time employment. The board expects administrators to give the responsibilities of their positions in the school district precedence over other employment. An administrator may accept consulting or outside employment for pay as long as the administrator notifies the superintendent and, in the judgment of the board and the superintendent, the work is conducted on the administrator's personal time and it does not interfere with the performance of the administrative duties contracted by the board.

The board reserves the right, however, to request the administrator cease the outside employment as a condition of continued employment. The board will give the administrator thirty days notice to cease outside employment.

308 SUCCESSION OF AUTHORITY TO THE SUPERINTENDENT

In the absence of the superintendent, it is the responsibility of the other administrators to assume the superintendent's duties. The succession of authority to the superintendent is in this order: an administrator in the district with superintendent licensure, followed by an administrator designated by the board.

If the absence of the superintendent is temporary, the successor will assume only those duties and responsibilities of the superintendent that require immediate action. If the board determines the absence of the superintendent will be a lengthy one, the board will appoint an acting superintendent to assume the responsibilities of the superintendent. The successor will assume the duties when the successor learns of the superintendent's absence or when assigned by the superintendent or the board.

309 COMMUNICATION CHANNELS

Questions and problems are resolved at the lowest organizational level nearest to the complaint. School employees are responsible for conferring with their immediate supervisor on questions and concerns. Students and other members of the school district community will confer with a licensed employee and then with the principal on questions and concerns.

If resolution is not possible by any of the above, individuals may bring it to the attention of the superintendent within 5 school days of their discussion with the principal. If there is no resolution or plan for resolution by the superintendent within 10 school days of the individual's discussion with the superintendent, the individual may ask to have the question or problem placed on the board agenda.

400 ROLE OF AND GUIDING PRINCIPLES FOR EMPLOYEES

This series of the board policy manual is devoted to the board's goals and objectives for employees in the performance of their jobs. Employees provide a variety of important services for the children of the school district community. They may be teaching or assisting in the classroom, working in the office, maintaining the facilities, driving or repairing the school buses, or cooking lunches. Each employee plays a vital role in providing an equal opportunity for a quality education for students commensurate with the students' individual needs. While the teachers have the most direct impact on the formal instruction of students, all employees have an impact on the school environment by their dedication to their work and their actions. As role models for the students, employees shall promote a cooperative, enthusiastic, and supportive learning environment for the students.

In striving to achieve a quality education program, the board's goal is to obtain and retain qualified and effective employees. The board shall have complete discretion to determine the number, the qualifications, and the duties of the positions and the school district's standards of acceptable performance. It shall be the responsibility of the superintendent to make recommendations to the board in these areas prior to board action. The board recognizes its duty to bargain collectively with duly certified collective bargaining units. The board shall strive to fulfill this duty.

Board policies in this series relating to general employees shall apply to employees regardless of their position as a licensed employee, classified employee, substitute or administrator. Board policies relating to licensed employees shall apply to positions that require a teaching license or administrator's certificate or other professional license, certificate or endorsement, unless administrative positions are specifically excluded from the policy. Classified employees' policies included in this series shall apply to positions that do not fall within the definition of licensed employee.

401.2 EQUAL EMPLOYMENT OPPORTUNITY

The Shenandoah Community School District will provide equal opportunity to employees and applicants for employment in accordance with applicable equal employment opportunity and affirmative action laws, directives and regulations of federal, state and local governing bodies. Opportunity to all employees and applicants for employment includes hiring, placement, promotion, transfer or demotion, recruitment, advertising or solicitation for employment, treatment during employment, rates of pay or other forms of compensation, and layoff or termination. The school district will take affirmative action in major job categories where women, men, minorities and persons with disabilities are underrepresented. Employees will support and comply with the district's established equal employment opportunity and affirmative action policies. Employees will be given notice of this policy annually.

The board will appoint an affirmative action coordinator. The affirmative action coordinator will have the responsibility for drafting the affirmative action plan. The affirmative action plan will be reviewed by the Superintendent and Affirmative Action Coordinator at least every two years.

Individuals who file an application with the school district will be given consideration for employment if they meet or exceed the qualifications set by the board, administration, and Iowa Department of Education for the position for which they apply. In employing individuals, the board will consider the qualifications, credentials, and records of the applicants without regard to age, race, color, sex, national origin, gender, gender identity, religion, creed, marital status, sexual orientation, socioeconomic status, or disability. In keeping with the law, the board will consider the veteran status of applicants.

Prior to a final offer of employment for any district position, the district shall conduct background checks of the applicant(s) as required by law. The district shall also conduct or ensure the requisite follow-up background checks are conducted of employees at least every five years as required by law. An employee shall not be charged for background checks, except as permitted by Iowa law. The district reserves the right to conduct background checks for volunteers prior to initial service or at any time thereafter.

Advertisements and notices for vacancies within the district will contain the following statement: "The Shenandoah Community School District is an equal employment opportunity/affirmative action employer." The statement will also appear on application forms.

Inquiries by employees or applicants for employment regarding compliance with equal employment opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, will be directed to the Affirmative Action Coordinator by writing to the Affirmative Action Coordinator, Shenandoah Community School District, 304 West Nishna Road, Shenandoah, Iowa 51601; or by telephoning (712) 246- 1581.

401.3 EMPLOYEE CONFLICT OF INTEREST

Employees' use of their position with the school district for financial gain is considered a conflict of interest with their position as employees and may subject employees to disciplinary action.

Employees have access to information and a captive audience that could award the employee personal or financial gain. No employee may solicit other employees or students for personal or financial gain to the employee without the approval of the superintendent. If the approval of the superintendent is given, the employee must conduct the solicitations within the conditions set by the superintendent.

Further, the superintendent may, upon five days notice, require the employee to cease such solicitations as a condition of continued employment.

Employees will not act as an agent or dealer for the sale of textbooks or other school supplies. Employees will not participate for personal financial remuneration in outside activities wherein their position on the staff is used to sell goods or services to students or to parents. Employees will not engage in outside work or activities where the source of information concerning the customer, client or employer originates from information obtained because of the employee's position in the school district.

It will also be a conflict of interest for an employee to engage in any outside employment or activity which is in conflict with the employee's official duties and responsibilities. In determining whether outside employment or activity of an employee creates a conflict of interest, situations in which an unacceptable conflict of interest is deemed to exist will include, but not be limited to, any of the following:

1. The outside employment or activity involves the use of the school district's time, facilities, equipment and supplies or the use of the school district's badge, uniform, business card or other evidences of office to give the employee or the employee's immediate family an advantage or pecuniary benefit that is not available to other similarly situated members or classes of members of the general public. For purposes of this section, a person is not "similarly situated" merely by being related to an employee who is employed by the school district.
2. The outside employment or activity involves the receipt of, promise of, or acceptance of more or other consideration by the employee or a member of the employee's immediate family from anyone other than the school district for the performance of any act that the employee would be required or expected to perform as part of the employee's regular duties or during the hours during which the employee performs service or work for the school district.
3. The outside employment or activity is subject to the official control, inspection, review, audit or enforcement authority of the employee during the performance of the employee's duties.

If the outside employment or activity is employment or activity in (1) or (2) above, the employee must cease the employment of or activity. If the activity or employment falls under (3), then the employee must:

Cease the outside employment or activity; or

Publicly disclose the existence of the conflict and refrain from taking any official action or performing any official duty that would detrimentally affect or create a benefit for the outside employment or activity. Official action or official duty includes, but is not limited to, participating in any vote, taking affirmative

action to influence any vote, or providing any other official service or thing that is not available generally to members of the public in order to further the interests of the outside employment or activity.

When procurement is supported by Federal Child Nutrition funds, employees will not participate in the selection, award, or administration of a contract if there is a real or apparent conflict of interest in the contract. Contract, for purposes of this paragraph, includes a contract where the employee, employee's immediate family, partner, or a non-school district employer of these individuals is a party to the contract.

It is the responsibility of each employee to be aware of and take the necessary action to eliminate a potential conflict of interest should it arise.

The records will include, but not be limited to, records necessary for the daily administration of the school district, salary records, evaluations, application for employment, references, and other items needed to carry out board policy. Only in certain limited instances, when the employee has given a signed consent, will employee personnel records be accessible to individuals other than the employee or authorized school officials.

Employees may have access to their personnel files, with the exception of letters of reference, and copy items from their personnel files at a time mutually agreed upon between the superintendent and the employee. 401.9 USE OF SCHOOL DISTRICT FACILITIES & EQUIPMENT BY EMPLOYEES

The primary purpose of the school district facilities and equipment is to deliver a quality education program. Resources for school district equipment are limited; therefore each user must operate the equipment with the utmost care. Employees may use school district equipment for any school purpose or activity held during the school day or for a school-sponsored event.

Employees may use the school district facilities for nonschool-sponsored events when it does not interfere with the delivery of the education program. Employees must have the permission of the appropriate supervisor, do it on their own time and must pay for the materials used. An employee's request will not supersede a prior request. The employee will be responsible for ensuring the building is in the condition it was found. For non-educational business, the employee will be responsible to meet the requirements set out by the principal when the request is granted.

Employees may use school district credit cards for the actual and necessary expenses incurred in the performance of work-related duties. Actual and necessary expenses incurred in the performance of work-related duties include, but are not limited to, fuel for school district transportation vehicles used for transporting students to and from school and for school-sponsored events, payment of claims related to professional development of the board and employees, and other expenses required by employees and the board in the performance of their duties.

School credit cards shall not be used for purchasing goods for personal use, for non-school matters, or for school related purchases that have not been authorized in advance. Violating any of these restrictions may result in discipline up to and including termination of employment. The use of a credit card for personal purchases may also violate the criminal code of Iowa and may be deemed misconduct in office.

Employees and officers using a school district credit card must submit a detailed receipt in addition to a credit card receipt indicating the date, purpose and nature of the expense for each claim item. Failure to provide a proper receipt will make the employee responsible for expenses incurred. Those expenses are reimbursed to the school district no later than ten working days following use of the school district's credit card. In exceptional circumstances, the superintendent or board may allow a claim without proper receipt. Written documentation explaining the exceptional circumstances is maintained as part of the school district's record of the claim.

It is the responsibility of the board to determine through the audit and approval process of the board whether the school district credit card use by the superintendent and the board is for appropriate school business.

The superintendent is responsible for developing administrative regulations regarding actual and necessary expenses and use of a school district credit card. The administrative regulations will include the appropriate forms to be filed for obtaining a credit card.

401.17 STAFF TECHNOLOGY USE/SOCIAL NETWORKING

Computers are a powerful and valuable education and research tool and, as such, are an important part of the instructional program. In addition, the school district depends upon computers as an integral part of administering and managing the schools' resources, including the compilation of data and recordkeeping for personnel, students, finances, supplies and materials. This policy outlines the board's expectations in regard to these different aspects of the school district's computer resources.

Employees must conduct themselves in a manner that does not disrupt from or disrupt the educational process and failure to do so will result in discipline, up to and including, discharge.

General Provisions

The superintendent is responsible for designating a Technology Director who will oversee the use of school district computer resources. The Technology Director will prepare in-service programs for the training and development of school district staff in computer skills, appropriate use of computers and for the incorporation of computer use in subject areas.

The superintendent, working with appropriate staff, shall establish regulations governing the use and security of the school district's computer resources. The school district will make every reasonable effort to maintain the security of the system. All users of the school district's computer resources, including students, staff and volunteers, shall comply with this policy and regulation, as well as others impacting the use of school equipment and facilities. Failure to comply may result in disciplinary action, up to and including discharge, as well as suspension and/or revocation of computer access privileges.

Usage of the school district's computer resources is a privilege, not a right, and that use entails responsibility. All information on the school district's computer system is considered a public record. Whether there is an exception to keep some narrow, specific *content* within the information confidential is determined on a case by case basis. Therefore, users of the school district's computer network must not expect, nor does the school district guarantee, privacy for e-mail or use of the school district's computer network including web sites visited. The school district reserves the right to access and view any material stored on school district equipment or any material used in conjunction with the school district's computer network.

The superintendent, working with the appropriate staff, shall establish procedures governing management of computer records in order to exercise appropriate control over computer records, including financial, personnel and student information. The procedures will address:

- passwords,
- system administration,
- separation of duties,
- remote access,
- data back-up (including archiving of e-mail),
- record retention, and
- disaster recovery plans.

Social Networking or Other External Web Sites

For purposes of this policy any web site, other than the school district web site or school-school district sanctioned web sites, are considered external web sites. Employees shall not post confidential or proprietary information, including photographic images, about the school district, its employees, students, agents or others on any external web site without consent of the superintendent. The employee shall adhere to all applicable privacy and confidentiality policies adopted by the school district when on external web sites. Employees shall not use the school district logos, images, iconography, etc. on external web sites. Employees shall not use school district time or property on external sites that are not in direct-relation to the employee's job. Employees, students and volunteers need to realize that the Internet is not a closed system and anything posted on an external site may be viewed by others, all over the world. Employees, students and volunteers who don't want school administrators to know their personal information, should refrain from exposing it on the Internet. *[Employees should not connect with students via external web sites without consent of the superintendent.]* Employees, who would like to start a social media site for school district sanctioned activities, should contact the superintendent.

It is the responsibility of the superintendent to develop administrative regulations implementing this policy.

402.2 CHILD ABUSE REPORTING

In compliance with state law and to provide protection to victims of child abuse, the board believes incidents of alleged child abuse should be reported to the proper authorities. All licensed school employees, teachers, coaches and paraeducators are mandatory reporters as provided by law and are to report alleged incidents of child abuse they become aware of within the scope of their professional duties.

When a mandatory reporter suspects a student is the victim of child abuse, the mandatory reporter shall make an oral report of the suspected child abuse to the Iowa Department of Human Services within 24 hours of becoming aware of the abusive incident and shall make a written report to the Iowa Department of Human Services within 48 hours following the oral report. If the mandatory reporter believes the child is in immediate danger, the local law enforcement agency will also be notified.

Within six months of their initial employment, mandatory reporters will take a two-hour training course involving the identification and reporting of child abuse, or submit evidence they've taken the course within the previous five years. The course will be re-taken at least every five years.

NOTE: For more information, please visit the "Report Abuse and Fraud" section of the Iowa Department of Human Services' website, located at <http://dhs.iowa.gov/report-abuse-and-fraud>.

NOTE: Please remember there are two types of reporters identified in Iowa law: mandatory reporters and permissive reporters. Mandatory reporters are those individuals who are required by law to report suspected incidents of child abuse when they become aware of such incidents within the scope of their employment or professional responsibilities. Permissive reporters are not required by law to report abuse, but may choose to report to the Iowa Department of Human Services. While all licensed school employees, teachers, coaches and paraeducators are mandatory reporters within the scope of their profession, they are considered permissive reporters outside the scope of their profession.

402.2R1 CHILD ABUSE REPORTING REGULATION

Iowa law requires licensed employees to report to the Iowa Department of Human Services (DHS) instances of suspected child abuse which they become aware of within the scope of their professional duties.

The law further specifies that a licensed employee who knowingly or willfully fails to report a suspected case of child abuse is guilty of a simple misdemeanor and that the licensed employee may be subject to civil liability for damages caused by the failure to report.

Employees participating in good faith in the making of a report or in a judicial proceeding that may result from the report, are immune from liability.

Child Abuse Defined

"Child abuse" is defined as:

- Any nonaccidental physical injury, or injury which is at variance with the history given of it, suffered by a child as the result of the acts or omissions of a person responsible for the care of the child.
- The commission of a sexual offense with or to a child . . . as a result of the acts or omissions of the person responsible for the child. . . . Sexual offense includes sexual abuse, incest, and sexual exploitation of a minor.
- The failure on the part of a person responsible for the care of a child to provide for the adequate food, shelter, clothing or other care necessary for the child's welfare when financially able to do so. A parent or guardian legitimately practicing religious beliefs who does not provide specified medical treatment for a child for that reason alone will not be considered abusing the child
- The acts or omissions of a person responsible for the care of a child which allow, permit or encourage the child to engage in acts prohibited pursuant to *Iowa Code*, section 725.1 which deals with prostitution.
 - Any mental injury to a child's intellectual or psychological capacities evidenced by an observable and substantial impairment in the child's ability to function within the child's normal range of performance and behavior as the result of the acts or omissions of a person responsible for the care of the child, if the impairment is diagnosed by a licensed physician or qualified mental health professional
 - An illegal drug is present in a child's body as a direct and foreseeable consequence of the acts of omissions of the person responsible for the care of the child.

Teachers in public schools are not "persons responsible for the care of the child" under this definition. However, a teacher who abuses a child is subject to civil, criminal, and professional sanctions.

Reporting Procedures

Licensed employees, including teachers and school nurses, are required to report, either orally or in writing, within twenty-four hours to the Iowa Department of Human Services (DHS) when the employee reasonably believes a

child has suffered from abuse within the scope of employment. Within forty-eight hours of an oral report, a written report must be filed with DHS.

Each report should contain as much of the following information as can be obtained within the time limit. However, the law specifies a report will be considered valid even if it does not contain all of the following information:

- name, age, and home address of the child;
- name and home address of the parents, guardians or other persons believed to be responsible for the care of the child;
- the child's present whereabouts if not the same as the parent's or other person's home address;
- description of injuries, including evidence of previous injuries;
- name, age, and condition of other children in the same home;
- any other information considered helpful; and,
- name and address of the person making the report.

Board policy states it is not the responsibility of employees to prove that a child has been abused or neglected. Employees should not take it upon themselves to investigate the case or contact the family of the child. DHS is responsible for investigating the incident of alleged abuse.

402.3 ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES

Physical or sexual abuse of students, including inappropriate and intentional sexual behavior, by employees will not be tolerated. The definition of employees for the purpose of this policy includes not only those who work for pay but also those who are volunteers of the school district under the direction and control of the school district. Employees found in violation of this policy will be subject to disciplinary action up to and including discharge.

The school district will respond promptly to allegations of abuse of students by school district employees by investigating or arranging for the investigation of an allegation. The processing of a complaint or allegation will be handled confidentially to the maximum extent possible. Employees are required to assist in the investigation when requested to provide information and to maintain the confidentiality of the reporting and investigation process.

The school district has appointed a Level I investigator and alternate Level I investigator. The school district has also arranged for a trained, experienced professional to serve as the Level II investigator. The Level I investigator and alternate will be provided training in the conducting of an investigation at the expense of the school district. 402.3R1 ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

An individual who has knowledge an employee has physically or sexually abused a student may immediately report it to the school nurse, who is the school district's Level I investigator. "Employee" means one who works for pay or as a volunteer under the direction and control of the school district. The report is written, signed and witnessed by a person of majority age. The witness may be the Level I investigator. The reporter is the individual filing the report. The report will contain the following:

- The full name, address, and telephone number of the person filing.
- The full name, age, address, and telephone number, and attendance center of the student.
- The name and place of employment of the employee who allegedly committed the abuse.
- A concise statement of the facts surrounding the incident, including date, time, and place of occurrence, if known.
- A list of possible witnesses by name, if known.
- Names and locations of persons who examined, counseled or treated the student for the alleged abuse, including the dates on which those services were provided, if known.

Upon request, the Level I investigator may assist the reporter in completing the report. An incomplete report will not be rejected unless the missing information would render the investigation futile or impossible. An employee receiving a report of alleged abuse of a student by an employee will pass the report to the investigator and will keep the report confidential to the maximum extent possible. In performing the investigation, the investigator will have access to the educational records of the alleged student victim as well as access to the student for interviewing purposes.

In order for the school district to have jurisdiction over the acts and to constitute a violation of the law, acts of the employee must be alleged to have occurred on school grounds, on school time, at a school-sponsored activity, or in a school-related context. However, the student need not be a student in the school district. The student can be from another school district. To be investigable, the written report must include basic information showing that the victim of the alleged abuse is or was a student at the time of the incident, that the alleged act of the employee resulted in injury or otherwise meets the definition of abuse in these rules, and that the person responsible for the act is currently an employee. If the report is not investigable due to lack of jurisdiction, the investigator will dismiss the complaint and inform the reporter of other options available. Other options available to the reporter include contacting law enforcement authorities, private counsel, or the Board of Educational Examiners in the case of a licensed employee.

If the Level I investigator believes the student is in imminent danger if continued contact is permitted between the employee and the student, the Level I investigator may:

- temporarily remove the student from contact with the employee;
- temporarily remove the employee from service; or,
- take other appropriate action to ensure the student's safety.

The Level I investigator will have access to the educational records of the student and access to the student for purposes of interviewing the student about the report.

Physical Abuse Allegations

When physical abuse is reported, the Level I investigator will make copies of the report and give a copy to the person filing the report, the students' parents and the immediate supervisor of the employee named in the report. The employee named in the report will not receive a copy of the report until the employee is initially interviewed.

The Level I investigator will use discretion in handling the information received regarding an investigation of abuse by an employee, and those persons involved in the investigation will not discuss information regarding the complaint outside the investigation. The entire investigative procedure will be thoroughly explained, including the confidential nature of the proceedings, to the student and other persons involved in the investigation.

Within five days of receipt of an investigable report, the Level I investigator will complete an informal investigation. The informal investigation will consist of interviews with the student, the employee and others who may have knowledge of the alleged incident. If the Level I investigator determines that the allegations in the report are founded and that immediate and professional investigation is necessary, the Level I investigator may defer further investigation and contact appropriate law enforcement officials, the student's parents and the person filing the report. Within fifteen days of receipt of the report, the Level I investigator will complete a written investigative report, unless the investigation was temporarily deferred.

The written investigative report will include:

1. The name age, address and attendance center of the student named in the report.
2. The name and address of the student's parent or guardian and the name and address of the person filing the report, if different from the student's parent or guardian.
3. The name and work address of the employee named in the report as allegedly responsible for the abuse of the student.
4. An identification of the nature, extent and cause, if known, of any injuries or abuse to the student named in the report.
5. A general review of the investigation.
6. Any actions taken for the protection and safety of the student.
7. A statement that, in the investigator's opinion, the allegations in the report are either:
 - Unfounded. (*It is not likely that an incident, as defined in these rules, took place*), or
 - Founded. (*It is likely that an incident took place.*)
8. The disposition or current status of the investigation.
9. A listing of the options available to the parents or guardian of the student to pursue the allegations. These options include, but are not limited to:
10. Contacting law enforcement officials.
11. Contacting private counsel for the purpose of filing a civil suit or complaint.
12. Filing a complaint with the board of educational examiners if the employee is a licensed employee.

The investigator will retain the original and provide a copy of the written investigative report to the school employee named in the report, the employee's supervisor and the student's parent or guardian. The person filing the report, if not the student's parent or guardian, is notified only that the Level I investigation has been concluded and of the disposition or anticipated disposition of the case.

It is the responsibility of the Level I investigator to determine whether it is more likely than not that an incident of abuse as defined in the rules took place between the student and employee. The Level I investigator does not make the determination of whether the use of physical contact was appropriate or whether any of the exceptions apply. That is the responsibility of the Level II investigator. Upon completion of the report, if the Level I investigator determines the allegations of physical abuse are founded and serious, the Level I investigator will notify law enforcement authorities. If the allegations are founded but the physical abuse is not of a serious nature, the Level I investigator will refer the case on to law enforcement officials, the Level II investigator.

The Level II investigator will review the Level I investigator's final investigative report and conduct further investigation. The Level II investigative report will state the conclusion as to the occurrence of the alleged incident, the applicability of exceptions, the reason for the contact or force used, and recommendations regarding the need for further investigation. In determining the applicability of the exceptions or the reasonableness of the contact or force used, the Level II investigator will use the following definitions:

Physical abuse is non-accidental physical injury to the student as a result of the action of an employee. Injury occurs when evidence of it is still apparent at least twenty-four hours after its occurrence. The following do not constitute physical abuse, and no employee is prohibited from:

- a. Using reasonable and necessary force, not designed or intended to cause pain:
 - (1) To quell a disturbance or prevent an act that threatens physical harm to any person.
 - (2) To obtain possession of a weapon or other dangerous object within a pupil's control.
 - (3) For the purposes of self-defense or defense of others as provided for in Iowa Code § 704.3.
 - (4) For the protection of property as provided for in Iowa Code §§ 704.4, .5.
 - (5) To remove a disruptive pupil from class, or any area of school premises or from school-sponsored activities off school premises.
 - (6) To prevent a student from the self-infliction of harm.
 - (7) To protect the safety of others.
- b. Using incidental, minor, or reasonable physical contact to maintain order and control.

In determining the reasonableness of the contact or force used, the following factors are considered:

- a. The nature of the misconduct of the student, if any, precipitating the physical contact by the school employee.
- b. The size and physical condition of the student.
- c. The instrumentality used in making the physical contact.
- d. The motivation of the school employee in initiating the physical contact.
- e. The extent of injury to the student resulting from the physical contact.

"Reasonable force" is that force and no more which a reasonable person, in like circumstances, would judge to be necessary to prevent an injury or loss and can include deadly force if it is reasonable to believe that such force is necessary to avoid injury or risk to one's life or safety or the life or safety of another, or it is reasonable to believe that such force is necessary to resist a like force or threat.

Upon completion of the Level II investigation, the Level I investigator will forward copies of the Level II investigative report to the employee, the employee's immediate supervisor and the student's parent. The Level I investigator will notify the person filing the report of the current status of the case.

If the Level II investigator's report or law enforcement officials conclude abuse occurred, or the employee admits the violation, or the employee has surrendered the employee's certificate or license, the Level I investigator will file a complaint with the State Board of Educational Examiners. The Level I investigator will also arrange for counseling services for the student if the student or student's parents request counseling services.

Sexual Abuse

Sexual abuse is defined as including sexual acts involving a student, acts that encourage the student to engage in prostitution, as well as inappropriate, intentional sexual behavior or sexual harassment by the employee toward a student. "Sexual harassment" is defined as unwelcome sexual advances, requests for sexual favors or other verbal or physical conduct of a sexual nature when:

- 1.Submission to the conduct is made either implicitly or explicitly a term or condition of the student's education or benefits;
- 2.Submission to or rejection of the conduct is used as the basis for academic decisions affecting that student; or
- 3.The conduct has the purpose or effect of substantially interfering with a student's academic performance by creating an intimidating, hostile or offensive education environment.

When sexual abuse is reported, the Level I investigator will make copies of the report and give a copy to the person filing the report, the students' parents and the immediate supervisor of the employee named in the report. The employee named in the report will not receive a copy of the report until the employee is initially interviewed. The designated investigator will not interview the school employee named in a report of sexual abuse until after a determination is made that jurisdiction exists, the alleged victim has been interviewed and a determination made that the investigation will not be deferred.

The investigator will notify the parent, guardian or legal custodian of a student in prekindergarten through grade six, of the date and time of the interview and of the right to be present or to see and hear the interview or send a representative in the parent's place. The Level I investigator will interview the student as soon as possible, but in no case later than five days from the receipt of a report or notice of the allegation of sexual abuse. The Level I investigator may record the interview electronically.

The Level I investigator will exercise discretion in the investigative process to preserve the privacy interests of the individuals involved. To the maximum extent possible, the investigator will maintain the confidentiality of the report.

It is the responsibility of the Level I investigator to determine whether it is more likely than not that an incident took place between the employee and the student. If the Level I investigator believes the employee committed a sex act with a student or sexually exploited a student, the Level I investigator will defer the Level I investigation and immediately notify law enforcement officials, the student's parents and the person filing the report.

If the Level I investigator determines an incident occurred, while not an illegal sex act with a student or sexual exploitation of a student, but where the employee engaged in inappropriate, intentional sexual behavior, further investigation is warranted. If further investigation is warranted, the Level I investigator may proceed to interview the employee and other individuals who may have knowledge of the circumstances contained in the report. Prior to interviewing other individuals who may have knowledge of the circumstance contained in the report, the Level I investigator will provide notice of the impending interview of student witnesses or the student who is in prekindergarten through grade six, to their parent, guardian, or legal custodian, and may provide notice to the parent or guardian of older students, prior to interviewing those students. The Level I investigator shall, if founded, arrange for the Level II investigator to further investigate the allegations.

Within fifteen days of receipt of the report or notice of alleged sexual abuse, the Level I investigator will

complete a written investigative report unless the investigation was temporarily deferred. The written investigative report will include:

1. The name, age, address and attendance center of the student named in the report.
2. The name and address of the student's parent or guardian and the name and address of the person filing the report, if different from the student's parent or guardian.
3. The name and work address of the school employee named in the report as allegedly responsible for the abuse of the student.
4. An identification of the nature, extent and cause, if known, of any injuries or abuse to the student named in the report.
5. A general review of the investigation.
6. Any actions taken for the protection and safety of the student.
7. A statement that, in the investigator's opinion, the allegations in the report are either:
 - Unfounded. (*It is not likely that an incident, as defined in these rules, took place*), or
 - Founded. (*It is likely that an incident took place.*)
8. The disposition or current status of the investigation.
9. A listing of the options available to the parents or guardian of the student to pursue the allegations. These options include, but are not limited to:
 - Contacting law enforcement officials.
 - Contacting private counsel for the purpose of filing a civil suit or complaint.
 - Filing a complaint with the board of educational examiners if the school employee is certificated.

The investigator will retain the original and provide a copy of the investigative report to the school employee named in the report, the school employee's supervisor and the named student's parent or guardian. The person filing the report, if not the student's parent or guardian, is notified only that the Level I investigation has been concluded and of the disposition or anticipated disposition of the case.

If the allegations are founded, the Level I investigator will refer the case to the Level II investigator. The Level II investigator will review the Level I investigator's final investigative report and conduct further investigation if necessary. The Level II investigative report will state conclusively as to the occurrence of the alleged incident, conclusively as to the nature of the sexual abuse and recommendations regarding the need for further investigation. Upon completion of the Level II investigation, the Level I investigator will forward copies of the Level II investigative report to the employee, the employee's immediate supervisor and the student's parent. The Level I investigator will notify the person filing the report of the current status of the case.

If the Level II investigator's report or law enforcement officials conclude sexual abuse occurred, or the employee admits the violation, or the employee has surrendered the employee's certificate or license, the Level I investigator will file a complaint on behalf of the district after obtaining the superintendent's signature with the State Board of Educational Examiners. The Level I investigator will also arrange for counseling services for the student if the student or student's parents request counseling services.

In cases involving founded physical or sexual abuse by a licensed employee, the board will notify the Board of Educational Examiners. Information of unfounded abuse at Level I or Level II will not be kept in the employee's personnel file. If the Level I investigative report is founded but Level II is unfounded, then the Level I report is removed from the employee's permanent file.

It is the responsibility of the board to annually identify a Level I and Level II investigator. The board will also designate annually an alternate Level I investigator, preferably of the opposite sex of the designated Level I

investigator, to whom reports may also be made. The names and telephone numbers of the Level I investigator and the alternate Level I investigator is included in employee handbooks, student handbooks, annually published in the local newspaper, and prominently displayed in all school buildings.

402.5 PUBLIC COMPLAINTS ABOUT EMPLOYEES

The board recognizes situations may arise in the operation of the school district which are of concern to parents and other members of the school district community. While constructive criticism is welcomed, the board desires to support its employees and their actions to free them from unnecessary, spiteful, or negative criticism and complaints that do not offer advice for improvement or change.

The board firmly believes concerns should be resolved at the lowest organizational level by those individuals closest to the concern. Whenever a complaint or concern is brought to the attention of the board it will be referred to the administration to be resolved. Prior to board action however, the following should be completed:

- (a) Matters concerning an individual student, teacher, or other employee should first be addressed to the teacher or employee.
- (b) Unsettled matters from (a) above or problems and questions about individual attendance centers should be addressed to the employee's building principal for licensed employees and the direct supervisor for classified employees.
- (c) Unsettled matters regarding licensed employees from (b) above or problems and questions concerning the school district should be directed to the superintendent.
- (d) If a matter cannot be settled satisfactorily by the superintendent, it may then be brought to the board. To bring a concern regarding an employee, the individual may notify the board president in writing, who may bring it to the attention of the entire board, or the item may be placed on the board agenda of a regularly scheduled board meeting in accordance with board policy 214.1.

It is within the discretion of the board to address complaints from the members of the school district community, and the board will only do so if they are in writing, signed, and the complainant has complied with this policy.

402.7 EMPLOYEE OUTSIDE EMPLOYMENT

The board believes the primary responsibility of employees is to the duties of their position within the school district as outlined in their job description. The board considers an employee's duties as part of a regular, full-time position as full-time employment. The board expects such employees to give the responsibilities of their positions in the school district precedence over any other employment.

It is the responsibility of the superintendent to counsel employees, whether full-time or part-time, if, in the judgment of the superintendent and the employee's immediate supervisor, the employee's outside employment interferes with the performance of the employee's duties required in the employee's position within the school district.

The board may request the employee to cease the outside employment as a condition of continued employment with the school district.

Employees may receive and make personal telephone calls during lunches, breaks, or preparation periods. Employees may receive an emergency telephone call at any time.

Classroom and office telephones are available for personal telephone calls. 403.1 EMPLOYEE PHYSICAL EXAMINATIONS

Good health is important to job performance. Employees will present evidence of good health, in the form of a physical examination report, prior to their employment with the school district. A physical examination report is required at least every three years thereafter.

School bus drivers will present evidence of good health every other year in the form of a physical examination report unless otherwise required by law or medical opinion. Employees whose physical or mental health, in the judgment of the administration, may be in doubt will submit to additional examinations, when requested to do so, at the expense of the school district.

The cost of the initial examination will be paid by the employee. The form, indicating the employee is able to perform the duties for which the employee was hired must be returned prior to payment of salary.

It is the responsibility of the superintendent to write an exposure control plan to eliminate or minimize district occupational exposure to blood borne pathogens. The plan for designated employees will include, but not be limited to, scope and application, definitions, exposure control, methods of compliance, Hepatitis B vaccination and post-exposure evaluation and follow-up, communication of hazards to employees, and record keeping.

403.3 COMMUNICABLE DISEASES - EMPLOYEES

Employees with a communicable disease will be allowed to perform their customary employment duties provided they are able to perform the essential functions of their position and their presence does not create a substantial risk of illness or transmission to students or other employees. The term "communicable disease" will mean an infectious or contagious disease spread from person to person, or animal to person, or as defined by law.

Prevention and control of communicable diseases is included in the school district's bloodborne pathogens exposure control plan. The procedures will include scope and application, definitions, exposure control, methods of compliance, universal precautions, vaccination, post-exposure evaluation, follow-up, communication of hazards to employees and record keeping. This plan is reviewed annually by the superintendent and school nurse.

The health risk to immunodepressed employees is determined by their personal physician. The health risk to others in the school district environment from the presence of an employee with a communicable disease is determined on a case-by-case basis by the employee's personal physician, a physician chosen by the school district or public health officials.

An employee who is at work and who has a communicable disease which creates a substantial risk of harm to a student, coworkers, or others at the workplace will report the condition to the Superintendent any time the employee is aware that the disease actively creates such risk.

Health data of an employee is confidential and it will not be disclosed to third parties. Employee medical records are kept in a file separate from their personal file.

It is the responsibility of the superintendent, in conjunction with the school nurse, to develop administrative regulations stating the procedures for dealing with employees with a communicable disease.

403.3E1 HEPATITIS B VACCINE INFORMATION AND RECORD

The Disease

Hepatitis B is a viral infection caused by the Hepatitis B virus (HBV) which causes death in 1-2% of those infected. Most people with HBV recover completely, but approximately 5-10% become chronic carriers of the virus. Most of these people have no symptoms, but can continue to transmit the disease to others. Some may develop chronic active hepatitis and cirrhosis. HBV may be a causative factor in the development of liver cancer. Immunization against HBV can prevent acute hepatitis and its complications.

The Vaccine

The HBV vaccine is produced from yeast cells. It has been extensively tested for safety and effectiveness in large scale clinical trials.

Approximately 90 percent of healthy people who receive two doses of the vaccine and a third dose as a booster achieve high levels of surface antibody (anti-HBs) and protection against the virus. The HBV vaccine is recommended for workers with potential for contact with blood or body fluids. Full immunization requires three doses of the vaccine over a six-month period, although some persons may not develop immunity even after three doses.

There is no evidence that the vaccine has ever caused Hepatitis B. However, persons who have been infected with HBV prior to receiving the vaccine may go on to develop clinical hepatitis in spite of immunization.

Dosage and Administration

The vaccine is given in three intramuscular doses in the deltoid muscle. Two initial doses are given one month apart and the third dose is given six months after the first.

Possible Vaccine Side Effects

The incidence of side effects is very low. No serious side effects have been reported with the vaccine. Ten to 20 percent of persons experience tenderness and redness at the site of injection and low grade fever. Rash, nausea, joint pain, and mild fatigue have also been reported. The possibility exists that other side effects may be identified with more extensive use.

CONSENT OF HEPATITIS B VACCINATION

I have knowledge of Hepatitis B and the Hepatitis B vaccination. I have had an opportunity to ask questions of a qualified nurse or physician and understand the benefits and risks of Hepatitis B vaccination. I understand that I must have three doses of the vaccine to obtain immunity. However, as with all medical treatment, there is no guarantee that I will become immune or that I will not experience side effects from the vaccine. I give my consent to be vaccinated for Hepatitis B.

REFUSAL OF HEPATITIS B VACCINATION

I understand that due to my occupational exposure to blood or other potentially infectious materials I may be at risk of acquiring the Hepatitis B virus infection. I have been given the opportunity to be vaccinated with Hepatitis B vaccine at no charge to myself. However, I decline the Hepatitis B vaccination at this time. I understand that by declining this vaccine, I continue to be at risk of acquiring Hepatitis B, a serious disease. If in the future I continue to have occupational exposure to blood or other potentially infectious materials and I want to be vaccinated with the Hepatitis B vaccine, I can receive the vaccination series at no charge to me.

403.3R1 UNIVERSAL PRECAUTIONS REGULATION

Universal precautions (UP) are intended to prevent transmission of infection, as well as decrease the risk of exposure for employees and students. It is not currently possible to identify all infected individuals, thus precautions must be used with every individual. UP pertain to blood and other potentially infectious materials (OPIM) containing blood. These precautions do not apply to other body fluids and wastes (OBFW) such as saliva, sputum, feces, tears, nasal secretions, vomitus and urine unless blood is visible in the material. However, these OBFW can be sources of other infections and should be handled as if they are infectious. The single most important step in preventing exposure to and transmission of any infection is anticipating potential contact with infectious materials in routine as well as emergency situations. Based on the type of possible contact, employees and students should be prepared to use the appropriate precautions prior to the contact. Diligent and proper hand washing, the use of barriers, appropriate disposal of waste products and needles, and proper decontamination of spills are essential techniques of infection control. All individuals should respond to situations practicing UP followed by the activation of the school response team plan. Using common sense in the application of these measures will enhance protection of employees and students.

Hand Washing

Proper hand washing is crucial to preventing the spread of infection. Textured jewelry on the hands or wrists should be removed prior to washing and kept off until completion of the procedure and the hands are rewashed. Use of running water, lathering with soap and using friction to clean all hand surfaces is key. Rinse well with running water and dry hands with paper towels.

- Hands should be washed before physical contact with individuals and after contact is completed.
- Hands should be washed after contact with any used equipment.
- If hands (or other skin) come into contact with blood or body fluids, hands should be washed immediately before touching anything else.
- Hands should be washed whether gloves are worn or not and, if gloves are worn, after the gloves are removed.

Barriers

Barriers anticipated to be used at school include disposable gloves, absorbent materials and resuscitation devices. Their use is intended to reduce the risk of contact with blood and body fluids as well as to control the spread of infectious agents from individual to individual. Gloves should be worn when in contact with blood, OPIM or OBFW. Gloves should be removed without touching the outside and disposed of after each use.

Disposal of Waste

Blood, OPIM, OBFW, used gloves, barriers and absorbent materials should be placed in a plastic bag and disposed of in the usual procedure. When the blood or OPIM is liquid, semi-liquid or caked with dried blood, it is not absorbed in materials, and is capable of releasing the substance if compressed, special disposal as regulated waste is required. A band-aid, towel, sanitary napkin or other absorbed waste that does not have the potential of releasing the waste if compressed would not be considered regulated waste. It is anticipated schools would only have regulated waste in the case of a severe incident. Needles, syringes and other sharp disposable objects should be placed in special puncture-proof containers and disposed of as regulated waste. Bodily wastes such as urine, vomitus or feces should be disposed of in the sanitary sewer system.

Clean up

Spills of blood and OPIM should be cleaned up immediately. The employee should:

- Wear gloves.
- Clean up the spill with paper towels or other absorbent material.
- Use a solution of one part household bleach to one hundred parts of water (1:100) or other EPA-approved disinfectant and use it to wash the area well.
- Dispose of gloves, soiled towels and other waste in a plastic bag.
- Clean and disinfect reusable supplies and equipment.

Laundry

Laundry with blood or OPIM should be handled as little as possible with a minimum of agitation. It should be bagged at the location. If it has the potential of releasing the substance when compacted, regulated waste guidelines should be followed. Employees who have contact with this laundry should wear protective barriers.

Exposure

An exposure to blood or OPIM through contact with broken skin, mucous membrane or by needle or sharp stick requires immediate washing, reporting and follow-up.

- Always wash the exposed area immediately with soap and water.
- If a mucous membrane splash (eye or mouth) or exposure of broken skin occurs, irrigate or wash the area thoroughly.
- If a cut or needle stick injury occurs, wash the area thoroughly with soap and water.

The exposure should be reported immediately, the parent or guardian is notified, and the person exposed contacts a physician for further health care.

403.4 HAZARDOUS CHEMICAL DISCLOSURE

The board authorizes the development of a comprehensive hazardous chemical communication program for the school district to disseminate information about hazardous chemicals in the workplace.

Each employee will annually review information about hazardous substances in the workplace. When a new employee is hired or transferred to a new position or work site, the information and training, if necessary, is included in the employee's orientation. When an additional hazardous substance enters the workplace, information about it is distributed to all employees, and training is conducted for the appropriate employees. The superintendent will maintain a file indicating which hazardous substances are present in the workplace and when training and information sessions take place.

Employees who will be instructing or otherwise working with students will disseminate information about the hazardous chemicals with which they will be working as part of the instructional program.

It is the responsibility of the superintendent to develop administrative regulations regarding this program.

No employee will unlawfully manufacture, distribute, dispense, possess, use, or be under the influence of in the workplace any narcotic drug, hallucinogenic drug, amphetamine, barbituate, marijuana or any other controlled substance or alcoholic beverage as defined by federal or state law. "Workplace" includes school district facilities, school district premises or school district vehicles. "Workplace" also includes nonschool property if the employee is at any school-sponsored, school-approved or school-related activity, event or function, such as field trips or athletic events where students are under the control of the school district or where the employee is engaged in school business.

If an employee is convicted of a violation of any criminal drug offense committed in the workplace, the employee will notify the employee's supervisor of the conviction within five days of the conviction.

An employee who violates the terms of this policy may be subject to discipline up to and including termination. An employee who violates this policy may be required to successfully participate in a substance abuse treatment program approved by the board. The superintendent will make the determination whether to require the employee to undergo substance abuse treatment or to discipline the employee. If the employee fails to successfully participate in a program, the employee may be subject to discipline up to and including termination.

403.9 DRUG AND ALCOHOL TESTING PROGRAM

Employees who operate school vehicles are subject to drug and alcohol testing if a commercial driver's license is required to operate the school vehicle and the school vehicle transports sixteen or more persons including the driver or the school vehicle weighs twenty-six thousand one pounds or more. For purposes of the drug and alcohol testing program, the term "employees" includes applicants who have been offered a position to operate a school vehicle.

The employees operating a school vehicle as described above are subject to pre-employment drug testing and random, reasonable suspicion and post-accident drug and alcohol testing. Employees operating school vehicles shall not perform a safety-sensitive function within four hours of using alcohol. Employees governed by this policy shall be subject to the drug and alcohol testing program beginning the first day they operate or are offered a position to operate school vehicles and continue to be subject to the drug and alcohol testing program as long as they may be required to perform a safety-sensitive function as it is defined in the administrative regulations. Employees with questions about the drug and alcohol testing program may contact the school district contact person, the school nurse located at the K-8 school.

Employees who violate the terms of this policy are subject to discipline up to and including termination. Employees who violate this policy bear the personal and financial responsibility, as a condition of continued employment, to successfully participate in a substance abuse evaluation and a substance abuse treatment program if recommended by the substance abuse professional. Employees who fail to or refuse to successfully participate in a substance abuse evaluation or recommended substance abuse treatment program may be subject to discipline up to and including termination.

It is the responsibility of the superintendent to develop administrative regulations to implement this policy in compliance with the law. The superintendent will inform applicants of the requirement for drug and alcohol testing in notices or advertisements for employment.

The superintendent will also be responsible for publication and dissemination of this policy and its supporting administrative regulations and forms to employees operating school vehicles. The superintendent will also oversee a substance-free awareness program to educate employees about the dangers of substance abuse and notify them of available substance abuse treatment resources and programs.

403.9R1 DRUG AND ALCOHOL TESTING PROGRAM REGULATION

This administrative regulation supports the Drug and Alcohol Testing Program policy. It also establishes and explains the requirements of the school district's drug and alcohol testing program required for employees operating school vehicles. Note the Drug and Alcohol Testing Program Definitions, Code No. 403.9R2.

- A. Questions regarding the drug and alcohol testing program policy, its supporting administrative regulations or the drug and alcohol testing program may be directed to the school district contact person, school nurse at the K-8 School.
- B. Covered Drivers
 - 1. A driver is covered by the drug and alcohol testing program if the driver:
 - a. Drives a vehicle transporting sixteen or more persons, including the driver, OR drives a vehicle weighing over twenty-six thousand one pounds; and
 - b. Required to hold a commercial driver's license for the driver position.
 - 2. Covered drivers include:
 - a. Applicants seeing a position as a driver;
 - b. Full time, regularly employed drivers;
 - c. Casual, intermittent, occasional or substitute drivers; and
 - d. Lease drivers and independent, owner-operator contractors who are either directly employed by or under lease to a school district or who operate a school vehicle at the direction of or with the consent of a school district.
 - 3. Drivers are subject to the drug and alcohol testing program and its requirements throughout the year, including the times when school is not in session or when the driver is on leave.
- C. Prohibited Driver Conduct
 - 1. Drivers shall not report to duty or remain on duty with a 0.04 alcohol concentration or greater.
 - 2. Drivers shall not report to duty or remain on duty when using any drug except:
 - a. When a licensed medical practitioner has advised the driver that the drug does not adversely affect the driver's ability to safely operate a school vehicle; and
 - b. The school district is informed in writing of the medication and licensed medical practitioner's opinion.
 - 3. Drivers shall not use alcohol at least four hours prior to, or during the performance of, a safety-sensitive function.
 - 4. Drivers shall not possess alcohol while on duty. This includes possessing prescriptions and over-the-counter medicines containing alcohol unless the packaging seal is unbroken.
 - 5. Drivers required to take a post-accident alcohol test shall not use alcohol within eight hours following the accident or prior to undergoing a post-accident alcohol test, whichever comes first.
 - 6. Drivers shall not refuse to submit to a drug or alcohol test. A refusal to test is considered a positive test requiring the driver to bear the personal and financial responsibility to undergo a substance abuse evaluation as a condition of continued employment and subjecting the driver to discipline up to and including termination.
 - 7. Drivers shall not report for duty or remain on duty performing a safety-sensitive function if the driver has a positive drug test result.
- D. Alcohol Testing Procedures
 - 1. Driver's breath or saliva is tested for alcohol.
 - 2. The screening alcohol test is conducted with an evidentiary breath testing device or a saliva testing device.
 - a. The screening breath alcohol or saliva test determines whether the driver's alcohol concentration is less than 0.02. The confirmation alcohol test is conducted only by an evidentiary breath alcohol testing device to determine whether the driver can continue to perform a safety-sensitive function.
 - b. A confirmation alcohol test result of less than 0.02 alcohol concentration allows the driver to

- c. continue to perform a safety-sensitive function.
 - d. A confirmation alcohol test result of 0.02 alcohol concentration but less than 0.04 alcohol concentration requires the driver to cease performing a safety-sensitive function for twenty- four hours.
 - e. A confirmation alcohol test result of 0.04 breath alcohol concentration or greater requires the driver to cease performing a safety-sensitive function and undergo a substance abuse evaluation.
3. Alcohol testing is conducted at collection sites which provide privacy to the driver and contain the necessary equipment, personnel and materials.
- a. Alcohol testing is conducted at a designated collection site unless the situation requires another location.
 - b. In the event privacy cannot be assured, privacy will be provided to the extent practical.
4. Screening alcohol testing steps.
- a. Once the driver is notified to submit to an alcohol test, the driver must complete the Alcohol/Drug Test Notification Form and proceed immediately to the collection site. Collection site personnel contact the school district contact person immediately when a driver does not arrive at the specified time. Failure to arrive at the collection site in a timely manner is considered a refusal to test.
 - b. Upon arrival, the driver must provide a photo identification. Repeated failure of the driver to produce a photo identification is considered insubordination as well as a refusal to test.
 - c. The testing procedure is explained to the driver by the collection site person.
 - d. The breath alcohol technician (BAT) or saliva test technician (STT) and the driver complete and sign the appropriate sections of the alcohol testing form.
- e. Evidentiary breath alcohol testing device procedures.
- 1) The driver forcefully blows into the mouthpiece for at least six seconds or until an adequate amount of breath has been obtained.
 - 2) The screening alcohol test is stopped when the driver fails twice to provide an adequate amount of breath. In that case:
 - a) A refusal of the driver to try a second time to provide adequate breath is considered a refusal to test.
 - b) A physician analyzes the driver's inability to provide adequate breath.
 - c) Failure to provide adequate breath is considered a refusal to test unless the physician determines a medical condition caused the failure to provide adequate breath.
 - 3) The results of the screening alcohol test are shared with the driver.
- f. Saliva alcohol testing device procedures.
- 1) The driver and the STT review the expiration date of the saliva alcohol testing device, and if the date is valid, the packaging is opened.
 - 2) The driver or STT places the swab in the driver's mouth until the swab is completely saturated. If the alcohol test is started again, only the STT may place the swab in the driver's mouth.
 - 3) The saliva alcohol testing device is activated with the saturated swab in place.
 - 4) The saliva alcohol test is stopped when the driver fails twice to provide an adequate amount of saliva. In that case:
 - a) The school district is informed.
 - b) The driver must submit to a breath alcohol test immediately.
 - 5) The saliva testing device results are read two minutes, and no later than fifteen minutes, after the saliva testing device was activated.
 - 6) The results of the screening alcohol test are shared with the driver.
- g. The driver and breath alcohol technician or saliva test technician must sign the alcohol testing form

- h. following completion of the alcohol test. Failure to sign the form after the alcohol test is not considered a refusal to test. However, in the remarks section of the form, the BAT or STT notes the driver's refusal to sign.
 - i. Screening alcohol test results.
 - 1) An alcohol test result of less than 0.02 alcohol concentration is reported to the school district in a confidential manner and the driver may continue to perform a safety-sensitive function.
 - 2) An alcohol test result of 0.02 alcohol concentration or more requires a confirmation alcohol test be performed between fifteen and thirty minutes after the screening test.
 - 3) The BAT or STT provides the school district contact person with a copy of the alcohol testing form if written communication was not used to report the test results.
 - j. Potential incomplete or invalid screening alcohol tests are repeated with corrected procedures.
5. Confirmation alcohol testing steps.
- a. The driver is instructed to not eat, drink, put any object or substance in his or her mouth, and, to the extent possible, not belch during the fifteen-minute waiting period to avoid accumulation of mouth alcohol leading to an artificially high reading.
 - b. The confirmation alcohol test is done between fifteen and twenty minutes of the screening alcohol test whether or not the driver followed the requirements.
 - c. If a different collection site is used, the driver must be under the observation of the collection site person or school district person while waiting for the confirmation alcohol test.
 - d. If a different collection site person conducts the confirmation alcohol test, the driver must again provide photo identification.
 - e. The testing procedures is explained to the driver by a BAT.
 - f. The BAT and the driver complete and sign the appropriate section of the alcohol testing form.
 - 1) Refusal of the driver to sign the form prior to the confirmation alcohol test is considered a refusal to test.
 - 2) The school district is notified immediately of the refusal to sign.
 - g. The driver forcefully blows into the evidentiary breath testing device mouthpiece for at least six seconds or until an adequate amount of breath has been obtained.
 - h. The confirmation alcohol test results, which are the final and official test results, are shared with the driver.
 - i. The driver and BAT must sign the alcohol testing form following completion of the alcohol test. Failure to sign the form after the alcohol test is not considered a refusal to test. However, in the remarks section of the form, the BAT notes the driver's refusal to sign.
 - j. The BAT informs the school district's contact person of the results of the test in a confidential manner.
 - 1) An alcohol test result of less than 0.02 alcohol concentration is reported to the school district in a confidential manner and the driver may continue to perform a safety-sensitive function.
 - 2) The breath alcohol technician notifies the school district contact person immediately of confirmation alcohol test results of 0.02 alcohol concentration or more.
 - 3) The collection site person provides the school district contact person with a copy of the alcohol testing form if written communication was not used to report the test results.
 - k. Potentially incomplete or invalid confirmation alcohol tests are repeated with corrected procedures.
 - l. The breath alcohol test is stopped when the driver fails twice to provide an adequate amount of breath. In that case:
 - 1) A physician analyzes the driver's inability to provide adequate breath.
 - 2) Failure to provide adequate breath is considered a refusal to test unless the physician determines a medical condition caused the failure to provide adequate breath.
 - 3) A refusal of the driver to try a second time to provide adequate breath is considered a

refusal to test.

E. Drug Testing Procedures

1. Driver's urine is tested for marijuana, cocaine, opiates, amphetamines and phencyclidine.
2. A split specimen urine drug test, often called "split sample test," is used to conduct the drug test.
 - a. A negative drug test result allows the driver to continue to perform a safety-sensitive function.
 - b. A positive drug test result on the primary sample requires the driver to be removed from performing a safety-sensitive function.
 - c. A positive drug test result on the primary sample allows the driver an opportunity to request the split sample be tested by another certified laboratory only for the specific drug found in the primary sample. A negative drug test result on the split sample results in a negative drug test result.
 - d. A positive drug test result requires the driver to bear the personal and financial responsibility to undergo a substance abuse evaluation as a condition of continued employment.
3. Drivers taking medication at a licensed medical practitioner's direction may perform a safety-sensitive function if the licensed medical practitioner determines there is not an adverse affect on performing a safety-sensitive function and the school district is informed in writing of the medication and licensed medical practitioner's opinion.
4. Drug testing is conducted at collection sites which provide privacy to the driver and where the necessary equipment, personnel and material are located.
 - a. Drug testing is conducted at a designated collection site unless the situation requires another location. Public restrooms can be used as collection sites in exceptional circumstances.
 - b. In the event privacy cannot be assured, privacy is provided to the extent practical. However, direct observation is allowed if:
 - 1) Reasons exist to believe the driver may alter or substitute the specimen.
 - 2) The driver presents a specimen with a temperature outside the allowed range and does not provide an oral body temperature or the oral body temperature varies from the specimen provided.
 - 3) The last specimen provided by the driver was determined by the laboratory to not meet specific gravity and urine creatinine concentration criteria.
 - 4) The collection site person observes conduct of the driver to substitute or adulterate the specimen.
 - 5) The driver has previously been determined to have used a drug without medical authorization and the particular test is for follow-up testing upon or after return to duty.
 - c. Direct observation is approved by the supervisor of the collection site person or the designated school district representative. Non-medical personnel performing direct observation must be of the same gender as the driver.
5. Drug testing steps.
 - a. The school district contact person makes arrangements with the collection site for the test.
 - b. Once the driver is notified to submit to a drug test, the driver must complete the Alcohol/Drug Test Notification Form and proceed immediately to the collection site. The collection site person contacts the school district contact person immediately when a driver does not arrive at the specified time. Failure to arrive at the collection site in a timely manner is considered a refusal to test.
 - c. Upon arrival, the driver must provide a photo identification. Repeated failure of the driver to produce a photo identification is considered insubordination as well as a refusal to test. The driver may require the collection site person to provide proof of identification.
 - d. The driver may keep his or her wallet but must remove any unnecessary outer garments, purses, briefcases and similar items at the request of the collection site person.
 - e. Immediately prior to providing a urine specimen, the driver must wash his or her hands. The driver must then provide forty-five milliliters of urine and deliver it immediately to the collection

site person.

- 1) Drivers who cannot provide an adequate amount of urine receive instructions for drinking water and trying again.
- 2) The drug test is stopped when the driver fails twice to provide an adequate amount of urine.
- 3) Failure to provide adequate urine is considered a refusal to test unless the physician determines a medical condition caused the failure to provide adequate urine.

f. The specimen is kept in view of the driver and the collection site person.

g. Upon receipt of the specimen, the collection site person immediately, and in no event later than four minutes from the time of urination, measure the temperature of the specimen.

- h. The driver may volunteer to have his or her oral temperature taken to provide evidence against alteration or substitution if there is some question about the temperature of the specimen.
- i. The collection site person inspects the specimen for color and other signs of contaminants and notes any unusual findings in the remarks section of the chain of custody form.
- j. Another specimen is required as soon as possible under direct observation if adulteration or substitution is suspected by the collection site person. Specimens suspected of adulteration nor substitution are also sent to the laboratory for testing.
- k. The specimen is divided in to the primary and the split specimen, sealed and labeled. The label is initialed by the driver.
- l. The driver is required to read and sign the statement of the chain of custody form certifying the specimens are the driver's.
- m. The collection site person is required to note on the chain of custody form any unusual behavior or appearance of the driver and any failure to cooperate.
- n. The collection site person completes the chain of custody form and the driver signs the form indicating the collection is complete. Failure of the driver to sign the form after the drug test is not considered a refusal to test. However, the collection site person notifies the school district contact person and notes the driver's failure to sign on the form.
- o. The specimens are packaged for shipping to the laboratory and are shipped immediately or placed in secure storage until they can be shipped.

6. Laboratory.

- a. The laboratory used by the school district's drug and alcohol testing program is certified by the U.S. Department of Health and Human Services (DHHS). Certified laboratories meet the testing procedures, personnel and record keeping requirements of the law.
- b. Upon arrival of the specimens at the laboratory, the split specimen is stored and the primary specimen is tested.
 - 1) A positive drug test result on the initial test of the primary specimen requires a confirmation drug test of the primary specimen.
 - 2) The split specimen is discarded if the primary specimen has a negative drug test result.

7. Medical Review Officer (MRO).

- a. The MRO may release drug testing records of a driver to unauthorized individuals only with the written consent of the driver.
- b. The MRO keeps a record of negative drug test results and reports negative drug test results to the school district, usually within two working days.
- c. The primary role of the MRO is to review and interpret positive drug test results to determine whether a legitimate explanation exists for the positive drug test result.
 - 1) After reviewing the chain of custody form and the laboratory drug test results, the MRO contacts the driver to discuss the positive drug test result prior to notifying the school district and to ask whether the driver requests a drug test of the split sample. The driver's request for a drug test of the split sample must be made within seventy-two hours of

talking with the MRO.

- 2) Upon request of the driver, the split specimen is sent to a second certified laboratory to test only for the drug found in the primary specimen.
 - 3) The MRO contacts the school district contact person for assistance if the driver cannot be reached.
 - 4) The school district contact person must confidentially inform the driver to contact the MRO.
 - 5) Upon contacting the driver, the school district contact person must inform the MRO that the driver was contacted.
 - 6) Drivers who cannot be contacted are placed on temporary medically unqualified status or medical leave.
- d. The MRO may verify a positive drug test without talking to the driver if:
- 1) The driver declines the opportunity to discuss the positive drug test.
 - 2) The driver fails to contact the MRO within five days after the school district contact person has contacted the driver.
 - 3) MRO verification of positive drug test results under these circumstances can be challenged by the driver if the driver presents the MRO with information documenting a serious illness, injury or other circumstances unavoidably preventing the driver from timely contacting the MRO. The MRO, based on this additional information, may find a legitimate explanation for the positive drug test result and declare the drug test negative.
- e. The driver is notified of the drugs found in a positive drug test result by the MRO, the school district contact person or by certified mail to the driver's last known address.
- f. The school district receives a written report of the negative and positive drug test results from the MRO.

F. Substance Abuse Professional

1. A substance abuse evaluation by a substance abuse professional is the personal and financial responsibility of the driver as a condition of continued employment when a driver has:
 - a. A positive drug test;
 - b. A positive alcohol test of 0.04 alcohol concentration or greater; or
 - c. Otherwise violates the drug and alcohol testing program policy, its supporting documents or the law.
2. The substance abuse evaluation determines what assistance, if any, the driver needs in resolving problems with alcohol misuse and/or drug use.
3. A list of available substance abuse professionals to provide assistance to bus drivers is available through the school nurse.

G. Pre-employment Testing

1. Drivers shall submit to a drug test if a job offer is made. The job offer is contingent upon:
 - a. A negative drug test result; and
 - b. A signed written statement authorizing former employers to release all information on the driver related to drugs and alcohol.
2. Prior to allowing a driver to perform a safety-sensitive function, and no later than fourteen days after performing a safety-sensitive function, information must be obtained, or a good faith effort must have been made to obtain the information about the driver's drug and alcohol history.
 - a. The following information must be obtained about the driver for the two year period preceding the date of the application.
 - 1) Alcohol test result of 0.04 alcohol concentration or greater;
 - 2) Positive drug test results; and
 - 3) Refusals to be tested.
 - b. The information must be obtained, or a good faith effort made to obtain, the information if the

driver is currently performing and will continue to perform a safety-sensitive function.

- c. The information must be obtained, or a good faith effort made to obtain, the information if the driver performed a safety-sensitive function and is no longer employed by the school district.
- d. The information does not need to be obtained if the driver did not perform a safety-sensitive function and is no longer employed by the school district.
- e. The school district may obtain information held by the prior employer for the two-year period preceding the date of application even if the information came from other employers.
- f. A good faith effort requires the school district to request and hopefully receive, the information prior to the driver driving and no later than fourteen days after first driving by taking the following steps:
 - 1) Obtain the driver's written consent immediately after a conditional employment offer is made.
 - 2) Send a completed consent for Release of Information signed by the driver to prior employers via certified mail.
 - 3) Contact the prior employers' drug and alcohol testing program managers about the status of the request if no response is received within reasonable period.
 - 4) Take appropriate action (i.e. follow-up with a SAP, terminate employment) if the information received, whether prior to or after the fourteen day period, requires.
 - 5) Document and maintain the documentation of the steps taken to obtain the information when it is not received or the prior employer refuses to submit the information.

H. Random Testing

1. Annually, ten percent of the average number of drivers are selected for random alcohol tests and fifty percent of the average number of drivers are selected for random drug tests.
2. The drivers' identification numbers are selected by a scientific method giving each driver an equal chance to be selected.
3. Random tests are unannounced and spread throughout the year.
4. Drivers selected for **random alcohol testing** are notified just before, during or just after any performing a safety-sensitive function. The school district documents why some, if any, drivers were selected but not notified.
5. Drivers selected for **random drug testing** are notified at any time. The school district must document why some, if any, drivers were selected but not notified.
6. Once the driver is notified of being selected for a random test, the driver must proceed immediately to the collection site. However, drivers performing a safety-sensitive function must safely stop and proceed to the collection site as soon as possible.

I. Reasonable Suspicion Testing

1. A driver may be required to submit to a reasonable suspicion **drug** test at any time.
2. A driver may be required to submit to a reasonable suspicion **alcohol** test just before, during or just after the time the driver is required to be in compliance with the drug and alcohol testing program policy, its supporting documents or the law.
 - a. A reasonable suspicion alcohol test is performed within two hours and no later than eight hours of determining reasonable suspicion.
 - b. If the alcohol test is not given within two hours, the reasons for the delay must be documented.
 - c. If the alcohol test is not given within eight hours, attempts to test are stopped and the reason for not testing must be documented.
3. A reasonable suspicion test request is made by an employee who received training to determine reasonable suspicion. The reasons for the reasonable suspicion must be documented within twenty- four hours or prior to the release of the test results. If more than one employee trained to determine reasonable suspicion observes the driver, that employee must also document their reasons.

J. Post-accident Testing

1. Drivers are subject to both post-accident drug and alcohol testing as soon as possible after an accident in which:
 - a. A fatality, other than the driver, occurred.
 - b. The driver was cited and bodily injury occurred to a person who, as a result of the injury, required immediate medical treatment away from the scene of the accident; or
 - c. The driver was cited and one or more motor vehicles incurred disabling damage as a result of the accident, requiring a motor vehicle to be transported away from the accident scene by a tow truck or other motor vehicle.
 - 1) "Disabling damage" is damage which precludes the departure of a motor vehicle from the scene of the accident in its usual manner in daylight after simple repairs. It includes damage to motor vehicles that could have been driven but would have been further damaged if so driven.
 - 2) "Disabling damage" excludes damage which can be remedied temporarily:
 - a) Tire disablement without other damage even if no spare tire is available.
 - b) Headlight or taillight damage.
 - c) Damage to turn signals, horn, or windshield wipers which make them inoperative.
2. Drivers must remain readily available for post-accident testing.
 - a. Drivers who leave the scene or who do not remain readily available are deemed to have refused to test.
 - b. Necessary medical treatment cannot and should not be denied to a driver waiting to complete post-accident drug and alcohol tests.
3. Alcohol testing requirements.
 - a. The alcohol test is administered within two hours and no later than eight hours of the accident.
 - b. The reasons for administering the test later than two hours after the accident must be documented.
 - c. The reasons for not administering the test within eight hours of the accident must be documented.
 - d. Drivers are prohibited from consuming alcohol for eight hours after the accident or until the alcohol test is completed.
4. Drug testing requirements.
 - a. The drug test is administered as soon as possible and no later than 32 hours after the accident.
 - b. The reasons for not administering the test must be documented.
5. Results of drug or alcohol testing conducted by law enforcement officers or other officials on the scene with independent authority to conduct such tests are presumed valid if the testing conforms to the law. The school district must receive a copy of the results to use them.

K. Return-to-duty/Follow-up Testing

1. Prior to returning to duty after a positive drug test, a positive alcohol test of 0.04 alcohol concentration or greater, or otherwise violating the drug and alcohol testing program policy, its supporting documents or the law, the driver bears the personal and financial responsibility to:
 - a. Be re-evaluated by a substance abuse professional to determine that the driver has properly followed any treatment program prescribed.
 - b. Submit to the tests required by the substance abuse professional. The substance abuse professional may require a return-to-duty test for drugs, alcohol or both.
 - c. Have a negative return-to-duty drug test result and/or an alcohol test result of less than 0.02 alcohol concentration before the driver can return to duty and perform any safety-sensitive function.
2. After returning to duty, the driver is subject to a minimum of six unannounced follow-up tests within twelve months for alcohol, drugs or both, as determined by the substance abuse professional.
 - a. The substance abuse professional can terminate the follow-up testing requirement after the first six tests have been completed or continue the follow-up testing for up to sixty months from the

date of the driver's return to duty.

- b. Alcohol follow-up testing is done just before, during or just after performing a safety-sensitive function.
- c. Drug follow-up testing is done any time.

L. School District Responsibilities

1. Provide drivers with information on the drug and alcohol testing requirements of the drug and alcohol testing program policy, its supporting documents and the law, including the driver's obligations.
2. Supervisors of drivers or employees designated to determine reasonable suspicion must receive sixty minutes of training on alcohol misuse and sixty minutes of training on drug use. The training must address the physical, behavioral, speech and performance certificate must be maintained by the school district until the employee leaves employment of the school district or is not longer authorized to make a reasonable suspicion determination.
3. Provide drivers with instructions prior to the driver operating a school vehicle to enable the driver to comply with the drug and alcohol testing requirements.
4. Disallow drivers to report to work or perform a safety-sensitive function when the school district has actual knowledge of a driver's drug use whether or not a drug test was conducted.
5. Disallow drivers to report to work or perform a safety-sensitive function when the school district has actual knowledge of a driver with 0.02 alcohol concentration or great whether or not an alcohol test was conducted.
6. Ensure, through the school district's drug and alcohol testing program service provider, that the quality assurance plan, developed by the manufacturer and approved by the National Highway Traffic Safety Administration (NHTSA) for the evidentiary testing device or saliva alcohol testing device used for alcohol testing of its drivers, describes the inspection, maintenance and calibration requirements and intervals for the device.
7. Ensure, through the school district's drug and alcohol testing program service provider, that the collection site person using an evidentiary breath testing device is a certified breath alcohol technician (BAT).
8. Ensure, through the school district's drug and alcohol testing program service provider, that the collection site person using a saliva alcohol testing device is a certified BAT or saliva test technician (STT).

M. Consequences of violating the drug and alcohol testing program policy, its supporting documents, or the law.

1. Each violation is dealt with based on the circumstances surrounding the violation. The following consequences may result from a violation.
 - a. Drivers may be disciplined up to and including termination.
 - b. Drivers may not be permitted to perform safety-sensitive functions.
 - c. Drivers may be advised of the resources available to them in evaluating and resolving programs associated with the misuse of alcohol or use of drugs.

 - e. Drivers/applicants who refuse to submit to or cooperate with the drug and-or alcohol testing process and requirements shall be disqualified from further consideration.
 - f. Drivers, as a condition of continued employment, bear the personal and financial responsibility for undergoing a substance abuse evaluation to determine what assistance, if any, the driver needs in resolving problems associated with the misuse of alcohol or use of drugs and be required to follow any recommended substance abuse treatment program.
 - g. Misuse of alcohol or use of drugs and be required to follow any recommended substance abuse treatment program.
 - h. Prior to returning to duty, the driver is required to have a negative drug and/or alcohol test result and be subject to the follow-up drug and/or alcohol testing determined necessary based on the circumstances surrounding the incident.
 - i. Drivers refusing to submit to drug and/or alcohol testing are considered insubordinate and are

subject to discipline up to and including termination.

2. Nothing in the drug and alcohol testing program policy, its supporting documents or the law relating to drug and alcohol testing limits or restricts the right of the board or superintendent to discipline, up to and including termination, a driver for conduct which violated the school district's policies, supporting documents and procedures.
- N. Drug and alcohol testing records.
1. Drug and alcohol testing records are stored in locked files at limited access locations separate and part from the driver's general personnel records.

403.9R2 DRUG AND ALCOHOL TESTING PROGRAM DEFINITIONS

Air blank – a reading by an evidentiary breath testing device (EBT) of ambient air containing non alcohol.

Alcohol – the intoxicating agent in beverage alcohol, ethyl alcohol, or other low molecular weight alcohols including methyl and isopropyl alcohol.

Alcohol concentration (or content) – the alcohol in a volume of breath expressed in terms of grams of alcohol per two hundred ten liters of breath as indicated by an evidentiary breath alcohol test or saliva alcohol test under the law.

Alcohol use – the consumption of any beverage, mixture or preparation, including any medication, containing alcohol.

Breath Alcohol Technician (BAT) – an individual who instructs and assists drivers in the alcohol testing process and operates an evidentiary breath testing device, non-evidentiary breath testing device or saliva testing device.

Canceled or invalid test – in drug testing it is a drug test that has been declared invalid by a Medical Review Officer of a specimen that has been rejected for testing by a laboratory. In alcohol testing it is a test that is deemed to be invalid under the law. A canceled drug test or alcohol test is neither a positive or negative test.

Chain of Custody – procedures to account for the integrity of each urine specimen by tracking its handling and storage from point of specimen collection to final disposition of the specimen. With respect to drug testing, these procedures require that an appropriate drug testing custody form be used from time to collection to receipt by the laboratory and that upon receipt by the laboratory and appropriate laboratory chain of custody form(s) account(s) for the sample or sample aliquots within the laboratory.

Collection site -- a place where drivers present themselves for the purpose of providing body fluid or a tissue sample to be analyzed for specific drugs or breath alcohol concentration.

Confirmation test – for alcohol testing it is a second test following a screening alcohol test with a result of 0.02 breath alcohol concentration or greater that provides quantitative data of breath alcohol concentration. For drug testing it is a second analytical procedure (GC/MS) to identify the presence of a specific drug or metabolite which is independent of the initial test and which uses a different technique and chemical principle from that of the initial test in order to ensure reliability and accuracy.

Controlled substances/drugs – marijuana, cocaine, opiates, amphetamines and phencyclidine.

Driver- any person who operates a school vehicle. This includes, but is not limited to: full time, regularly employed drivers; casual, intermittent or occasional drivers; leased drivers and independent, owner-operator contractors who are either directly employed by or under lease to the school district or who operate a school vehicle at the direction of or with the consent of the school district. For the purposes of pre-employment/pre-duty testing only, the term “driver” includes applicants for drivers of school vehicle positions.

Initial test (or screening test) – in drug testing it is an immunoassay screen to eliminate “negative” urine specimens from further consideration. In alcohol testing it is an analytic procedure to determine whether a driver may have prohibited concentration of alcohol in a breath or saliva specimen.

Licensed medical practitioner – a person who is licensed, certified, and/or registered, in accordance with applicable federal, state, local or foreign laws and regulations, to prescribe controlled substances and other drugs.

Medical review officer (MRO) – a licensed physician (medical doctor or doctor of osteopathy) responsible for receiving laboratory results generated by an employer’s drug testing program who has knowledge or substance abuse disorders and has appropriate medical training to interpret and evaluate a driver’s confirmed positive test

result together with the driver's medical history and any other relevant bio-medical information.

Non-suspicion-based post-accident testing – testing of a driver after an accident without regard to whether there is any reasonable suspicion of drug usage, reasonable cause to believe the driver has been operating the school vehicle while under the influence of drugs, or reasonable cause to believe the driver was at fault in the accident and drug usage may have been a factor.

Performing a safety-sensitive function – a driver is considered to be performing a safety-sensitive function during any period in which the driver is actually performing, ready to perform, or immediately available to perform any safety-sensitive function.

Random Selection Process – when drug and alcohol tests are unannounced and every driver has an equal chance of being selected for testing.

Reasonable suspicion – when the school district believes the appearance, behavior, speech or body odors of the driver are indicative of the use of drugs or alcohol.

Refusal to test – when a driver (1) fails to provide adequate breath or saliva for alcohol testing without a valid medical explanation after he or she has received notice of the requirement for breath testing in accordance with the provisions of the law, (2) fails to provide adequate urine for drug testing without a valid medical explanation after he or she has received notice of the requirement for urine testing in accordance with the provision of the law, or (3) engages in conduct that clearly obstructs the testing process. A refusal to test is treated as a positive drug test result or an alcohol test result of 0.04 alcohol concentration or greater.

Safety-sensitive function – all time from the time when a driver begins to work or is required to be in readiness to work until the time the driver is relieved from work and all responsibility for performing work.

Saliva test technician (STT) – an individual who has successfully completed U.S. DOT approved training for saliva alcohol testing who instructs and assists drivers in the initial (screening) alcohol testing process and operates a non-evidentiary breath testing or saliva testing device.

School vehicle – a vehicle owned, leased, and/or operated at the direction or with the consent of the school district which transports sixteen or more persons, including the driver, or weighs over twenty-six thousand one pounds and requires the driver to have/possess a commercial driver's license in order to operate the vehicle.

Split specimen/split sample – the division of the urine specimen into thirty milliliters in a specimen bottle (the primary sample) and into at least fifteen milliliters in second specimen bottle (the split sample).

Substance abuse professional (SAP) – a licensed physician (medical doctor or doctor of osteopathy) or a licensed or certified psychologist, social worker, employee assistance professional, or addiction counselor (certified by the National Association of Alcoholism and Drug Abuse Counselors Certification Commission) with knowledge of, and clinical experience in, the diagnosis and treatment of alcohol and controlled substances-related disorders.

405.8 LICENSED EMPLOYEE EVALUATION

Evaluation of licensed employees on their skills, abilities, and competence is an ongoing process supervised by the building principals and conducted by approved evaluators. The goal of the formal evaluation of licensed employees, other than administrators, but including extracurricular employees, is to improve the education program, to maintain licensed employees who meet or exceed the board's standards of performance, to clarify the licensed employee's role, to ascertain the areas in need of improvement, to clarify the immediate priorities of the board, and to develop a working relationship between the administrators and other employees.

The formal evaluation criteria is in writing and approved by the board. The formal evaluation will provide an opportunity for the evaluator and the licensed employee to discuss the past year's performance and the future areas of growth. The formal evaluation is completed by the evaluator, signed by the licensed employee and filed in the licensed employee's personnel file. This policy supports, and does not preclude, the ongoing informal evaluation of the licensed employee's skills, abilities and competence.

It is the responsibility of the superintendent to ensure licensed employees are evaluated. New and probationary licensed employees are evaluated at least twice each year.

The requirements stated in the Master Contract between employees in that certified collective bargaining unit and the board regarding evaluation of such employees will be followed.

407.6 LICENSED EMPLOYEE REDUCTION IN FORCE

The board has the exclusive authority to determine the appropriate number of licensed employees. A reduction of licensed employees may occur as a result of, but not be limited to, changes in the education program, staff realignment, changes in the size or nature of the student population, financial situation considerations, and other reasons deemed relevant by the board.

The reduction in licensed employees, other than administrators, will be done through normal attrition if possible. If normal attrition does not meet the necessary reduction in force required, the board may terminate licensed employees.

It is the responsibility of the superintendent to make a recommendation for termination to the board. The superintendent shall consider the following criteria in making the recommendations:

- Endorsements and educational preparation within the grade level and subject areas in which the employee is now performing;
- Relative skills, ability and demonstrated performance;
- Qualifications for co-curricular programs; and
- Number of continuous years of service to the school district. This will be considered only when the foregoing factors are relatively equal between licensed employees.

Due process for terminations due to a reduction in force will be followed.

The requirements stated in the Master Contract between employees in that certified collective bargaining unit and the board regarding the reduction in force of such employees will be followed.

408.1 LICENSED EMPLOYEE PROFESSIONAL DEVELOPMENT

The board encourages licensed employees to attend and participate in professional development activities to maintain, develop, and extend their skills. The board will maintain and support an in-service program for licensed employees.

Requests for attendance or participation in a development program, other than those development programs sponsored by the school district, is made to the superintendent. Approval of the superintendent must be obtained prior to attendance by a licensed employee in a professional development program when the attendance would result in the licensed employee being excused from their duties or when the school district pays the expenses for the program.

The superintendent will have sole discretion to allow or disallow licensed employees to attend or participate in the requested event. When making this determination, the superintendent will consider the value of the program for the licensed employee and the school district, the effect of the licensed employee's absence on the education program and school district operations and the school district's financial situation as well as other factors deemed relevant in the judgment of the superintendent. Requests that involve unusual expenses or overnight travel must also be approved by the board.

The requirements stated in the Master Contract between employees in that certified collective bargaining unit and the board regarding professional development of such employees will be followed.

408.4 DISTRICT LANDLINE AND CELLULAR TELEPHONE USAGE

The District provides telephones to employees because communication is essential for the performance of their duties, especially in times of emergency or when addressing safety issues.

The landline telephones provided by the district to employees are to be used primarily for school business. Employees may use land line telephones for personal business, provided such personal use is limited in frequency and duration and does not interfere with the performance of an employee's job. Landline telephones are provided at district expense. Employees are not charged for local calls but are charged for all personal long-distance toll calls.

Certain employees are required to perform work outside of their offices or assigned work spaces, outside of the Shenandoah Community School District, or outside of the district's regular business hours. It is important to the mission of the district to provide for communication with these employees when they are not in their offices.

The billing for cellular telephone service includes a charge for all calls that are transmitted or received by the cellular telephone, including unsolicited and misdirected calls, and local and long-distance calls. Itemized bills are prepared for all cellular telephones listing all calls made or received by a cellular telephone within a billing cycle by date, time, location, and duration. Roaming charges are listed by date, time, location, duration, and roaming service provider. The district's policy concerning cellular telephones is as follows:

The district will issue cellular telephones for personal calls subject to the same restrictions that are imposed on landline telephones.

If the number of minutes charged to a cellular telephone exceeds the monthly time allotted for the service plan, the employee must reimburse the district for personal calls that exceed the monthly time allotted. Cellular telephone users must send a check to the Business Office made payable to the Shenandoah Community School District for any additional personal charges (roaming and excess time). Payment is due upon receipt of the cellular telephone statement.

If a cellular telephone assigned to an employee is lost, damaged or is malfunctioning, the Business Office must be notified immediately. Employees who fail to notify the Business Office immediately of a lost telephone may be responsible for all unauthorized calls made from their assigned cellular telephone.

The district will not reimburse employees for business use of their own cellular telephones. Employees are encouraged to use their office telephone for business telephone calls. Employees who have a personal cellular telephone are not expected to use that telephone for district business.

The Superintendent or his/her designee is authorized to review the use of district-issued cellular telephones by employees and to revoke the privilege of using a district-issued cellular telephone if it is determined that the cellular telephone is being used primarily for personal business or is being used in any other manner which is contrary to district policy.

409.2 LICENSED EMPLOYEE PERSONAL ILLNESS LEAVE

Licensed employees will be granted ten days of sick leave in their first year of employment. Each year thereafter, one additional day of sick leave will be granted to the licensed employees up to a maximum of fifteen days. "Day" is defined as one work day regardless of full-time or part-time status of the employee. A new employee will report for work at least one full work day prior to receiving sick leave benefits. A returning employee will be granted the appropriate number of days at the beginning of each fiscal year.

Sick leave may be accumulated up to a maximum of 120 days for licensed employees.

Should the personal illness occur after or extend beyond the sick leave accumulated allowance, the employee may apply for disability benefits under the group insurance plan. If the employee does not qualify for disability benefits, the employee may request a leave of absence without pay.

Evidence may be required regarding the mental or physical health of the employee when the administration has a concern about the employee's health. Evidence may also be required to confirm the employee's illness, the need for the illness leave, the employee's ability to return to work, and the employee's capability to perform the duties of the employee's position. It is within the discretion of the board or the superintendent to determine the type and amount of evidence necessary. When an illness leave will be greater than three consecutive days, the employee will comply with the board policy regarding family and medical leave.

The requirements stated in the Master Contract between employees in that certified collective bargaining unit and the board regarding the personal illness leave of such employees will be followed.

Employees may be allowed to substitute paid leave for unpaid family and medical leave by meeting the requirements set out in the family and medical leave administrative rules. 409.3E1 LICENSED EMPLOYEE FAMILY AND MEDICAL LEAVE NOTICE TO EMPLOYEES

YOUR RIGHTS UNDER THE FAMILY AND MEDICAL LEAVE ACT OF 1993

FMLA requires covered employers to provide up to 12 weeks of unpaid, job-protected leave to eligible employees for the following reasons:

- For incapacity due to pregnancy, prenatal medical care or child birth;
- To care for the employee's child after birth, or placement for adoption or foster care;
- To care for the employee's spouse, son or daughter, or parent, who has a serious health condition; or
- For a serious health condition that makes the employee unable to perform the employee's job.

MILITARY FAMILY LEAVE ENTITLEMENTS

Eligible employees with a spouse, son, daughter, or parent on active duty or call to active duty status in the National Guard or Reserves in support of a contingency operation may use their 12-week leave entitlement to address certain qualifying exigencies.

Qualifying exigencies may include attending certain military events, arranging for alternative childcare, addressing certain financial and legal arrangements, attending certain counseling sessions, and attending post-deployment reintegration briefings.

FMLA also includes a special leave entitlement that permits eligible employees to take up to 26 weeks of leave to care for a covered servicemember during a single 12-month period. A covered servicemember is a current member of the Armed Forces, including a member of the National Guard or Reserves, who has a serious injury or illness incurred in the line of duty on active duty that may render the servicemember medically unfit to perform his or her duties for which the servicemember is undergoing medical treatment, recuperation, or therapy; or is in outpatient status; or is on the temporary disability retired list.

BENEFITS AND PROTECTION

During FMLA leave, the employer must maintain the employee's health coverage under any "group health plan" on the same terms as if the employee had continued to work. Upon return from FMLA leave, most employees must be restored to their original or equivalent positions with equivalent pay, benefits, and other employment terms.

Use of FMLA leave cannot result in the loss of any employment benefit that accrued prior to the start of an employee's leave.

JOB ELIGIBILITY REQUIREMENTS

Employees are eligible if they have worked for a covered employer for at least one year, for 1,250 hours over the previous 12 months, and if at least 50 employees are employed by the employer within 75 miles.

DEFINITION OF SERIOUS HEALTH CONDITION

A serious health condition is an illness, injury, impairment, or physical or mental condition that involves either an overnight stay in a medical care facility, or continuing treatment by a health care provider for a condition that either prevents the employee from performing the functions of the employee's job, or prevents the qualified family member from participating in school or other daily activities.

Subject to certain conditions, the continuing treatment requirement may be met by a period of incapacity of more than 3

consecutive calendar days combined with at least two visits to a health care provider or one visit and a regimen of continuing treatment, or incapacity due to pregnancy, or incapacity due to a chronic condition. Other conditions may meet the definition of continuing treatment.

USE OF LEAVE

An employee does not need to use this leave entitlement in one block. Leave can be taken intermittently or on a reduced leave schedule when medically necessary. Employees must make reasonable efforts to schedule leave for planned medical treatment so as not to unduly disrupt the employer's operations. Leave due to qualifying exigencies may also be taken.

SUBSTITUTION OF PAID LEAVE FOR UNPAID LEAVE

Employees may choose or employers may require use of accrued paid leave while taking FMLA leave. In order to use paid leave for FMLA leave, employees must comply with the employer's normal paid leave policies.

EMPLOYEE RESPONSIBILITIES

Employees must provide 30 days advance notice of the need to take FMLA leave when the need is foreseeable. When 30 days notice is not possible, the employee must provide notice as soon as practicable and generally must comply with an employer's normal call-in procedures.

Employees must provide sufficient information for the employer to determine if the leave may qualify for FMLA protection and the anticipated timing and duration of the leave. Sufficient information may include that the employee is unable to perform job functions, the family member is unable to perform daily activities, the need for hospitalization or continuing treatment by a health care provider, or circumstances supporting the need for military family leave. Employees also must inform the employer if the requested leave is for a reason for which FMLA leave was previously taken or certified. Employees also may be required to provide a certification and periodic recertification supporting the need for leave.

EMPLOYER RESPONSIBILITIES

Covered employers must inform employees requesting leave whether they are eligible under FMLA. If they are, the notice must specify any additional information required as well as the employees' rights and responsibilities. If they are not eligible, the employer must provide a reason for the ineligibility.

Covered employers must inform employees if leave will be designated as FMLA-protected and the amount of leave counted against the employee's leave entitlement. If the employer determines that the leave is not FMLA-protected, the employer must notify the employee.

UNLAWFUL ACTS BY EMPLOYERS

FMLA makes it unlawful for any employer to:

- Interfere with, restrain, or deny the exercise of any right provided under FMLA;
- Discharge or discriminate against any person for opposing any practice made unlawful by FMLA or for involvement in any proceeding under or relating to FMLA.

ENFORCEMENT

An employee may file a complaint with the U.S. Department of Labor or may bring a private lawsuit against an employer.

FMLA does not affect any Federal or State law prohibiting discrimination, or supersede any State or local law or collective bargaining agreement which provides greater family or medical leave rights.

409.3R1 LICENSED EMPLOYEE FAMILY AND MEDICAL LEAVE REGULATION

A.School district notice.

1. The school district will post the notice in Exhibit 409.3E1 regarding family and medical leave.
2. Information on the Family and Medical Leave Act and the board policy on family and medical leave, including leave provisions and employee obligations will be provided annually. The information will be in the employee handbook.
3. When an employee requests family and medical leave, the school district will provide the employee with information listing the employee's obligations and requirements. Such information will include:
 - a. a statement clarifying whether the leave qualifies as family and medical leave and will, therefore, be credited to the employee's annual 12-week entitlement;
 - b. a reminder that employees requesting family and medical leave for their serious health condition or for that of an immediate family member must furnish medical certification of the serious health condition and the consequences for failing to do so;
 - c. an explanation of the employee's right to substitute paid leave for family and medical leave including a description of when the school district requires substitution of paid leave and the conditions related to the substitution; and
 - d. a statement notifying employees that they must pay and must make arrangements for paying any premium or other payments to maintain health or other benefits.

B.Eligible employees.

Employees are eligible for family and medical leave if three criteria are met.

1. The school district has more than 50 employees on the payroll at the time leave is requested;
2. The employee has worked for the school district for at least twelve months or 52 weeks (the months and weeks need not be consecutive); and
3. The employee has worked at least 1,250 hours within the previous year. Full-time professional employees who are exempt from the wage and hour law may be presumed to have worked the minimum hour requirement.

If the employee requesting leave is unable to meet the above criteria, then the employee is not eligible for family and medical leave.

C.Employee requesting leave -- two types of leave.

1. Foreseeable family and medical leave.
 - a. Definition - leave is foreseeable for the birth or placement of an adopted or foster child with the employee or for planned medical treatment.
 - b. Employee must give at least thirty days notice for foreseeable leave. Failure to give the notice may result in the leave beginning thirty days after notice was received.

Employees must consult with the school district prior to scheduling planned medical treatment

leave to minimize disruption to the school district. The scheduling is subject to the approval of the health care provider.

2. Unforeseeable family and medical leave.
 - a. Definition - leave is unforeseeable in such situations as emergency medical treatment or premature birth.
 - b. Employee must give notice as soon as possible but no later than one to two work days after learning that leave will be necessary.
 - c. A spouse or family member may give the notice if the employee is unable to personally give notice.

D. Eligible family and medical leave determination. The school district may require the employee giving notice of the need for leave to provide reasonable documentation or a statement of family relationship.

1. Four purposes.
 - a. The birth of a son or daughter of the employee and in order to care for that son or daughter prior to the first anniversary of the child's birth;
 - b. The placement of a son or daughter with the employee for adoption or foster care and in order to care for that son or daughter prior to the first anniversary of the child's placement;
 - c. To care for the spouse, son, daughter or parent of the employee if the spouse, son, daughter or parent has a serious health condition; or
 - d. Employee's serious health condition that makes the employee unable to perform the essential functions of the employee's position.
2. Medical certification.
 - a. When required:
 - (1) Employees shall be required to present medical certification of the employee's serious health condition and inability to perform the essential functions of the job.
 - (2) Employees shall be required to present medical certification of the family member's serious health condition and that it is medically necessary for the employee to take leave to care for the family member.
 - b. Employee's medical certification responsibilities:
 - (1) The employee must obtain the certification from the health care provider who is treating the individual with the serious health condition.
 - (2) The school district may require the employee to obtain a second certification by a health care provider chosen by and paid for by the school district if the school district has reason to doubt the validity of the certification an employee submits. The second health care provider cannot, however, be employed by the school district on a regular basis.
If the second health care provider disagrees with the first health care provider, then the school district may require a third health care provider to certify the serious health

condition. This health care provider must be mutually agreed upon by the employee and the school district and paid for by the school district. This certification or lack of certification is binding upon both the employee and the school district.

- c. Medical certification will be required fifteen days after family and medical leave begins unless it is impracticable to do so. The school district may request recertification every thirty days. Recertification must be submitted within fifteen days of the school district's request.

Family and medical leave requested for the serious health condition of the employee or to care for a family member with a serious health condition which is not supported by medical certification will be denied until such certification is provided.

E. Entitlement.

- 1. Employees are entitled to twelve weeks unpaid family and medical leave per year.
- 2. Year is defined as: Fiscal year
- 3. If insufficient leave is available, the school district may:
 - a. Deny the leave if entitlement is exhausted
 - b. Award leave available

F. Type of Leave Requested.

- 1. Continuous - employee will not report to work for set number of days or weeks.
- 2. Intermittent - employee requests family and medical leave for separate periods of time.
 - a. Intermittent leave is available for:
 - (1) Birth, adoption or foster care placement of child only with the school district's agreement.
 - (2) Serious health condition of the employee, spouse, parent, or child when medically necessary without the school district's agreement.
 - b. In the case of foreseeable intermittent leave, the employee must schedule the leave to minimize disruption to the school district operation.
 - c. During the period of foreseeable intermittent leave, the school district may move the employee to an alternative position with equivalent pay and benefits. *(For instructional employees, see G below.)*
- 3. Reduced work schedule - employee requests a reduction in the employee's regular work schedule.
 - a. Reduced work schedule family and medical leave is available for:
 - (1) Birth, adoption or foster care placement and subject to the school district's agreement.

- (2) Serious health condition of the employee, spouse, parent, or child when medically necessary without the school district's agreement.
- b. In the case of foreseeable reduced work schedule leave, the employee must schedule the leave to minimize disruption to the school district operation.
- c. During the period of foreseeable reduced work schedule leave, the school district may move the employee to an alternative position with equivalent pay and benefits. (*For instructional employees, see G below.*)

G.Special Rules for Instructional Employees.

1. Definition - an instructional employee is one whose principal function is to teach and instruct students in a class, a small group or an individual setting. This includes, but is not limited to, teachers, coaches, driver's education instructors and special education assistants.
2. Instructional employees who request foreseeable medically necessary intermittent or reduced work schedule family and medical leave greater than twenty percent of the work days in the leave period may be required to:
 - a. Take leave for the entire period or periods of the planned medical treatment; or
 - b. Move to an available alternative position, with equivalent pay and benefits, but not necessarily equivalent duties, for which the employee is qualified.
3. Instructional employees who request continuous family and medical leave near the end of a semester may be required to extend the family and medical leave through the end of the semester. The number of weeks remaining before the end of a semester do not include scheduled school breaks, such as summer, winter or spring break.
 - a. If an instructional employee begins family and medical leave for any purpose more than five weeks before the end of a semester, the school district may require that the leave be continued until the end of the semester if the leave will last at least three weeks and the employee would return to work during the last three weeks of the semester if the leave was not continued.
 - b. If the employee begins family and medical leave for a purpose other than the employee's own serious health condition during the last five weeks of a semester, the school district may require that the leave be continued until the end of the semester if the leave will last more than two weeks and the employee would return to work during the last two weeks of the semester.
 - c. If the employee begins family and medical leave for a purpose other than the employee's own serious health condition during the last three weeks of the semester and the leave will last more than five working days, the school district may require the employee to continue taking leave until the end of the semester.

The entire period of leave taken under the special rules is credited as family and medical leave. The school district will continue to fulfill the school district's family and medical leave responsibilities

and obligations, including the obligation to continue the employee's health insurance and other benefits, if an instructional employee's family and medical leave entitlement ends before the involuntary leave period expires.

H. Employee responsibilities while on family and medical leave.

1. Employee must continue to pay health care benefit contributions or other benefit contributions regularly paid by the employee unless employee elects not to continue the benefits.
2. The employee contribution payments will be deducted from any money owed to the employee or the employee will reimburse the school district at a time set by the superintendent.
3. An employee who fails to make the health care contribution payments within thirty days after they are due will be notified that their coverage may be canceled if payment is not received within an additional 15 days.
4. An employee may be asked to re-certify the medical necessity of family and medical leave for the serious medical condition of an employee or family member once every thirty days and return the certification within fifteen days of the request.
5. The employee must notify the school district of the employee's intent to return to work at least once each month during their leave and at least two weeks prior to the conclusion of the family and medical leave.
6. If an employee intends not to return to work, the employee must immediately notify the school district, in writing, of the employee's intent not to return. The school district will cease benefits upon receipt of this notification.

I. Use of paid leave for family and medical leave.

An employee may substitute unpaid family and medical leave with any paid leave available to the employee under board policy, individual contracts or the collective bargaining agreement. Paid leave available for substitution of unpaid leave includes, but is not limited to, vacation, personal leave, and emergency leave.

 - May cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.).
- Any period of incapacity which is permanent or long-term due to a condition for which treatment may not be effective. The employee or family member must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider. Examples include Alzheimer's, a severe stroke or the terminal stages of a disease.
- Any period of absence to receive multiple treatments (including any period of recovery from) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider, either for restorative surgery after an accident or other injury, or for a condition that would likely result in a period of incapacity of more than three consecutive calendar days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), kidney disease (dialysis).

Eligible Employee-the district has more than 50 employees on the payroll at the time leave is requested. The employee has worked for the district for at least twelve months and has worked at least 1250 hours within the previous year.

Intermittent leave-leave taken in separate periods of time due to a single illness or injury, rather than for one continuous period of time, and may include leave or periods from an hour or more to several weeks.

Medically Necessary-certification for medical necessity is the same as certification for serious health condition.

"Needed to Care For"-the medical certification that an employee is "needed to care for" a family member encompasses both physical and psychological care. For example, where, because of a serious health condition, the family member is unable to care for his or her own basic medical, hygienic or nutritional needs or safety or is unable to transport himself or herself to medical treatment. It also includes situations where the employee may be needed to fill in for others who are caring for the family member or to make arrangements for changes in care.

employee when the employee was a child. Parent does not include parent-in-law.

Reduced leave schedule-a leave schedule that reduces the usual number of hours per workweek, or hours per workday, of an employee.

Serious health condition

- An illness, injury, impairment, or physical or mental condition that involves:
 - Inpatient care (i.e. an overnight stay) in a hospital, hospice or residential medical care facility including any period of incapacity (for purposes of this section, defined to mean inability to work, attend school or perform other regular daily activities due to the serious health condition, treatment for or recovery from), or any subsequent treatment in connection with such inpatient care; or
 - Continuing treatment by a health care provider. A serious health condition involving continuing treatment by a health care provider includes:
 - A period of incapacity (i.e., inability to work, attend school or perform other regular daily activities due to the serious health condition, treatment for or recovery from) of more than three consecutive calendar days, including any subsequent treatment or period of incapacity relating to the same condition, that also involves:
 - Treatment two or more times by a health care provider, by a nurse or physician's assistant under direct supervision of a health care provider, or by a provider of health care services (e.g., physical therapist) under orders or, or on referral by, a health care provider; or
 - Treatment by a health care provider on at least one occasion which results in a regimen of continuing treatment under the supervision of the health care provider.
 - Any period of incapacity due to pregnancy or for prenatal care.
 - Any period of incapacity or treatment for such incapacity due to a chronic serious health condition. A chronic serious health condition is one which:
 - Requires periodic visits for treatment by a health care provider or by a nurse or physician's assistant under direct supervision of a health care provider;
 - Continues over an extended period of time (including recurring episodes of a single underlying condition); and
 - May cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.).
 - A period of incapacity which is permanent or long-term due to a condition for which treatment may not be effective. The employee or family member must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider. Examples include Alzheimer's a severe stroke or the terminal stages of a disease.
 - Any period of absence to receive multiple treatments (including any period of recovery from) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider, either for restorative surgery after an accident or other injury, or for a condition that would likely result in a period of incapacity of more than three consecutive calendar days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), kidney disease (dialysis).
- Treatment for purposes of this definition includes, but is not limited to, examinations to determine if a serious health condition exists and evaluation of the condition. Treatment does not include routine physical examinations, eye examinations or dental examinations. Under this definition, a regimen of continuing treatment includes, for example, a course of prescription medication (e.g., an antibiotic) or therapy

requiring special equipment to resolve or alleviate the health condition (e.g., oxygen). A regimen of continuing treatment that includes the taking of over-the-counter medications such as aspirin, antihistamines, or salves; or bed rest, drinking fluids, exercise and other similar activities that can be initiated without a visit to a health care provider, is not, by itself, sufficient to constitute a regimen of continuing treatment for purposes of FMLA leave.

- Conditions for which cosmetic treatments are administered (such as most treatments for acne or plastic surgery) are not "serious health conditions" unless inpatient hospital care is required or unless complications develop. Ordinarily, unless complications arise, the common cold, the flu, ear aches, upset stomach, ulcers, headaches other than migraine, routine dental or orthodontia problems, periodontal disease, etc., are examples of conditions that do not meet the definition of a serious health condition and do not qualify for FMLA leave. Restorative dental or plastic surgery after an injury or removal of cancerous growths are serious health conditions provided all the other conditions of this regulation are met. Mental illness resulting from stress or allergies may be serious health conditions, but only if all the conditions of this section are met.
- Substance abuse may be a serious health condition if the conditions of this section are met. However, FMLA leave may only be taken for treatment for substance abuse by a health care provider or by a provider of health care on referral by a health care provider. On the other hand, absence because of the employee's use of the substance, rather than for treatment, does not qualify for FMLA leave.
- Absence attributable to incapacity under this definition qualify for FMLA leave even though the employee or the immediate family member does not receive treatment from a health care provider during the absence, and even if the absence does not last more than three days. For example, an employee with asthma may be unable to report for work due to the onset of an asthma attack or because the employee's health care provider has advised the employee to stay home when the pollen count exceeds a certain level. An employee who is pregnant may be unable to report to work because of severe morning sickness.

Son or daughter-a biological child, adopted child, foster child, stepchild, legal ward, or a child of a person standing in loco parentis. The child must be under age 18 or, if over 18, incapable of self-care because of a mental or physical disability.

Spouse-a husband or wife recognized by Iowa law including common law marriages.

If unpaid leave is granted, the duration of the leave period will be coordinated with the scheduling of the education program whenever possible to minimize the disruption of the education program and school district operations.

Whenever possible, licensed employees will make a written request for unpaid leave 3 days prior to the beginning date of the requested leave. If the leave is granted, the deductions in salary are made unless they are waived specifically by the superintendent.

Personnel serving on a substitute or temporary basis in the school district shall be licensed for the positions which they are to fill. A substitute who serves in a specific single assignment (not multiple assignments) for a period in excess of ten consecutive days shall be paid at a per diem equivalent to the lane and step they would qualify for on the salary schedule. Such per diem salary shall apply for only that period of employment in excess of ten consecutive teaching days on a specific single assignment (not multiple assignments).

No substitute shall be entitled to any of the fringe benefits applicable to full time licensed employees. 414.3E1 CLASSIFIED EMPLOYEE FAMILY AND MEDICAL LEAVE NOTICE TO EMPLOYEES

YOUR RIGHTS UNDER THE FAMILY AND MEDICAL LEAVE ACT OF 1993

FMLA requires covered employers to provide up to 12 weeks of unpaid, job-protected leave to eligible employees for the following reasons:

- For incapacity due to pregnancy, prenatal medical care or child birth;
- To care for the employee's child after birth, or placement for adoption or foster care;
- To care for the employee's spouse, son or daughter, or parent, who has a serious health condition; or
- For a serious health condition that makes the employee unable to perform the employee's job.

MILITARY FAMILY LEAVE ENTITLEMENTS

Eligible employees with a spouse, son, daughter, or parent on active duty or call to active duty status in the National Guard or Reserves in support of a contingency operation may use their 12-week leave entitlement to address certain qualifying exigencies.

Qualifying exigencies may include attending certain military events, arranging for alternative childcare, addressing certain financial and legal arrangements, attending certain counseling sessions, and attending post-deployment reintegration briefings.

FMLA also includes a special leave entitlement that permits eligible employees to take up to 26 weeks of leave to care for a covered servicemember during a single 12-month period. A covered servicemember is a current member of the Armed Forces, including a member of the National Guard or Reserves, who has a serious injury or illness incurred in the line of duty on active duty that may render the servicemember medically unfit to perform his or her duties for which the servicemember is undergoing medical treatment, recuperation, or therapy; or is in outpatient status; or is on the temporary disability retired list.

BENEFITS AND PROTECTION

During FMLA leave, the employer must maintain the employee's health coverage under any "group health plan" on the same terms as if the employee had continued to work. Upon return from FMLA leave, most employees must be restored to their original or equivalent positions with equivalent pay, benefits, and other employment terms.

Use of FMLA leave cannot result in the loss of any employment benefit that accrued prior to the start of an employee's leave.

JOB ELIGIBILITY REQUIREMENTS

Employees are eligible if they have worked for a covered employer for at least one year, for 1,250 hours over the previous 12 months, and if at least 50 employees are employed by the employer within 75 miles.

DEFINITION OF SERIOUS HEALTH CONDITION

A serious health condition is an illness, injury, impairment, or physical or mental condition that involves either an overnight stay in a medical care facility, or continuing treatment by a health care provider for a condition that either prevents the employee from performing the functions of the employee's job, or prevents the qualified family member from participating in school or other daily activities.

Subject to certain conditions, the continuing treatment requirement may be met by a period of incapacity of more than 3 consecutive calendar days combined with at least two visits to a health care provider or one visit and a regimen of continuing treatment, or incapacity due to pregnancy, or incapacity due to a chronic condition. Other conditions may meet the definition of continuing treatment.

USE OF LEAVE

An employee does not need to use this leave entitlement in one block. Leave can be taken intermittently or on a reduced leave schedule when medically necessary. Employees must make reasonable efforts to schedule leave for planned medical treatment so as not to unduly disrupt the employer's operations. Leave due to qualifying emergencies may also be taken.

SUBSTITUTION OF PAID LEAVE FOR UNPAID LEAVE

Employees may choose or employers may require use of accrued paid leave while taking FMLA leave. In order to use paid leave for FMLA leave, employees must comply with the employer's normal paid leave policies.

EMPLOYEE RESPONSIBILITIES

Employees must provide 30 days advance notice of the need to take FMLA leave when the need is foreseeable. When 30 days notice is not possible, the employee must provide notice as soon as practicable and generally must comply with an employer's normal call-in procedures.

Employees must provide sufficient information for the employer to determine if the leave may qualify for FMLA protection and the anticipated timing and duration of the leave. Sufficient information may include that the employee is unable to perform job functions, the family member is unable to perform daily activities, the need for hospitalization or continuing treatment by a health care provider, or circumstances supporting the need for military family leave. Employees also must inform the employer if the requested leave is for a reason for which FMLA leave was previously taken or certified. Employees also may be required to provide a certification and periodic recertification supporting the need for leave.

EMPLOYER RESPONSIBILITIES

Covered employers must inform employees requesting leave whether they are eligible under FMLA. If they are, the notice must specify any additional information required as well as the employees' rights and responsibilities. If they are not eligible, the employer must provide a reason for the ineligibility. Covered employers must inform employees if leave will be designated as FMLA-protected and the amount of leave counted against the employee's leave entitlement. If the employer determines that the leave is not FMLA-protected, the employer must notify the employee.

UNLAWFUL ACTS BY EMPLOYERS

FMLA makes it unlawful for any employer to:

- Interfere with, restrain, or deny the exercise of any right provided under FMLA;
- Discharge or discriminate against any person for opposing any practice made unlawful by FMLA or for involvement in any proceeding under or relating to FMLA.

ENFORCEMENT

An employee may file a complaint with the U.S. Department of Labor or may bring a private lawsuit against an employer.

FMLA does not affect any Federal or State law prohibiting discrimination, or supersede any State or local law or collective bargaining agreement which provides greater family or medical leave rights.

NOTE: FMLA section 109 (29 U.S.C. § 2619) requires FMLA covered employers to post the text of this notice. Regulations 29 C.F.R. § 825.300(a) may require additional disclosures.

The second health care provider cannot, however, be employed by the school district on a regular basis.
 - (3) If the second health care provider disagrees with the first health care provider, then the school district may require a third health care provider to certify the serious health condition. This health care provider must be mutually agreed upon by the employee and the school district and paid for by the school district.  - May cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.).
- Any period of incapacity which is permanent or long-term due to a condition for which treatment may not be effective. The employee or family member must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider. Examples include Alzheimer's, a severe stroke or the terminal stages of a disease.
- Any period of absence to receive multiple treatments (including any period of recovery from) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider, either for restorative surgery after an accident or other injury, or for a condition that would likely result in a period of incapacity of more than three consecutive calendar days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), kidney disease (dialysis).

Eligible Employee-the district has more than 50 employees on the payroll at the time leave is requested. The employee has worked for the district for at least twelve months and has worked at least 1250 hours within the previous year.

"Needed to Care For"-the medical certification that an employee is "needed to care for" a family member encompasses both physical and psychological care. For example, where, because of a serious health condition, the family member is unable to care for his or her own basic medical, hygienic or nutritional needs or safety or

Serious health condition

An illness, injury, impairment, or physical or mental condition that involves:

Inpatient care (i.e. an overnight stay) in a hospital, hospice or residential medical care facility including any period of incapacity (for purposes of this section, defined to mean inability to work, attend school or perform other regular daily activities due to the serious health condition, treatment for or recovery from), or any subsequent treatment in connection with such inpatient care; or

-- Continuing treatment by a health care provider. A serious health condition involving continuing treatment by a health care provider includes:

-- A period of incapacity (i.e., inability to work, attend school or perform other regular daily activities due to the serious health condition, treatment for or recovery from) of more than three consecutive calendar days, including any subsequent treatment or period of incapacity relating to the same condition, that also involves:

-- Treatment two or more times by a health care provider, by a nurse or physician's assistant under direct supervision of a health care provider, or by a provider of health care services (e.g., physical therapist) under orders of, or on referral by, a health care provider; or

-- Treatment by a health care provider on at least one occasion which results in a regimen of continuing treatment under the supervision of the health care provider.

-- Any period of incapacity due to pregnancy or for prenatal care.

-- Any period of incapacity or treatment for such incapacity due to a chronic serious health condition. A chronic serious health condition is one which:

-- Requires periodic visits for treatment by a health care provider or by a nurse or physician's assistant under direct supervision of a health care provider;

-- Continues over an extended period of time (including recurring episodes of a single underlying condition); and

-- May cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.).

-- A period of incapacity which is permanent or long-term due to a condition for which treatment may not be effective. The employee or family member must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider. Examples include Alzheimer's a severe stroke or the terminal stages of a disease.

-- Any period of absence to receive multiple treatments (including any period of recovery from) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider, either for restorative surgery after an accident or other injury, or for a condition that would likely result in a period of incapacity of more than three consecutive calendar days in the

absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), kidney disease (dialysis).

- Treatment for purposes of this definition includes, but is not limited to, examinations to determine if a serious health condition exists and evaluation of the condition. Treatment does not include routine physical examinations, eye examinations or dental examinations. Under this definition, a regimen of continuing treatment includes, for example, a course of prescription medication (e.g., an antibiotic) or therapy requiring special equipment to resolve or alleviate the health condition (e.g., oxygen). A regimen of continuing treatment that includes the taking of over-the-counter medications such as aspirin, antihistamines, or salves; or bed rest, drinking fluids, exercise and other similar activities that can be initiated without a visit to a health care provider, is not, by itself, sufficient to constitute a regimen of continuing treatment for purposes of FMLA leave.
- Conditions for which cosmetic treatments are administered (such as most treatments for acne or plastic surgery) are not "serious health conditions" unless inpatient hospital care is required or unless complications develop. Ordinarily, unless complications arise, the common cold, the flu, ear aches, upset stomach, ulcers, headaches other than migraine, routine dental or orthodontia problems, periodontal disease, etc., are examples of conditions that do not meet the definition of a serious health condition and do not qualify for FMLA leave. Restorative dental or plastic surgery after an injury or removal of cancerous growths are serious health conditions provided all the other conditions of this regulation are met. Mental illness resulting from stress or allergies may be serious health conditions, but only if all the conditions of this section are met.
- Substance abuse may be a serious health condition if the conditions of this section are met. However, FMLA leave may only be taken for treatment for substance abuse by a health care provider or by a provider of health care on referral by a health care provider. On the other hand, absence because of the employee's use of the substance, rather than for treatment, does not qualify for FMLA leave.
- Absence attributable to incapacity under this definition qualify for FMLA leave even though the employee or the immediate family member does not receive treatment from a health care provider during the absence, and even if the absence does not last more than three days. For example, an employee with asthma may be unable to report for work due to the onset of an asthma attack or because the employee's health care provider has advised the employee to stay home when the pollen count exceeds a certain level. An employee who is pregnant may be unable to report to work because of severe morning sickness.

Son or daughter-a biological child, adopted child, foster child, stepchild, legal ward, or a child of a person standing in loco parentis. The child must be under age 18 or, if over 18, incapable of self-care because of a mental or physical disability.

Spouse-a husband or wife recognized by Iowa law including common law marriages.

If the leave is granted, the deductions in salary are made unless they are waived specifically by the superintendent.

STUDENTS (Series 500)

500 OBJECTIVES FOR EQUAL EDUCATIONAL OPPORTUNITIES FOR STUDENTS

This series of the board policy manual is devoted to the board's goals and objectives for assisting the students of the school district in obtaining an education. Each student will have an opportunity to obtain an education in compliance with the policies in this series.

It is the goal of the board to develop a healthy social, intellectual, emotional, and physical self- concept in the students enrolled in the school district. Each student attending school will have the opportunity to use it and its education program and services as a means for self- improvement and individual growth. In so doing, the students are expected to conduct themselves in a manner that assures each student the same opportunity.

The board supports the delivery of the education program and services to students free of discrimination on the basis of race, color, sex, gender, gender orientation, marital status, sexual orientation, national origin, religion, creed, socioeconomic status, or disability. This concept of equal educational opportunity serves as a guide for the board and employees in making decisions relating to school district facilities, employment, selection of educational materials, equipment, curriculum, and regulations affecting students.

In the delivery of the education program, students will treat the employees with respect and students will receive the same in return. Employees have the best interests of the students in mind and will assist them in school-related or personal matters if they are able to do so.

Students should feel free to discuss problems, whether school-related or personal, with the guidance counselor or other employees.

Board policies, rules and regulations affect students while they are on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district.

This section of the board policy refers to the term "parents" in many of the policies. The term parents for purposes of this policy manual will mean the legal parents. The legal guardian or custodian of a student and students who have reached the age of majority or are otherwise considered an adult by law.

Inquiries by students regarding compliance with equal educational opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, are directed to the Affirmative Action Coordinator by writing to the Affirmative Action Coordinator, Shenandoah Community School District, Shenandoah, Iowa 51601; or by telephoning 712-246- 1581.

Inquiries by students regarding compliance with equal educational opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, may also be directed in writing to the Director of the Region VII office of Civil Rights, U.S. Department of Education 8930 Ward Parkway, Suite 2037, Kansas City, MO. 64114 (816) 268-0550 or Iowa Dept. of Education, Grimes State Office Bldg., Des Moines, IA. (515) 281-5294. This inquiry or complaint to the federal or state office may be done instead of, or in addition to, an inquiry or complaint at the local level.

Further information and copies of the procedures for filing a complaint are available in the school district's central administrative office and the administrative office in each attendance center.

501.1 RESIDENT STUDENTS

Children who are residents of the school district community will attend the school district without paying tuition.

The residence of a student means the place, abode, or dwelling of the student. Generally, the legal dwelling of minors is the same as their parents. However, a student may establish a dwelling with someone other than the parents and attend public school in the school district without paying tuition if the primary purpose for residing in the school district is not for the purpose of obtaining a free public education. Further, students who have reached the age of majority and who are still eligible to attend an Iowa secondary school may declare their residence independent of the residence of the parents.

Each case involving the bona fide residence of a student will be decided upon its individual merits by the superintendent.

If after school board action, the student is still truant, the truancy officer will refer the matter over to the county attorney.

The school will participate in mediation if requested by the county attorney. The superintendent will represent the school district in mediation. The board will have complete discretion to determine the boundaries for each attendance center, to assign students to the attendance centers, and to assign students to the classrooms within the attendance center.

It is the responsibility of the superintendent to make a recommendation to the board annually regarding the assigned attendance center for each student. In making the recommendation, the superintendent will consider the geographical layout of the school district, the condition and location of the school district facilities, the location of student population, possible transportation difficulties, financial condition of the school district and other factors deemed relevant by the superintendent or the board.

501.6 STUDENT TRANSFERS IN

Students who transfer into the school district must meet the immunization and age requirements set out for students who initially enroll in the school district.

The school district will request the student's cumulative records from the previous school district. If the student cannot offer proof of grade level, the superintendent will make the grade level determination. The superintendent may require testing or other information to determine the grade level. Students expelled or suspended from their previous school district will only be enrolled after approval of the board.

The superintendent will determine the amount of credits to be transferred. If the student has not previously attended an accredited school, it is within the superintendent's discretion to accept or reject credits or grades.

The board may deny admission if the student is not willing to provide the board with the necessary information.

501.7 STUDENT TRANSFERS OUT OR WITHDRAWALS

If the student's parents wish to withdraw or transfer the student from school prior to completing and graduating from the education program, they should notify the superintendent in writing as soon as possible of the decision to withdraw or transfer the student from the education program. The student or parent should present this written notice at the office and receive instructions regarding the return of textbooks, library books, locker equipment, hot lunch tickets, etc.

The notice should state the student's final day of attendance. If the student is not enrolling in another school district, the school district will maintain the student's records in the same manner as the records of students who have graduated from the school district.

If the parents wish to have the student's cumulative record sent to the new school district, the parents must notify the superintendent in writing. This notice will include the name of the school district and the person at the new school district to whom the student's cumulative records should be sent. If the new school district requests the student's cumulative records, the school district will forward the cumulative records and notify the parents the records have been sent. The notice will inform the parents of their right to review the records sent.

If the student is of compulsory education age and not transferring to another public school district or an accredited nonpublic school, the parents will notify the superintendent that the student is receiving competent private instruction and file the necessary competent private instruction reports.

501.9 STUDENT ABSENCES - EXCUSED

Regular attendance by students is essential for students to obtain the maximum opportunities from the education program. Parents and students alike are encouraged to ensure an absence from school is a necessary absence. Students will attend school unless excused by the principal of their attendance center.

Student absences approved by the principal are excused absences. Excused absences will count as days in attendance for purposes of the truancy law. These absences include, but are not limited to, illness, family emergencies, recognized religious observances, and school-sponsored or approved activities.

Students whose absences are approved will make up the work missed and receive full credit for the missed school work. It is the responsibility of the student to initiate a procedure with the student's teacher to complete the work missed.

Students who wish to participate in school-sponsored activities must attend school one-half day the day of the activity unless permission has been given by the principal for the student to be absent.

It is the responsibility of the parent to notify the student's attendance center as soon as the parent knows the student will not be attending school on that day. The principal may request evidence or written verification of the student's reason for absence.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

Regular attendance by the students at school is essential for students to obtain the maximum opportunities from the education program. Parents and students alike are encouraged to ensure an absence from school is a necessary absence. Students will attend school unless excused by the principal of their attendance center.

Truancy is the failure to attend school for the minimum number of days established in the school calendar by the board. Truancy is the act of being absent without parental permission and administrative approval. These absences will include, but not be limited to, tardiness, shopping, hunting, concerts, preparation or participation in parties and other celebrations and employment. Truancy will not be tolerated by the board.

Students are subject to disciplinary action for truancy including suspension and expulsion. It is within the discretion of the principal to determine, in light of the circumstances, whether a student may make up work missed because of truancy. Students receiving special education services will not be assigned to supervised study hall, in-school suspension unless the goals and objectives of the student's Individualized Education Program are capable of being met.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy. The administrative regulations will indicate the disciplinary action to be taken for truancy.

501.15 OPEN ENROLLMENT TRANSFERS - PROCEDURES AS A SENDING DISTRICT

The school district will participate in open enrollment as a sending district. As a sending district, the board will allow resident students who meet the requirements to open enroll to another public school district.

Parents requesting open enrollment out of the school district for their student will notify the sending and receiving school district no later than March 1 in the school year preceding the first year desired for open enrollment. The notice is made on forms provided by the Department of Education. The forms are available at the central administration office.

Parents of children who will begin kindergarten in the school district are exempt from the open enrollment March 1 deadline. Parents of children who will begin kindergarten will file in the same manner set forth above by September 1. Parents who have good cause as defined by law for failing to meet the March 1 deadline may make an open enrollment request by September 1 unless another deadline applies.

The receiving district will approve open enrollment requests according to the timelines established by law. The parents may withdraw the open enrollment request prior to the start of the school year. The receiving district's superintendent will notify the parents and sending school district by mail within five days of the school district's action to approve or deny the open enrollment request.

The board will not approve a student's request to allow the receiving district to enter the school district for the purposes of transportation.

An open enrollment request out of the school district from parents of a special education student is reviewed on a case-by-case basis. The determining factor for approval of such an open enrollment request will be whether the special education program available in the receiving school district is appropriate for the student's needs. The area education agency director of special education serving the receiving district will determine whether the program is appropriate. The special education student will remain in the school district until the final determination is made.

It is the responsibility of the superintendent to maintain open enrollment request applications and notice forms. It will also be the responsibility of the superintendent to develop appropriate office procedures and administrative regulations necessary for open enrollment requests.

501.16 OPEN ENROLLMENT TRANSFERS - PROCEDURES AS A RECEIVING DISTRICT

The school district will participate in open enrollment as a receiving district. As a receiving district, the board will allow nonresident students, who meet the legal requirements, to open enroll into the school district. The board will have complete discretion to determine the attendance center of the students attending the school district under open enrollment.

The superintendent will approve timely filed applications by June 1; incoming kindergarten applications; good cause application; or continuation of an educational program application filed by the third Thursday of the following September.

The superintendent will notify the sending school district and parents within five days of the school district's action to approve or deny the open enrollment request. The superintendent will also forward a copy of the school district's action with a copy of the open enrollment request to the Iowa Department of Education.

Open enrollment requests into the school district will not be approved if insufficient classroom space exists. Open enrollment requests into the school district will also not be approved for students who have been suspended or expelled by the administration or the board of the school district the student is or was attending until the student has been reinstated into the school district from which the student was suspended or expelled. Once the student is reinstated, the student's open enrollment request will be considered in the same manner as other open enrollment requests provided the required timelines are met.

Open enrollment requests into the school district that, if denied, would result in students from the same nuclear family being enrolled in different school districts, will be given highest priority.

The board, in its discretion, may waive the insufficient classroom space reason for denial for students of the same nuclear family to prevent the division of a nuclear family between two school districts. Other open enrollment requests into the school district are considered in the order received by the school district with the first open enrollment request given a higher priority than the second open enrollment request and so forth.

Generally, students in grades nine through twelve open enrolling into the school district will not be eligible for participation in interscholastic athletics, at the varsity level, during the first ninety days of open enrollment into the school district.

Parents of students whose open enrollment requests are approved by the board are responsible for providing transportation to and from the receiving school district without reimbursement. The board will not approve transportation into the sending district.

An open enrollment request into the school district from parents of a special education student is reviewed on a case-by-case basis. The determining factors for approval of such an open enrollment request will be whether the special education program available in the school district is appropriate for the student's needs and whether the enrollment of the special education student will cause the class size to exceed the maximum allowed. The area education agency director of special education serving the school district will determine whether the program is appropriate. The special education student will remain in the sending district until the final determination is made.

The policies of the school district will apply to students attending the school district under open enrollment.

It is the responsibility of the superintendent to develop appropriate office procedures and administrative

regulations necessary for open enrollment requests.

501.17 HOMELESS CHILDREN AND YOUTH

HOMELESS CHILDREN AND YOUTH

The Shenandoah Community School District believes all students should have access to a free, appropriate public education. The district will ensure that homeless children and youth have equal access to the same free, appropriate public education as other children and youth.

The term “homeless children and youth” means individuals who lack a fixed, regular, and adequate nighttime residence. The term includes:

- Children and youth who are:
 - Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason (sometimes referred to as “doubled up”);
 - Living in motels, hotels, trailer parks, or camping grounds due to lack of alternative adequate accommodations;
 - Living in emergency or transitional shelters; or
 - Abandoned in hospitals.
- Children and youth who have a primary nighttime residence that is a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings;
- Children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
- Migratory children who qualify as homeless because they are living in circumstances described above.

To help ensure that homeless children and youth have a full opportunity to enroll, attend, and succeed at school, the board shall:

- Designate the *[insert employee title]* as the local homeless children and youth liaison;
- Provide training opportunities for staff so staff may help identify and meet the needs of homeless children and youth;
- Remove barriers, including those associated with fees, fines, and absences, to the identification, enrollment, retention, attendance and/or success in school for homeless children and youth;
- Ensure collaboration and coordination with other service providers;
- Ensure transportation is provided in accordance with legal requirements;
- Provide school stability in school assignment according to the child’s best interests;
- Ensure the privacy of student records, as provided by applicable law, including information about a homeless child or youth’s living situation;
- Engage in the dispute resolution process for decisions relating to the educational placement of homeless children and youth as provided by applicable law; and
- Prohibit the segregation of a homeless child or youth from other students enrolled in the district.

The superintendent may develop an administrative process or procedures to implement this policy.

502.1 STUDENT APPEARANCE

The board believes inappropriate student appearance causes material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees and visitors.

Students are expected to adhere to standards of cleanliness and dress that are compatible with the requirements of a good learning environment. The standards will be those generally acceptable to the community as appropriate in a school setting.

The board expects students to be clean and well-groomed and wear clothes in good repair and appropriate for the time, place and occasion. Clothing or other apparel promoting products illegal for use by minors and clothing displaying obscene material, profanity, or reference to prohibited conduct are disallowed. While the primary responsibility for appearance lies with the students and their parents, appearance disruptive to the education program will not be tolerated. When, in the judgment of a principal, a student's appearance or mode of dress disrupts the educational process or constitutes a threat to health or safety, the student may be required to make modifications.

The board recognizes the convenience to families and students of having students drive to and park at their school attendance center. Driving a motor vehicle to and parking it at the student's attendance center is a privilege.

Students who drive to and park at their school attendance center shall only drive to and park at their designated attendance center or at either their attendance center or a shared district's attendance center for the purpose of attending extracurricular activities. Students may not loiter around or be in their vehicle during the school day without permission from the principal.

Students shall leave their attendance center when there is no longer a legitimate reason for them to be at their attendance center. Students who drive shall enter and leave the parking lot by the routes designated by the principal.

Students who live within one mile of school, and would not otherwise be eligible for a student driving permit, may be eligible for a student driving permit, for driving to and from school and school activities and practices, if the student is involved in school activities and/or it is a hardship to the family getting the student to and from school activities.

Only the board of education or the superintendent can approve or deny a school driving permit if the student lives within a mile of school. The student may appeal to the school board the decision of the superintendent to deny certification. The decision of the school board is final.

502.5 FREEDOM OF EXPRESSION

Student expression, other than student expression in student-produced official school publications, made on the school district premises or under the jurisdiction of the school district or as part of a school-sponsored activity may be attributed to the school district; therefore, student expression must be responsible. Student expression must be appropriate to assure that the students learn and meet the goals of the school activity and that the potential audience is not exposed to material that may be harmful or inappropriate for their level of maturity.

Students will be allowed to express their viewpoints and opinions as long as the expression is responsible. The expression will not, in the judgment of the administration, encourage the breaking of laws, defame others, be obscene or indecent, or cause a material and substantial disruption to the educational program. The administration, when making this judgment, will consider whether the activity in which the expression was made is school-sponsored and whether review or prohibition of the students' speech furthers an educational purpose. Further, the expression must be done in a reasonable time, place, and manner that is not disruptive to the orderly and efficient operation of the school district.

Students who violate this policy may be subject to disciplinary measures. Employees are responsible for insuring students' expression is in keeping with this policy. It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

502.8 WEAPONS

The board believes weapons, other dangerous objects and look-a-likes in school district facilities cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees and visitors on the school district premises or property within the jurisdiction of the school district.

School district facilities are not an appropriate place for weapons, dangerous objects and look-a-likes. Weapons and other dangerous objects and look-a-likes will be taken from students and others who bring them onto the school district property or onto property within the jurisdiction of the school district or from students who are within the control of the school district.

Parents of students found to possess weapons, dangerous objects or look-a-likes on school property are notified of the incident. Possession or confiscation of weapons, dangerous objects or look-a-likes will be reported to law enforcement officials, and students will be subject to disciplinary action including suspension or expulsion.

Students bringing firearms to school or knowingly possessing firearms at school will be expelled for not less than one year. The superintendent has the authority to recommend this expulsion requirement be modified for students on a case-by-case basis. For purposes of this portion of this policy, the term "firearm" includes, but is not limited to, any weapon which is designed to expel a projectile by the action of an explosive, the frame or receiver of any such weapon, a muffler or silencer for such a weapon, or any explosive, incendiary or poison gas, or otherwise defined by applicable law.

Weapons under the control of law enforcement officials or other individuals specifically authorized by the board are exempt from this policy. The superintendent may develop an administrative process or procedures to implement the policy.

NOTE: The board may specifically authorize individuals to be armed with, carry, or transport a firearm on school grounds under limited circumstances outlined in law. Reasons for this authorization may include, conducting instructional programs regarding firearms or for conducting an Iowa Department of Natural Resources approved hunter education course or shooting sports activities course on school property.

502.9 SMOKING - DRINKING - DRUGS

The board prohibits the distribution, dispensing, manufacture, possession, use, or being under the influence of beer, wine, alcohol, tobacco, other controlled substances, or "look alike" substances that appear to be tobacco, beer, wine, alcohol or controlled substances by students while on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if the misconduct will directly affect the good order, efficient management and welfare of the school district.

The board believes such illegal, unauthorized or contraband materials generally cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees, or visitors.

Violation of this policy by students will result in disciplinary action including suspension or expulsion. Use, purchase or being in possession of cigarettes, tobacco or tobacco products for those under the age of eighteen, may be reported to the local law enforcement authorities.

Possession, use or being under the influence of beer, wine, alcohol and/or of a controlled substance may also be reported to the local law enforcement authorities.

Students who violate the terms of this policy may be required to satisfactorily complete a substance abuse assistance or rehabilitation program approved by the school board. If such student fails to satisfactorily complete such a program, the student may be subject to discipline including suspension or expulsion.

The board believes the substance abuse prevention program will include:

- Age-appropriate, developmentally-based drug and alcohol curriculum for students in grades kindergarten through twelve, which address the legal, social, and health consequences of tobacco, drug and alcohol use and which provide information about effective techniques for resisting peer pressure to use tobacco, drugs or alcohol;
- A statement to students that the use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful;
- Standards of conduct for students that clearly prohibit, at a minimum, the unlawful possession, use, being under the influence of or distribution of illicit drugs and alcohol by students on school premises or as part of any of its activities;
- A clear statement that disciplinary sanctions, up to and including suspension or expulsion and referral for prosecution, will be imposed on students who violate the policy and a description of those sanctions;
- A statement that students may be required to successfully complete an appropriate rehabilitation program;
- Information about drug and alcohol counseling and rehabilitation and re-entry programs available to students;
- A requirement that parents and students be given a copy of the standards of conduct and the statement of disciplinary sanctions required; and
- Notification to parents and students that compliance with the standards of conduct is mandatory.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

502.10 SEARCH AND SEIZURE

School district property is held in public trust by the board. School district authorities may, without a search warrant, search students or protected student areas based on a reasonable and articulable suspicion that a school district policy, rule, regulation or law has been violated. The search is in a manner reasonable in scope to maintain order and discipline in the schools, promote the educational environment, and protect the safety and welfare of students, employees and visitors to the school district facilities. The furnishing of a locker, desk or other facility or space owned by the school and provided as a courtesy to a student, even if the student provides the lock for it, will not create a protected student area and will not give rise to an expectation of privacy with respect to the locker, desk, or other facility.

School authorities may seize any illegal, unauthorized or contraband materials discovered in the search. Items of contraband may include, but are not limited to, nonprescription controlled substances, marijuana, cocaine, amphetamines, barbiturates, apparatus used for controlled substances, alcoholic beverages, tobacco, weapons, explosives, poisons and stolen property.

Such items are not to be possessed by a student while they are on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district. Possession of such items will be grounds for disciplinary action including suspension or expulsion and may be reported to local law enforcement officials. The board believes that illegal, unauthorized or contraband materials may cause material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees, or visitors on the school district premises or property within the jurisdiction of the school district.

It is the responsibility of the superintendent, in conjunction with the principals, to develop administrative regulations regarding this policy.

502.10R1 SEARCH AND SEIZURE REGULATION

I. Searches, in general.

- A. Reasonable and Articulate Suspicion: A search of a student will be justified when there are reasonable grounds for the suspicion that the search will turn up evidence that the student has violated or is violating the law or school district policy, rules, or regulations affecting school order.

Reasonable suspicion may be formed by considering factors such as the following:

- (1) eyewitness observations by employees;
- (2) information received from reliable sources;
- (3) suspicious behavior by the student; or,
- (4) the student's past history and school record although this factor alone is not sufficient to provide the basis for reasonable suspicion.

- B. Reasonable Scope: A search will be permissible in its scope or intrusiveness when the measures adopted are reasonably related to the objectives of the search. Reasonableness of scope or intrusiveness may be determined based on factors such as the following:

- (1) the age of the student;
- (2) the sex of the student;
- (3) the nature of the infraction; and
- (4) the emergency requiring the search without delay.

II. Types of Searches

A. Personal Searches

1. A student's person and/or personal effects (e.g., purse, backpack, etc.) may be searched when a school official has reasonable suspicion to believe the student is in possession of illegal or contraband items or has violated school district policies, rules, regulations or the law affecting school order.
2. Personally intrusive searches will require more compelling circumstances to be considered reasonable.
 - (a) Pat-Down Search: If a pat-down search or a search of a student's garments (such as jackets, socks, pockets, etc.) is conducted, it will be conducted in private by a school official of the same sex as the student and with another adult witness of the same sex present, when feasible.
 - (b) A more intrusive search, short of a strip search, of the student's person, handbags, book bags, etc., is permissible in emergency situations when the health and safety of students, employees, or visitors are threatened. Such a search may only be conducted in private by a school official of the same sex as the student, with an adult of the same sex present unless the health or safety of students will be endangered by the delay which may be caused by following these procedures.

B.Locker and Desk Inspections

Although school lockers and desks are temporarily assigned to individual students, they remain the property of the school district at all times. The school district has a reasonable and valid interest in insuring the lockers and desks are properly maintained. For this reason, lockers and desks are subject to unannounced inspections and students have no legitimate expectations of privacy in the locker or desk. Periodic inspections of all or a random selection of lockers or desks may be conducted by school officials in the presence of the student or another individual. Any contraband discovered during such searches will be confiscated by school officials and may be turned over to law enforcement officials.

The contents of a student's locker or desk (coat, backpack, purse, etc.) may be searched when a school official has reasonable and articulable suspicion that the contents contains illegal or contraband items or evidence of a violation of law or school policy or rule. Such searches should be conducted in the presence of another adult witness when feasible.

C.Automobile Searches

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains authority to conduct routine patrols of the student parking lots. The interior of a student's automobile on the school premises may be searched if the school official has reasonable and articulable suspicion to believe that illegal, unauthorized or contraband items are contained inside.

502.11 INTERVIEWS OF STUDENTS BY OUTSIDE AGENCIES

Generally, students may not be interviewed during the school day by persons other than parents and school district officials and employees.

Requests from law enforcement officers and from persons other than parents, school district officials, and employees to interview students are made through the principal's office. Upon receiving a request, it is the responsibility of the principal to determine whether the request will be granted. Generally, prior to granting a request, the principal will attempt to contact the parents to inform them of the request and to ask them to be present.

If a child abuse investigator wishes to interview a student, the principal will defer to the investigator's judgment as to whether the student should be interviewed independently from the student's parents, whether the school is the most appropriate setting for the interview, and who will be present during the interview.

Students will not be taken from school without the consent of the principal and without proper warrant.

503.1 STUDENT CONDUCT

The board believes inappropriate student conduct causes material and substantial disruption to the school environment, interferes with the rights of others, or presents a threat to the health and safety of students, employees, and visitors on school premises. Appropriate classroom behavior allows teachers to communicate more effectively with students.

Students will conduct themselves in a manner fitting to their age level and maturity and with respect and consideration for the rights of others while on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district. Consequences for the misconduct will be fair and developmentally appropriate in light of the circumstances.

Students who fail to abide by this policy, and the administrative regulations supporting it, may be disciplined for conduct which disrupts or interferes with the education program; conduct which disrupts the orderly and efficient operation of the school district or school activity; conduct which disrupts the rights of other students to participate in or obtain their education; conduct that is violent or destructive; or conduct which interrupts the maintenance of a disciplined atmosphere. Disciplinary measures include, but are not limited to, removal from the classroom, detention, suspension, probation, and expulsion.

A student who commits an assault against an employee on school district property or on property within the jurisdiction of the school district; while on school-owned or school-operated chartered vehicles; or while attending or engaged in school district activities will be suspended by the principal. Notice of the suspension is sent to the board president. The board will review the suspension and decide whether to hold a disciplinary hearing to determine whether to impose further sanctions against the student which may include expulsion. In making its decision, the board shall consider the best interests of the school district, which shall include what is best to protect and ensure the safety of the school employees and students from the student committing the assault. Assault for purposes of this section of this policy is defined as, when, without justification, a student does any of the following:

- an act which is intended to cause pain or injury to, or which is intended to result in physical contact which will be insulting or offensive to another, coupled with the apparent ability to execute the act; or
- any act which is intended to place another in fear of immediate physical contact which will be painful, injurious, insulting or offensive, coupled with the apparent ability to execute the act; or
- intentionally points any firearm toward another or displays in a threatening manner any dangerous weapon toward another.

The act is not an assault when the person doing any of the above and the other person are voluntary participants in a sport, social or other activity, not in itself criminal, when the act is a reasonably foreseeable incident of such sport or activity, and does not create an unreasonable risk of serious injury or breach of the peace.

Removal from the classroom means a student is sent to the building principal's office. It is within the discretion of the person in charge of the classroom to remove the student.

Detention means the student's presence is required during non-school hours for disciplinary purposes. The student can be required to appear prior to the beginning of the school day, after school has been dismissed for the day, or on

a non-school day. Whether a student will serve detention, and the length of the detention, is within the discretion of the licensed employee or the building principal, disciplining the student.

Suspension means; either an in-school suspension, an out-of-school suspension, a restriction from activities or loss of eligibility. An in-school suspension means the student will attend school but will be temporarily isolated from one or more classes while under supervision. An in-school suspension will not exceed ten consecutive school days. An out-of-school suspension means the student is removed from the school environment, which includes school classes and activities. An out-of-school suspension will not exceed ten consecutive school days. A restriction from school activities means a student will attend school and classes and practice but will not participate in school activities.

Probation means a student is given a conditional suspension of a penalty for a definite period of time in addition to being reprimanded. The conditional suspension will mean the student must meet the conditions and terms for the suspension of the penalty. Failure of the student to meet these conditions and terms will result in immediate reinstatement of the penalty.

Expulsion means an action by the board to remove a student from the school environment, which includes, but is not limited to, classes and activities, for a period of time set by the board.

Discipline of special education students, including suspensions and expulsions, will comply with the provisions of applicable federal and state laws.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

503.1R1 STUDENT SUSPENSION

Administrative Action

A. Probation

1. Probation is conditional suspension of a penalty for a set period of time. Probation may be imposed by the principal for infractions of school rules which do not warrant the necessity of removal from school.
2. The principal will conduct an investigation of the allegations against the student prior to imposition of probation. The investigation will include, but not be limited to, written or oral notice to the student of the allegations against the student and an opportunity to respond. Written notice and reasons for the probation will be sent to the parents.

B. In-School Suspension

1. In-school suspension is the temporary isolation of a student from one or more classes while under administrative supervision. In-school suspensions may be imposed by the principal for infractions of school rules which are serious but which do not warrant the necessity of removal from school.
2. The principal will conduct an investigation of the allegations against the student prior to imposition of an in-school suspension. The investigation will include, but not be limited to, written or oral notice to the student of the allegations against the student and an opportunity to respond. In-school suspension will not be imposed for more than ten school days. Written notice and reasons for the in-school suspension will be sent to the student's parents.

C. Out-of-School Suspension

1. Out-of-school suspension is the removal of a student from the school environment for periods of short duration. Out-of-school suspension is to be used when other available school resources are unable to constructively remedy student misconduct.
2. A student may be suspended out of school for up to ten school days by a principal for a commission of gross or repeated infractions of school rules, regulations, policy or the law, or when the presence of the student will cause interference with the maintenance of the educational environment or the operation of the school. The principal may suspend students after conducting an investigation of the charges against the student, giving the student:
 - a. Oral or written notice of the allegations against the student and
 - b. The opportunity to respond to those charges.

At the principal's discretion, the student may be allowed to confront witnesses against the student or present witnesses on behalf of the student.

3. Notice of the out-of-school suspension will be mailed no later than the end of the school day following the suspension to the student's parents and the superintendent. A reasonable effort is made

to personally notify the student's parents and such effort is documented by the person making or attempting to make the contact. Written notice to the parents will include the circumstances which led to the suspension and a copy of the board policy and rules pertaining to the suspension.

D. Suspensions and Special Education Students

1. Students who have been identified as special education students may be referred for a review of the student's Individual Education Program (IEP). The IEP may be revised to include a continuum of intervention strategies and programming to change the behavior.
2. Students who have not been identified as special education students may be referred for evaluation after the student's suspension to determine whether the student has a disability and is in need of special education.

503.2 EXPULSION

Only the board may remove a student from the school environment. The removal of a student from the school environment, which includes, but is not limited to, classes and activities, is an expulsion from school.

Students may be expelled for violations of board policy, school rules or the law. It is within the discretion of the board to discipline a student by using an expulsion for a single offense or for a series of offenses depending on the nature of the offense and the circumstances surrounding the offense.

It is within the discretion of the superintendent to recommend to the board the expulsion of a student for disciplinary purposes. Only the board may take action to expel a student and to readmit the student. The principal will keep records of expulsions in addition to the board's records.

When a student is recommended for expulsion by the board, the student is provided with:

1. Notice of the reasons for the proposed expulsion;
2. The names of the witnesses and an oral or written report on the facts to which each witness testifies unless the witnesses are students whose names may be released at the discretion of the superintendent;
3. An opportunity to present a defense against the charges and provide either oral testimony or written affidavits of witnesses on the student's behalf;
4. The right to be represented by counsel; and,
5. The results and finding of the board in writing open to the student's inspection.

In addition to these procedures, a special education student must be provided with additional procedures. A determination should be made of whether the student is actually guilty of the misconduct. A staffing team should determine whether the student's behavior is caused by the student's disability and whether the conduct is the result of inappropriate placement.

Discussions and conclusions of this meeting should be recorded.

If the special education student's conduct is not caused by the disability, the student may be expelled or suspended for a long-term period following written notice to the parent and pursuant to the school district's expulsion hearing procedures. If the misconduct is caused by the disability and a change in placement is recommended, the change must be made pursuant to the placement procedures used by the school district.

503.3 FINES - FEES - CHARGES

The board believes students should respect school district property and assist in its preservation for future use by others. Students may be assessed fines, charges, or fees for the materials needed in a course, for overdue school materials, for participating in activities, or for misuse of school property.

The superintendent will inform the board of the dollar amount to be charged to students or others for fines, charges, or fees annually. Parents of students meeting specific financial eligibility standards will be eligible for a waiver of student fees or a reduction of student fees based upon the request of the parent. It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

Parents or students who believe they may qualify for temporary financial hardship should contact the office of the child's school for a waiver form. This waiver does not carry over from year to year and must be completed annually.

503.4 GOOD CONDUCT RULE

Participation in school activities is a privilege. School activities provide the benefits of promoting additional interests and abilities in the students during their school years and for their lifetimes.

Students who participate in extracurricular activities serve as ambassadors of the school district throughout the calendar year, whether away from school or at school. Students who wish to have the privilege of participating in extracurricular activities must conduct themselves in accordance with board policy and must refrain from activities which are illegal, immoral or unhealthy.

Students who fail to abide by this policy and the administrative regulations supporting it may be subject to disciplinary measures. The principal will keep records of violations of the good conduct rule.

It is the responsibility of the superintendent to develop rules and regulations for school activities. Students wanting to participate in school activities must meet the requirements set out by the school district for participation in the activity.

The detail outlining specific conduct expected and penalties for violation is in the student handbook.

Corporal punishment is defined as the intentional physical punishment of a student and is prohibited. It includes the use of unreasonable or unnecessary physical force or physical contact made with the intent to harm or cause pain. No employee is prohibited from:

- Using reasonable and necessary force, not designed or intended to cause pain, in order to accomplish any of the following:
 - To quell a disturbance or prevent an act that threatens physical harm to any person.
 - To obtain possession of a weapon or other dangerous object within a pupil's control.

 - For the protection of property as provided for in Iowa Code section 704.4 or 704.5.
 - To remove a disruptive pupil from class or any area of school premises or from school-sponsored activities off school premises.
 - To protect a student from the self-infliction of harm.
 - To protect the safety of others.
- Using incidental, minor, or reasonable physical contact to maintain order and control.

Reasonable physical force should be commensurate with the circumstances of the situation. The following factors should be considered in using reasonable physical force for the reasons stated in this policy:

1. The size and physical, mental, and psychological condition of the student;
2. The nature of the student's behavior or misconduct provoking the use of physical force;
3. The instrumentality used in applying the physical force;
4. The extent and nature of resulting injury to the student, if any;
5. The motivation of the school employee using physical force.

Upon request, the student's parents are given an explanation of the reasons for physical force.

It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

504.2 STUDENT ORGANIZATIONS

Secondary school student-initiated, noncurriculum-related groups and student curriculum-related groups, upon receiving permission from the principal, may use school facilities for group meetings during non-instructional time but must have a faculty monitor present.

Non-instructional time will mean any time before the first period of the day and after the last period of the day in which any student attends class. Meetings will not interfere with the orderly conduct of the education program or other school district operations. It is within the discretion of the principal to determine whether the meetings will interfere with the orderly conduct of the education program or other school district operations. Activities relating to and part of the education program will have priority over the activities of another organization.

Curriculum-Related Organizations

It will also be the responsibility of the principal to determine whether a student group is curriculum-related. One or more of the following questions will be answered affirmatively if the group is curriculum-related:

- Is the subject matter of the group actually taught in a regularly offered course?
- Will the subject matter of the group soon be taught in a regularly offered course?
- Does the subject matter of the group concern the body of courses as a whole?
- Is participation in the group required for a particular course?
- Does participation in the group result in academic credit?

Secondary school curriculum-related student organizations may use the school district facilities for meetings and other purposes before and after the instructional school day. Employees are assigned to monitor approved meetings and may interact with curriculum-related organizations.

Noncurriculum-Related Organizations

Student-initiated, noncurriculum-related organizations are provided access to meeting space and school district facilities.

Only students may attend and participate in meetings of noncurriculum-related groups. Such attendance is strictly voluntary and student-initiated. As a means of determining whether a student's attendance is voluntary, the principal may require parental consent for the student to attend the meetings.

Employees will be assigned to monitor approved meetings. Employees will not participate in the meeting or assist in planning, criticizing, or encouraging attendance. Only students may be involved in and attend the noncurriculum group's meetings.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

505.3 STUDENT PROMOTION - RETENTION - ACCELERATION

Students will be promoted to the next grade level at the end of each school year based on the student's achievement, age, maturity, emotional stability, and social adjustment.

Reading retention/promotion – grades kindergarten through three

In accordance with law, students in grades kindergarten through three will be assessed for their level of reading or reading readiness. Those students who exhibit a substantial deficiency in reading will be provided intensive reading instruction, and their parents/guardians will be provided written notice at least annually of the deficiency and the services that will be provided which are designed to remediate the deficiency.

Beginning May 1, 2017, unless the school district is granted a waiver, if a student's reading deficiency is not remedied by the end of grade three, the student's parent/guardian will be informed that the student may enroll in an intensive summer reading program. If the student does not enroll in the intensive summer reading program, the student will be retained in grade three unless the student is exempt for good cause as provided by law. If the student is exempt from participating in an intensive summer reading program, or if the student completes the intensive summer reading program but is not reading proficient upon completion of the program, the student may be promoted to grade four; provided, however, that the student will continue to be provided intensive reading instruction until the student is proficient in reading.

In determining whether to promote a student in grade three to grade four, the school district will place significant weight on any reading deficiency identified that is not yet remediated. The school district will also weigh the student's progress in other subject areas as well as the student's overall intellectual, physical, emotional, and social development. A decision to retain a student in grade three will be made only after direct personal consultation with the student's parent/guardian and after the formulation of a specific plan of action to remedy the student's reading deficiency.

Retention/Promotion other than reading retention in grades kindergarten through three:

The district shall adhere to the following:

- **Retention/Promotion in kindergarten – eighth grade:** The retention of a student will be determined based upon the judgment of the licensed employee and the principal. When it becomes evident a student in grades kindergarten through eight may be retained in a grade level for an additional year, the parents will be informed. It is within the sole discretion of the ~~board~~ district to retain students in their current grade level and to deny promotion to a student.
- **Retention/Promotion in ninth – twelfth grade:** Students in grades nine through twelve will be informed of the required course work necessary to be promoted each year. When it becomes evident a student in these grades will be unable to meet the minimum credit requirements for the year, the student and parents will be informed. It is within the sole discretion of the ~~board~~ district to retain students in their current grade level and to deny promotion to a student.
- **Acceleration in kindergarten – twelfth grade:** Students in grades kindergarten through twelve with exceptional talents may, with the permission of the principal and parents, take classes beyond their current grade level. Enrichment opportunities outside the school district may be allowed when they do not conflict with the school district's graduation requirements.

The board recognizes the importance of maintaining student records and preserving their confidentiality. Student records containing personally identifiable information are kept confidential at collection, storage, disclosure and destruction stages. The board secretary is the custodian of student records. Student records may be maintained in the central administration office or administrative office of the student's attendance center. Student is defined as an enrolled individual, PK-12 including children in school district sponsored child-care programs.

Parents and eligible students will have access to the student's records during the regular business hours of the school district. An eligible student is a student who has reached eighteen years of age or is attending an institution of postsecondary education at the post high school level.

Parents of an eligible student are provided access to the student records only with the written permission of the eligible student unless the eligible student is defined as a dependent by the Internal Revenue Code. In that case, the parents may be provided access without the written permission of the student. A representative of the parents or eligible student, who has received written permission from the parents or eligible student, may inspect and review a special education student's records. Parents, other than parents of an eligible student, may be denied access to a student's records if the school district has a court order stating such or when the district has been advised under the appropriate laws that the parents may not access the student records. Parents may inspect an instrument used for the purpose of collection of student personal information prior to the instrument's use.

A student record may contain information on more than one student. Parents will have the right to access the information relating to their student or to be informed of the information. Eligible students will also have the right to access the information relating to themselves or be informed of the information.

Parents and eligible students will have a right to access the student's records upon request without unnecessary delay and in no instance more than forty-five calendar days (45) after the request is made. Parents, an eligible student or an authorized representative of the parents will have the right to access the student's records prior to an Individualized Education Program (IEP) meeting or hearing.

Copies of student records will be provided if failure to do so would effectively prevent the parents or student from exercising the right to access the student records. Fees for copies of the records are waived if it would prevent the parents or student from accessing the records. A fee may not be charged to search or retrieve information from student records.

Upon the request of parents or an eligible student, the school district will provide an explanation and interpretation of the student records and a list of the types and locations of education records collected, maintained or used by the school district.

If the parents or an eligible student believes the information in the student records is inaccurate, misleading or violates the privacy or other rights of the student, the parents or an eligible student may request that the school district amend the student records. The school district will decide whether to amend the student records within a reasonable time after receipt of the request. If the school district determines an amendment is made to the student record, the school district will make the amendment and inform the parents or the eligible student of the decision in writing.

If the school district determines that amendment of the student's record is not appropriate, it will inform the

parents or the eligible student of their right to a hearing before the hearing officer provided by the school district.

If the parents' and the eligible student's request to amend the student record is further denied following the hearing, the parents or the eligible student are informed that they have a right to place an explanatory letter in the student record commenting on the school district's decision or setting forth the reasoning for disagreeing with the school district. Additions to the student's records will become a part of the student record and be maintained like other student records. If the school district discloses the student records, the explanation by the parents will also be disclosed.

Student records may be disclosed in limited circumstances without parental or eligible student's written permission. This disclosure is made on the condition that the student record will not be disclosed to a third party without the written permission of the parents or the eligible student.

This disclosure may be made to the following individuals or under the following circumstances:

- to school officials within the school district and AEA personnel whom the superintendent has determined to have a legitimate educational interest, including, but not limited to, board members, employees, school attorney, auditor, health professionals, and individuals serving on official school committees;
- to officials of another school district in which the student wishes to enroll, provided the other school district notifies the parents the student records are being sent and the parents have an opportunity to receive a copy of the records and challenge the contents of the records unless the annual notification includes a provision that records will automatically be transferred to new school districts;
- to authorized representatives of the U.S. Comptroller General, the U.S. Attorney General for law enforcement purposes, the U.S. Secretary of Education or state and local educational authorities;
- in connection with financial aid for which the student has applied or which the student has received;
- to organizations and/or their authorized representatives conducting studies for, or on behalf of, educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student aid programs, and improving instruction, if such studies are conducted in such a manner as will not permit the personal identification of students and their parents by persons other than representatives of such organizations and such information will be destroyed when no longer needed for the purpose for which it is conducted;
- to accrediting organizations in order to carry out their accrediting functions;
- to parents of a dependent student as defined in the Internal Revenue Code;
- to comply with a court order or judicially issued subpoena consistent with an interagency agreement between the school district and juvenile justice agencies;
- in connection with a health or safety emergency;
- to authorized representatives of the Secretary of Agriculture or authorized representative from the Food and Nutrition Service for the purposes of conducting program monitoring, evaluations, and performance measurements of state and local educational and other agencies and institutions receiving funding for or providing a school lunch program for which the results will be reported in an aggregate form that does not identify any individual, provided that the data collected shall be protected in a manner that will not permit the personal identification of students and their parents to anyone other than those authorized under this paragraph and any personally identifiable data shall be destroyed when the data are no longer needed for program monitoring, evaluations, and performance measurements;
- to an agency caseworker or other representative of a state or local child welfare agency or tribal organization authorized to access a student's case plan when such agency or organization is legally

responsible for the care and protection of the student, provided that the education records or the personally identifiable information contained in such records of the student will not be disclosed by such agency or organization, except to an individual or entity engaged in addressing the student's education needs and authorized by such agency or organization to receive such disclosure and such disclosure is consistent with the state or tribal laws applicable to protecting the confidentiality of a student's education records; or

- as directory information.

The superintendent will keep a list of the individuals and their positions who are authorized to view a special education student's records without the permission of the parents or the eligible student. Individuals not listed are not allowed access without parental or an eligible student's written permission. This list must be current and available for public inspection and updated as changes occur.

The superintendent will also keep a list of individuals, agencies and organizations which have requested or obtained access to a student's records, the date access was given and their legitimate educational interest or purpose for which they were authorized to view the records. The superintendent, however, does not need to keep a list of the parents, authorized educational employees, officers and agencies of the school district who have accessed the student's records. This list for a student record may be accessed by the parents, the eligible student and the custodian of student records.

Permanent student records, including a student's name, address, phone number, grades, attendance record, classes attended, grade level completed and year completed may be maintained without time limitation. Permanent student records will be kept in a fire-safe vault.

When personally identifiable information, other than permanent student records, no longer needs to be maintained by the school district to provide educational services to a special education student, the parents or eligible student are notified. This notice is normally given after a student graduates or otherwise leaves the school district. If the parents or eligible student request that the personally identifiable information be destroyed, the school district will destroy the records. Prior to the destruction of the records, the school district must inform the parents or eligible student the records may be needed by the parents or eligible student for social security benefits or other purposes. In the absence of parents or an eligible student's request to destroy the records, the school district must maintain the records for at least three years after an individual is determined to be no longer eligible for special education.

The school district will cooperate with the juvenile justice system in sharing information contained in permanent student records regarding students who have become involved with the juvenile justice system. The school district will enter into an interagency agreement with the juvenile justice agencies involved.

The purpose of the agreement is to allow for the sharing of information prior to a student's adjudication in order to promote and collaborate between the school district and the agencies to improve school safety, reduce alcohol and illegal drug use, reduce truancy, reduce in-school and out-of-school suspensions, and to support alternatives to in-school and out-of-school suspensions and expulsions which provide structured and well supervised educational programs supplemented by coordinated and appropriate services designed to correct behaviors that lead to truancy, suspension, and expulsions and to support students in successfully completing their education.

The school district may share any information with the agencies contained in a student's permanent record, which is directly related to the juvenile justice system's ability to effectively serve the student. Prior to

adjudication information contained in the permanent record may be disclosed by the school district to the parties without parental consent or court order.

Information contained in a student's permanent record may be disclosed by the school district to the agencies after adjudication only with parental consent or a court order. Information shared pursuant to the agreement is used solely for determining the programs and services appropriate to the needs of the student or student's family or coordinating the delivery of programs and services to the student or student's family. Information shared under the agreement is not admissible in any court proceedings, which take place prior to a disposition hearing, unless written consent is obtained from a student's parent, guardian, or legal or actual custodian.

Confidential information shared between the school district and the agencies will remain confidential and will not be shared with any other person, unless otherwise provided by law. Information shared under the agreement is not admissible in any court proceedings, which take place prior to a disposition hearing, unless written consent is obtained from a student's parent, guardian, or legal or actual custodian. The school district may discontinue information sharing with an agency if the school district determines that the agency has violated the intent or letter of the agreement.

Agencies will contact the principal of the attendance center where the student is currently or was enrolled. The principal will then forward copies of the records within 10 business days of the request.

The school district will provide training or instruction to employees about parents' and eligible students' rights under this policy. Employees will also be informed about the procedures for carrying out this policy.

It is the responsibility of the superintendent to annually notify parents and eligible students of their right to inspect and review the student's records. The notice is given in a parents' or eligible student's native language. Should the school district collect personal information from students for the purposes of marketing or selling that information, the school district will annually notify parents of such activity.

The notice will include a statement that the parents have a right to file a complaint alleging the school district failed to comply with this policy. Complaints are forwarded to Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, Washington, DC. 20202-4605.

506.1E8 ANNUAL NOTICE

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. They are:

- (1) The right to inspect and review the student's education records within 45 days of the day the district receives a request for access.

Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

- (2) The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading or in violation of the student's privacy rights.

Parents or eligible students may ask the school district to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

If the district decides not to amend the record as requested by the parent or eligible student, the district will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

- (3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the district has contracted to perform a special task (such as an attorney, auditor, AEA employees, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee or student assistance team, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the district discloses education records without consent to officials of another school district in which a student seeks or intends to enroll. (Note: FERPA requires a school district to make a reasonable attempt to notify the

parent or eligible student of the records request unless it states in its annual notification that it intends to forward records on request.)

- (4) The right to inform the school district that the parent does not want directory information, as defined below, to be released. Directory information can be released without prior parental consent. School districts that anticipate marketing or selling directory information for marketing purposes need the following statement in this notice. "The school district will not market or sell directory information without prior consent of the parent."

Any student over the age of eighteen or parent not wanting this information released to the public must make object in writing by September 1st to the principal. The objection needs to be renewed annually.

NAME, GRADE LEVEL, ENROLLMENT STATUS, PARTICIPATION IN OFFICIALLY RECOGNIZED ACTIVITIES AND SPORTS, WEIGHT AND HEIGHT OF MEMBERS OF ATHLETIC TEAMS, DEGREES AND AWARDS RECEIVED, PHOTOGRAPH AND LIKENESS AND OTHER SIMILAR INFORMATION.

- (5) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the district to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Ave., SW, Washington, DC, 20202-4605.

The School District may share any information with the Parties contained in a student's permanent record, which is directly related to the juvenile justice system's ability to effectively serve the student. Prior to adjudication information contained in the permanent record may be disclosed by the School District to the Parties without parental consent or court order.

Information contained in a student's permanent record may be disclosed by the School District to the Parties after adjudication only with parental consent or a court order. Information shared pursuant to the agreement is used solely for determining the programs and services appropriate to the needs of the student or student's family or coordinating the delivery of programs and services to the student or student's family. Information shared under the agreement is not admissible in any court proceedings, which take place prior to a disposition hearing, unless written consent is obtained from a student's parent, guardian, or legal or actual custodian. Information obtained from others shall not be used for the basis of disciplinary action of the student. This agreement only governs a school district's ability to share information and the purposes for which that information can be used.

506.1R1 USE OF STUDENT RECORDS REGULATION

Student records are all official records, files, and data directly related to students, including all material incorporated into each student's cumulative record folder and intended for school use or to be available to parties outside the school or school system specifically including, but not necessarily limited to: dates of attendance; academic work completed; level of achievement (grades, standardized test scores); attendance data; scores on standardized intelligence, aptitude, and psychological tests; interest inventory results; health data; family background information; teacher or counselor ratings and observations; and verified reports of serious or recurrent behavior patterns.

The intent of this regulation is to establish procedures for granting requests from parents for access to their child's records, use of the data, and procedures for its transmittal within forty-five calendar days.

A. Access to Records

1. The parent or legal guardian of a student will have access to these records upon written request to the board secretary.

The parent or legal guardian will, upon written request to the board secretary, have the opportunity to receive an interpretation of the records, have the right to question the data, and, if a difference of opinion is noted, is permitted to file a letter in the cumulative folder stating the dissenting person's position. If further challenge is made to the record, the normal appeal procedures established by school policy will be followed.

A student, eighteen years or older, has the right to determine who, outside the school system, has access to the records. Parents of students who are 18 years or older but still dependents for income tax purposes may access the student's records without prior permission of the student.

2. School officials having access to student records are defined as having a legitimate educational interest. A school official is a person employed by the school district as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school district has contracted to perform a special task (such as an attorney, auditor, AEA employee, medical consultant, or therapist); or a parent or student serving on an official committee, such as disciplinary or grievance committee or student assistance team, or assisting another school official in performing his or her tasks.

A. Release of Information Outside the School

1. To release student records to other school(s) in which the student intends to enroll, the parents, legal guardian, or eligible student must be notified of the
2. transfer and the kinds of information being released unless the school district annually notifies parents that the records will be sent automatically.

Student records may be released to official education and other government agencies only if allowed by state or federal law.

3. To release student records to other persons or agencies, written consent is given by the parent,

legal guardian, or a student of majority age. This consent form will state which records are released, to whom they are released, and the reason for the release. A copy of the specific records being released will be made available to the person signing the release form if requested.

4. Before furnishing student records in compliance with judicial orders or pursuant to any lawfully issued subpoena, the school district will make a reasonable attempt to notify the parents, legal guardian, or eligible student are notified in advance.
5. Student records may be shared with juvenile justice agencies with which the school district has an interagency agreement. This information is shared without prior parental consent. The agreement is a public document available for inspection.

B. Hearing Procedures

1. Upon parental request, the school district will hold a hearing regarding the content of a student's records which the parent believes to be inaccurate, misleading, or in violation of the privacy rights of students.
2. The hearing will be held within a reasonable time after receipt of the parent or eligible student's request. The parent or eligible student will receive reasonable advance notice of date, time and place of the hearing.
3. The hearing officer may be an employee of the school district so long as the employee does not have a direct interest in the outcome of the hearing.
4. The parents or eligible student will be given a full and fair opportunity to present evidence relevant to the issues. The parent or eligible student may be represented by an individual at their choice at their own expense.
5. The hearing officer will render a written decision within a reasonable period after the hearing. The decision will be based upon evidence presented at the hearing and must include a summary of the evidence and the reasons for the decision.
6. The parents may appeal the hearing officers decision to the superintendent within 10 days if the superintendent does not have a direct interest in the outcome of the hearing.
7. The parents may appeal the superintendent's decision, or the hearing officers decision if the superintendent was unable to hear the appeal, to the board within 10 days. It is within the discretion of the board to hear the appeal.

506.2E1 PARENTAL AUTHORIZATION FOR RELEASING STUDENT DIRECTORY INFORMATION

The Shenandoah Community School District has adopted a policy designed to assure parents and students the full implementation, protection and enjoyment of their rights under the Family Educational Rights and Privacy Act of 1974 (FERPA). A copy of the school district's policy is available for review in the office of the principal of all of our schools.

This law requires the school district to designate as "directory information" any personally identifiable information taken from a student's educational records prior to making such information available to the public.

The school district has designated the following information as directory information: student's name, grade level, enrollment status, participation in officially recognized activities and sports; weight and height of members of athletic teams; degrees and awards received; and photograph and other likeness and other similar information. You have the right to refuse the designation of any or all of the categories of personally identifiable information as directory information with respect to your student provided that you notify the school district in writing no later than September 15th of this school year. If you desire to make such a refusal, please complete and return the slip attached to this notice.

If you have no objection to the use of student information, you do not need to take any action.

506.2R1 USE OF DIRECTORY INFORMATION

The *Family Educational Rights and Privacy Act* (FERPA), a Federal law, requires that Shenandoah School District, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, School District may disclose appropriately designated "directory information" without written consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the Shenandoah School District to include this type of information from your child's education records in certain school publications. Examples include:

- A playbill, showing your student's role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and,
- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the *Elementary and Secondary Education Act of 1965* (ESEA) to provide military recruiters, upon request, with the following information – names, addresses and telephone listings – unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent.¹

If you do not want the Shenandoah School District to disclose directory information from your child's education records without your prior written consent, you must notify the District in writing by September 1st. The Shenandoah School District has designated the following information as directory information:

- Student's name
- Photograph
- Grade level
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Degrees, honors, and awards received

¹ These laws are: Section 9528 of the Elementary and Secondary Education Act (20 U.S.C. § 7908) and 10 U.S.C. § 503(c).

506.3 STUDENT PHOTOGRAPHS

The board will permit student "portrait" photographs to be taken on school premises by a commercial photographer as a service to the students and their families.

Parents will be notified prior to the taking of pictures by a commercial photographer for student "portraits." In no case will students be required to have their picture taken or be pressured to purchase pictures.

Students or commercial photographers may take pictures of students upon consent for such things as the yearbook or student newspaper.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative rules regarding student photographs.

506.4 STUDENT LIBRARY CIRCULATION RECORDS

Student library circulation records are designed to be used internally to assist in the orderly administration of the school district libraries and media center. As a general rule, student library circulation records are considered confidential records and will not be released without parental consent. Individuals who may access such records include a student's parents, the student, authorized licensed employees, authorized government officials from the U.S. Comptroller General, the Secretary of Education, the Commissioner and Director of the National Institute of Education, and the Assistant Secretary for Education and State Education Department.

Appropriate authorities in a health or safety emergency may access the student's library circulation records without the approval or the notification of the student's parents. Parents may not access records, without the student's permission, of a student who has reached the age of majority or who is attending a post-secondary educational institution unless the student is considered a dependent for tax purposes.

It is the school librarian's responsibility, as the person maintaining the student library circulation records, to approve requests for access to student library circulation records. Students' library circulation records may be accessed during the regular business hours of the school district. If copies of documents are requested, a fee for such copying is charged.

It is the responsibility of the superintendent, in conjunction with the school librarian, to develop administrative regulations regarding this policy.

507.1 STUDENT HEALTH AND IMMUNIZATION CERTIFICATES

Students desiring to participate in athletic activities or enrolling in kindergarten or first grade in the school district will have a physical examination by a licensed physician and provide proof of such an examination to the school district. A physical examination and proof of such an examination may be required by the administration for students in other grades enrolling for the first time in the school district.

A certificate of health stating the results of a physical examination and signed by the physician is on file at the attendance center. Each student will submit an up-to-date certificate of health upon the request of the superintendent. Failure to provide this information may be grounds for disciplinary action.

Students enrolling for the first time in the school district will also submit a certificate of immunization against diphtheria, pertussis, tetanus, poliomyelitis, rubeola, rubella, and other immunizations required by law. The student may be admitted conditionally to the attendance center if the student has not yet completed the immunization process but is in the process of doing so. Failure to meet the immunization requirement will be grounds for suspension, expulsion or denial of admission. Upon recommendation of the Iowa Department of Education and Iowa Department of Public Health, students entering the district for the first time may be required to pass a TB test prior to admission. The district may conduct TB tests of current students.

Exemptions from the immunization requirement in this policy will be allowed only for medical or religious reasons recognized under the law. The student must provide a valid Iowa State Department of Health Certificate of Immunization Exemption to be exempt from this policy.

507.2 ADMINISTRATION OF MEDICATION TO STUDENTS

Some students may need prescription and nonprescription medication to participate in their educational program.

Medication shall be administered when the student's parent or guardian (hereafter "parent") provides a signed and dated written statement requesting medication administration and the medication is in the original, labeled container, either as dispensed or in the manufacturer's container.

When administration of the medication requires ongoing professional health judgment, an individual health plan shall be developed by the licensed health personnel with the student and the student's parent. Students who have demonstrated competence in administering their own medications may self-administer their medication. A written statement by the student's parent shall be on file requesting co-administration of medication, when competence has been demonstrated. By law, students with asthma or other airway constricting diseases may self-administer their medication upon approval of their parents and prescribing physician regardless of competency.

Persons administering medication shall include the licensed registered nurse, parent, physician, and persons who have successfully completed a medication administration course reviewed by the Board of Pharmacy Examiners. A medication administration course and periodic update shall be conducted by a registered nurse or licensed pharmacist, and a record of course completion kept on file at the agency.

A written medication administration record shall be on file including:

- date;
- student's name;
- prescriber or person authorizing administration;
- medication;
- medication dosage;
- administration time;
- administration method;
- signature and title of the person administering medication; and
- any unusual circumstances, actions, or omissions.

Medication shall be stored in a secured area unless an alternate provision is documented. Emergency protocols for medication-related reactions shall be posted. Medication information shall be confidential information.

Iowa law requires school districts to allow students with asthma or other airway constricting disease to carry and self-administer their medication as long as the parents and prescribing physician report and approve in writing. Students do not have to prove competency to the school district. The consent form, see 507.2E1, is all that is required. School districts that determine students are abusing their self-administration may either withdraw the self-administration if medically advisable or discipline the student, or both.

507.3 COMMUNICABLE DISEASES - STUDENTS

Students with a communicable disease will be allowed to attend school provided their presence does not create a substantial risk of illness or transmission to other students or employees. The term "communicable disease" will mean an infectious or contagious disease spread from person to person, or animal to person, or as defined by law.

Prevention and control of communicable diseases is included in the school district's bloodborne pathogens exposure control plan. The procedures will include scope and application, definitions, exposure control, methods of compliance, universal precautions, vaccination, post-exposure evaluation, follow-up, communication of hazards to employees and record keeping. This plan is reviewed annually by the superintendent and school nurse.

The health risk to immunosuppressed students is determined by their personal physician. The health risk to others in the school district environment from the presence of a student with a communicable disease is determined on a case-by-case basis by the student's personal physician, a physician chosen by the school district or public health officials.

It is the responsibility of the superintendent, in conjunction with the school nurse, to develop administrative regulations stating the procedures for dealing with students with a communicable disease.

507.4 STUDENT ILLNESS OR INJURY AT SCHOOL

When a student becomes ill or is injured at school, the school district will attempt to notify the student's parents as soon as possible.

The school district, while not responsible for medical treatment of an ill or injured student, will have employees present administer emergency or minor first aid if possible. An ill or injured child will be turned over to the care of the parents or qualified medical employees as quickly as possible.

It is the responsibility of the principal to file an accident report with the superintendent within twenty-four hours after the student is injured.

Annually, parents are required to complete a medical emergency authorization form indicating the procedures to be followed, if possible, in an emergency involving their child. The authorization form will also include the phone numbers of the parents and alternative numbers to call in case of an injury or illness.

The superintendent is responsible, in conjunction with the school nurse, to develop rules and regulations governing the procedure in the event a student should become ill or be injured at school.

Each attendance center will develop and maintain a written plan containing emergency and disaster procedures. The plan will be communicated to and reviewed with employees. Employees will participate in emergency drills. Licensed employees are responsible for instructing the proper techniques to be followed in the drill.

Court orders that have been issued are followed by the school district. It is the responsibility of the person requesting an action by the school district to inform and provide the school district the court order allowing such action.

This policy does not prohibit an employee from listening to a student's problems and concerns.

It is the responsibility of the superintendent to ensure employees remain neutral in a disagreement about custody and parental rights.

507.9R1 SPECIAL HEALTH SERVICES REGULATION

Some students who require special education need special health services in order to participate in the educational program. These students will receive special health services in accordance with their individualized educational program.

A. Definitions

"Assignment and delegation" - occurs when licensed health personnel, in collaboration with the education team, determine the special health services to be provided and the qualifications of individuals performing the health services. Primary consideration is given to the recommendation of the licensed health personnel. Each designation considers the student's special health service. The rationale for the designation is documented. If the designation decision of the team differs from the licensed health professional, team members may file a dissenting opinion.

"Co-administration" - the eligible student's participation in the planning, management and implementation of the student's special health service and demonstration of proficiency to licensed health personnel.

"Educational program" - includes all school curricular programs and activities both on and off school grounds.

"Education team" - may include the eligible student, the student's parent, administrator, teacher, licensed health personnel, and others involved in the student's educational program.

"Health assessment" - health data collection, observation, analysis, and interpretation relating to the eligible student's educational program.

"Health instruction" - education by licensed health personnel to prepare qualified designated personnel to deliver and perform special health services contained in the eligible student's health plan. Documentation of education and periodic updates are on file at school.

"Individual health plan" - the confidential, written, preplanned and ongoing special health service in the educational program. It includes assessment, planning, implementation, documentation, evaluation and a plan for emergencies. The plan is updated as needed and at least annually. Licensed health personnel develop this written plan with the education team.

"Licensed health personnel" - includes licensed registered nurse, licensed physician, and other licensed health personnel legally authorized to provide special health services and medications.

"Prescriber" - licensed health personnel legally authorized to prescribe special health services and medications.

"Qualified designated personnel" - persons instructed, supervised and competent in implementing the eligible student's health plan.

"Special health services" - includes, but is not limited to, services for eligible students whose health status (stable or unstable) requires:

- Interpretation or intervention,
- Administration of health procedures and health care, or
- Use of a health device to compensate for the reduction or loss of a body function.

"Supervision" - the assessment, delegation, evaluation and documentation of special health services by licensed health personnel. Levels of supervision include situations in which licensed health personnel are:

- physically present.
- available at the same site.
- available on call.

B. Licensed health personnel will provide special health services under the auspices of the school. Duties of the licensed personnel include the duty to:

- Participate as a member of the education team.
- Provide the health assessment.
- Plan, implement and evaluate the written individual health plan.
- Plan, implement and evaluate special emergency health services.
- Serve as liaison and encourage participation and communication with health service agencies and individuals providing health care.
- Provide health consultation, counseling and instruction with the eligible student, the student's parent and the staff in cooperation and conjunction with the prescriber.
- Maintain a record of special health services. The documentation includes the eligible student's name, special health service, prescriber or person authorizing, date and time, signature and title of the person providing the special health service and any unusual circumstances in the provision of such services.
- Report unusual circumstances to the parent, school administration, and prescriber.
- Assign and delegate to, instruct, provide technical assistance and supervise qualified designated personnel.

- Written report of the preplanning staffing or meeting of the education team.
- Written individual health plan available in the health record and integrated into the IEP or IFSP.

D. Licensed health personnel, in collaboration with the education team, will determine the special health services to be provided and the qualifications of individuals performing the special health services. The documented rationale will include the following:

- Analysis and interpretation of the special health service needs, health status stability, complexity of the service, predictability of the service outcome and risk of improperly performed service.
- Determination that the special health service, task, procedure or function is part of the person's job description.
- Determination of the assignment and delegation based on the student's needs.
- Review of the designated person's competency.
- Determination of initial and ongoing level of supervision required to ensure quality services.

- E. Licensed health personnel will supervise the special health services, define the level of supervision and document the supervision.

507.10 WELLNESS POLICY

I. Purpose and Goals

The Shenandoah Community School District promotes healthy students by supporting wellness, good nutrition and regular physical activity as a part of the total learning environment. By facilitating learning through the support and promotion of good nutrition and physical activity, schools contribute to the basic health status of students. Improved health optimizes student performance potential.

The school district provides a comprehensive learning environment for developing and practicing lifelong wellness behaviors. The entire school environment, not just the classroom, shall be aligned with healthy school district goals to positively influence a student's understanding, beliefs and habits as they relate to good nutrition and regular physical activity.

The school district supports and promotes proper dietary habits contributing to students' health status and academic performance. All foods available on school grounds and at school-sponsored activities during the instructional day should meet or exceed the school district nutrition standards and in compliance with state and federal law. Foods should be served with consideration toward nutritional integrity, variety, appeal, taste, safety and packaging to ensure high-quality meals.

The school district will make every effort to eliminate any social stigma attached to, and prevent the overt identification of, students who are eligible for free and reduced-price meals. Toward this end, the school district may utilize electronic identification and payment systems; provide meals at no charge to all children, regardless of income; promote the availability of meals to all students; and/or use nontraditional methods for serving meals, such as "grab-and-go" or classroom breakfast.

The school district will develop a local wellness policy committee comprised of parents, students, and representatives of the school food authority, physical education teachers, and school health professionals. The local wellness policy committee will develop a plan to implement the local wellness policy and periodically review and update the policy. The committee will designate an individual to monitor implementation and evaluate the implementation of the policy. The committee will report annually to the board and community regarding the content and effectiveness of this policy and recommend updates if needed. When monitoring implementation, schools will be evaluated individually with reports prepared by each school and the school district as a whole. The report will include which schools are in compliance with this policy, the extent to which this policy compares to model Wellness policies and describe the progress made in achieving the goals of this policy.

II. Nutritional Quality of Foods and Beverages Sold and Served on Campus Meals served through the National School Lunch and Breakfast Programs will:

- ◆ be appealing and attractive to children and be served in clean and pleasant settings;
- ◆ meet, at a minimum, nutrition requirements established by local, state, and federal law
- ◆ offer a variety of fruits and vegetables;
- ◆ serve only low-fat (1%) and fat-free milk and nutritionally-equivalent non-dairy alternatives (as defined by USDA); and
- ◆ ensure that as many of the served grains are whole grain.

Breakfast. To ensure that all children have breakfast, either at home or at school, in order to meet their nutritional needs and enhance their ability to learn, schools will:

- ◆ operate the School Breakfast Program to the extent possible.

- ◆ arrange bus schedules and utilize methods to serve school breakfasts that encourage participation.
- ◆ notify parents and students of the availability of the School Breakfast Program.
- ◆ encourage parents to provide a healthy breakfast for their children.

Free and Reduced-Priced Meals. Schools will make every effort to eliminate any social stigma attached to, and prevent the overt identification of, students who are eligible for free and reduced-price school meals. Toward this end, schools will utilize electronic identification and payment systems to promote the availability of school meals to all students.

Summer Food Service Program. Schools in which more than 50% of students are eligible for free or reduced-priced school meals may sponsor the Summer Food Service Program for at least six weeks between the last day of the academic school year and the first day of the following school year, and preferably throughout the entire summer vacation.

Meal Times and Scheduling. Adequate time to eat in a pleasant dining environment should be provided. Drinking fountains will be available for students to get water at meals and throughout the day. A short snack-free recess for elementary is encouraged to be scheduled sometime before lunch so children will come to lunch less distracted and ready to eat.

School personnel will assist all students in developing the healthy practice of washing hands before eating. School personnel will schedule enough time so students do not have to spend too much time waiting in line.

Schools should not schedule tutoring, pep rallies, assemblies, club/organization meetings and other activities during lunch times.

Schools will encourage socializing among students and between students and adults. Adults will properly supervise dining rooms and serve as role models to students by demonstrating proper conduct and using creative, innovative methods to keep noise levels appropriate.

Qualifications of School Food Service Staff. Qualified nutrition professionals will administer the school meal programs. As part of the school district's responsibility to operate a food service program, the school district will provide continuing professional development for all nutrition professionals in schools.

Staff development programs should include appropriate certification and/or training programs for child nutrition directors, school nutrition managers, and cafeteria workers, according to their levels of responsibility.

Sharing of Food and Beverages. The school district discourages students from sharing their foods or beverages with one another during meal or snack times, given concerns about allergies and other restrictions on some children's diets.

Foods and Beverages Sold Individually: The Shenandoah Community School District believes that the health of our children is of utmost importance to the future of our society. Therefore, we wish to improve the health of our school children by promoting healthy food and beverage choices by replacing non-nutritious foods and beverages with more nutritious choices. Bottled water and other items that meet the 100% value rule recommended for school vending will be allowed in student accessible school vending machines. Vending machines, other than milk and juice, will not be operational for student use during school hours. If vending machines are used in either building, all items and beverages will comply to nutrition values set by the Healthy Kids Act.

Fundraising Activities: To support children's health and school nutrition-education efforts, it is recommended that school fundraising activities will not involve food or will use only foods that meet nutritional standards. Schools will encourage fundraising activities that promote physical activity.

Snacks: Snacks served during the school day or in after-school care or enrichment programs will make a positive contribution to children's diets and health.

Celebrations: Schools should evaluate their celebrations practices that involve food during the school day. Parents will be encouraged to provide healthy food choice options to students.

Rewards: The school district will not use foods or beverages, especially those that do not meet the nutrition standards for foods and beverages, as rewards for academic performance of good behavior, and will not withhold food or beverages (including food served through meals) as a punishment.

School Sponsored Events: It is recommended that food and beverages offered or sold at school-sponsored events outside the school day meet the nutrition standards for meals.

III. Nutrition and Physical Activity Promotion and Food Marketing

Nutrition Education and Promotion. Shenandoah Community School District aims to teach, encourage, and support healthy eating by students. Students will receive nutrition education that is interactive and teaches the skills they need to adopt healthy eating habits. Teachers are encouraged to integrate nutrition education into core curriculum areas such as math, science, social studies, and language arts as applicable. Students will be encouraged to start each day with a healthy breakfast.

Communications with Parents. The school district will support parents' efforts to provide a healthy diet and daily physical activity for their children. The school district will send home nutrition information, post nutrition tips on school websites, and provide nutrient analyses of school menus. Schools should encourage parents to pack healthy lunches and snacks and to refrain from including beverages and foods that do not meet nutritional standards. The school district will provide parents a list of recommended foods ideas for celebrations, parties, rewards, and fundraising activities.

Food Marketing In Schools. The school district will be consistent with nutrition education and health promotion. The school district will promote healthy foods, including fruits, vegetables, whole grains, and low-fat dairy products; and market activities that promote healthful behaviors.

IV. Physical Activity Goals

Physical activity will be integrated across curricula and throughout the school day. Movement can be made a part of science, math, social studies and language arts.

Physical education includes the instruction of individual activities as well as competitive and non-competitive team sports to encourage life-long physical activity. The school will provide a physical and social environment that encourages safe and enjoyable activity for all students, including those who are not athletically gifted.

Physical education courses will be taught by a state-certified physical education instructor in an environment where students learn, practice and are assessed on developmentally appropriate motor skills, social skills and knowledge. Classes shall have a student/teacher ratio similar to other classes. Time allotted for physical activity will be consistent with research, national and state standards.

The school will provide, when possible, a daily recess period for PK-8 students, which is not used as a punishment or a reward. School will consider planning recess before lunch since research indicates that physical activity prior to lunch can increase the nutrient intake and reduce food waste. Physical activity participation will take into consideration the “balancing equation” of food intake and physical activity.

V. Monitoring and Policy Review

Monitoring. Principals as the leaders of their school environment are expected to ensure compliance with all federal, state and local regulations pertaining to the sale of food and beverages. They will be responsible for monitoring the content of food and beverages in vending machines to ensure that only acceptable items are available for sale to students. If they determine that non-compliant items are in the vending machines, they will take corrective action.

Policy Review. The superintendent will ensure compliance with established district-wide nutrition and physical activity wellness policies.

In each school, the principal will ensure compliance with those policies and will report on the school’s compliance to the superintendent.

School food service staff will ensure compliance with nutrition policies within the school food service areas and will report on this matter to the superintendent. Food service will report on the most recent USDA School Meals Initiative (SMI) review findings and any resulting changes.

The superintendent will develop a summary report every three years on school district-wide compliance with the school district’s established wellness polices, based on input from the schools within the school district. The report will be provided to the school board, school wellness committees, parent/teacher organizations, principals and health services personnel in the school district.

Assessments will be every five years to help review policy compliance, assess progress, and determine areas in need of improvement. As part of that review, the school district will review the nutrition and physical activity policies; provision of an environment that supports healthy eating and physical activity; and nutrition and physical education policies and program elements. The district will, as necessary, revise the wellness policies and develop work plans to facilitate their implementation.

601.1 SCHOOL CALENDAR

The school calendar will accommodate the education program of the school district. The school calendar is for a minimum of 1080 hours and include, but not be limited to, the days for student instruction, staff development, in-service days and teacher conferences.

The academic school year for students is for a minimum of one-hundred and eighty days in the school calendar. The academic school year for students may not begin prior to September but may begin in the week in which September 1 falls unless a waiver is obtained from the Iowa Department of Education. Should September 1 fall on a Sunday, school may begin any day during the calendar week which immediately precedes September 1. Employees may be required to report to work at the school district prior to this date.

Special education students may attend school on a school calendar different from that of the regular education program consistent with their Individualized Education Program.

The board, in its discretion, may excuse graduating seniors from up to five days of instruction after the school district requirements for graduation have been met. The board may also excuse graduating seniors from making up days missed due to inclement weather if the student has met the school district's graduation requirements.

It is the responsibility of the superintendent to develop the school calendar for recommendation, approval, and adoption by the board annually.

The board may amend the official school calendar when the board considers the change to be in the best interests of the school district's education program.

601.2 SCHOOL DAY

The student school day for grades one through twelve will consist of a minimum of five and one-half hours, not including the lunch period. The school day consists of the schedule of class instruction and class activities as established and sponsored by the school district. For a 180 day calendar, time during which students are released from school for parent/teacher conferences or professional development may be counted as part of the student's instructional time. The minimum school day will meet the requirements as established for the operation of accredited schools.

The board may define the number of days kindergarten will be held and the length of each school day for the students attending kindergarten. The school day will consist of a schedule as recommended by the superintendent and approved by the board.

The board may operate an alternative high school with the number of days corresponding to the number of days of the K-12 program. Times of the alternative school will vary to gain maximum effect on the students enrolled.

For a 180 day calendar, the school district may also record a day of school with less than the minimum instructional hours if the total hours of instructional time for grades one through twelve in any five consecutive school days equals a minimum of thirty (30) hours, even though any one day of school is less than the minimum instructional hours because of a staff development opportunity provided for the instructional staff or parent-teacher conferences have been scheduled beyond the regular school day. If the total hours of instructional time for the first four consecutive days equal at least thirty (30) hours because parent-teacher conferences have been scheduled beyond the regular school day, the school district may record zero hours of instructional time on the fifth consecutive school day as a school day. Schedule revisions and changes in time allotments will be made by the superintendent.

When the school is forced to close due to weather or other emergencies, that part of the day during which school was in session will constitute a school day.

It is the responsibility of the superintendent to inform the board annually of the length of the school day.

602.1 CURRICULUM DEVELOPMENT

Curriculum development is an ongoing process in the school district and consists of both research and design. Research is the studious inquiry and critical investigation of the various content areas for the purpose of revising and improving curriculum and instruction based on relevant information pertaining to the discipline. This study is conducted both internally (what and how we are currently doing at the local level) and externally (what national standards, professional organizations, recognized experts, current research, etc. tell us relative to the content area).

Design is the deliberate process of planning and selecting the standards and instructional strategies that will improve the learning experiences for all students.

A systematic approach to curriculum development (careful research, design, and articulation of the curriculum) serves several purposes:

- Focuses attention on the content standards of each discipline and ensure the identified learnings are rigorous, challenging, and represent the most important learning for our students.
- Increases the probability that students will acquire the desired knowledge, skills and dispositions and that our schools will be successful in providing appropriate learning experiences.
- Facilitates communication and coordination.
- Improves classroom instruction.

The superintendent is responsible for curriculum development and for determining the most effective method of conducting research and design activities. A curriculum framework will describe the processes and procedures that will be followed in researching, designing, and articulating each curriculum area. This framework will at a minimum, describe the processes and procedures for the following curriculum development activities to:

- Study the latest thinking, trends research and expert advice regarding the content/discipline;
- Study the current status of the content/discipline (what and how well students are currently learning);
- Identify content standards, benchmarks, and grade level expectations for the content/discipline;
- Describe the desired learning behaviors, teaching and learning environment related to the content/discipline;
- Identify differences in the desired and present program and develop a plan for addressing the differences;
- Communicate with internal and external publics regarding the content area;
- Involve staff, parents, students, and community members in curriculum development decisions;
- Verify integration of local, state, and/or federal mandates (MCNS, school-to-work, etc);
- Verify how the standards and benchmarks of the content/discipline support each of the broader student learning goals and provide a K-12 continuum that builds on the prior learning of each level.

It is the responsibility of the superintendent to keep the board apprised of necessary curriculum revisions, progress or each content area related to curriculum development activities, and to develop administrative regulations for curriculum development including recommendations to the board.

602.2 CURRICULUM IMPLEMENTATION

Without careful and continuing attention to implementation, planned changes in curriculum and instruction rarely succeed as intended. How change is put into practice, to a large extent, determines how well it fares.

Implementation refers to what actually happens in practice as compared to what was supposed to happen. Curriculum implementation includes the provision of organized assistance to staff in order to ensure that the newly developed curriculum and the most powerful instructional strategies are actually delivered at the classroom level. There are two components of any implementation effort that must be present to guarantee the planned changes in curriculum and instruction succeed as intended:

- Understanding the conceptual framework of the content/discipline being implemented; and,
- Organized assistance to understand the theory, observe exemplary demonstrations, have opportunities to practice, and receive coaching and feedback focused on the most powerful instructional strategies to deliver the content at the classroom level.

The superintendent is responsible for curriculum implementation and for determining the most effective way of providing organized assistance and monitoring the level of implementation. A curriculum framework will describe the processes and procedures that will be followed to assist all staff in developing the knowledge and skills necessary to successfully implement the developed curriculum in each content area. This framework will, at a minimum, describe the processes and procedures for the following curriculum implementation activities to:

- Study and identify the best instructional practices and materials to deliver the content;
- Describe procedures for the purchase of instructional materials and resources (See Policy 605.1).
- Identify/develop exemplars that demonstrate the learning behaviors, teaching, and learning environment to deliver the content;
- Study the current status of instruction in the content area (how teachers are teaching);
- Compare the desired and present delivery system, identify differences (gap analysis), and develop a plan for addressing the differences;
- Organize staff into collaborative study teams to support their learning and implementation efforts (address the gaps);
- Provide ongoing professional development related to instructional strategies and materials that focuses on theory, demonstration, practice and feedback;
- Regularly monitor and assess the level of implementation;
- Communicate with internal and external publics regarding curriculum implementation;
- Involve staff, parents, students, and community members in curriculum implementation decisions.

It is the responsibility of the superintendent to keep the board apprised of curriculum implementation activities, progress of each content area related to curriculum implementation activities, and to develop administrative regulations for curriculum implementation including recommendations to the board.

602.3 CURRICULUM EVALUATION

Regular evaluation of the total curriculum is necessary to ensure that the written and delivered curriculum is having the desired effect for students.

Curriculum evaluation refers to an ongoing process of collecting, analyzing, synthesizing, and interpreting information to aid in understanding what students know and can do. It refers to the full range of information gathered in the school district to evaluate (make judgments about) student learning and program effectiveness in each content area.

Curriculum evaluation must be based on information gathered from a comprehensive assessment system that is designed for accountability and committed to the concept that all students will achieve at high levels, is standards-based, and informs decisions which impact significant and sustainable improvements in teaching and student learning.

The superintendent is responsible for curriculum evaluation and for determining the most effective way of ensuring that assessment activities are integrated into instructional practices as part of school improvement with a particular focus on improving teaching and learning. A curriculum framework will describe the procedures that will be followed to establish an evaluation process that can efficiently and effectively evaluate the total curriculum. This framework will, at a minimum, describe the procedures for the following curriculum evaluation activities:

- Identify specific purposes for assessing student learning;
- Develop a comprehensive assessment plan;
- Select/develop assessment tools and scoring procedures that are valid and reliable;
- Identify procedures for collecting assessment data;
- Identify procedures for analyzing and interpreting information and drawing conclusions based on the data (including analysis of the performance of various sub-groups of students);
- Identify procedures for establishing at least three levels of performance (specific to the content standard and the assessment tool when appropriate) to assist in determining whether students have achieved at a satisfactory level (at least two levels describe performance that is proficient or advanced and at least one level describes students who are not yet performing at the proficient level);
- Identify procedures for using assessment information to determine long-range and annual improvement goals;
- Identify procedures for using assessment information in making decisions focused on improving teaching and learning (data based decision making);
- Provide support to staff in using data to make instructional decisions;
- Define procedures for regular and clear communication about assessment results to the various internal and external publics (mandatory for communication about students receiving special education services);
- Define data reporting procedures;
- Verify that assessment tools are fair for all students and are consistent with all state and federal mandates;
- Verify that assessment tools measure the curriculum that is written and delivered;
- Identify procedures for deciding when multiple assessment measures are necessary for making good decisions and drawing appropriate conclusions about student learning;
- Identify roles and responsibilities of key groups;
- Involve staff, parents, students, and community members in curriculum evaluation;
- Ensure participation of eligible students receiving special education services in district- wide assessments.

It is the responsibility of the superintendent to keep the board apprised of curriculum evaluation activities, the progress of each content area related to curriculum evaluation activities, and to develop administrative regulations for curriculum evaluation including recommendations to the board.

602.4 PILOT - EXPERIMENTAL - INNOVATIVE PROJECTS

The board welcomes new ideas in curriculum. Proposals for pilot or experimental projects will first be reviewed and analyzed by the superintendent. Projects recommended by the superintendent will be considered by the board. Pilot and experimental projects approved by the board, the Iowa Department of Education, or the U. S. Department of Education may be utilized in the education program.

603.3 SPECIAL EDUCATION

The board recognizes some students have different educational needs than other students. The board will provide a free appropriate public education program and related services to students identified in need of special education. The special education services will be provided from birth until the appropriate education is completed, age twenty-one or to maximum age allowable in accordance with the law. Students requiring special education will attend general education classes, participate in nonacademic and extracurricular services and activities and receive services in a general education setting to the maximum extent appropriate to the needs of each individual student. The appropriate education for each student is written in the student's Individualized Education Program (IEP).

Special education students are required to meet the requirements stated in board policy or in their IEPs for graduation. It is the responsibility of the superintendent and the area education agency director of special education to provide or make provisions for appropriate special education and related services.

Children from birth through age 2 and children age 3 through age 5 are provided comprehensive special education services within the public education system. The school district will work in conjunction with the area education agency to provide services, at the earliest appropriate time, to children with disabilities from birth through age 2. This is done to ensure a smooth transition of children entitled to early childhood special education services.

The school district is required to keep the practice of religion out of the school curriculum. The board recognizes the key role religion has played in the history of the world and authorizes the study of religious history and traditions as part of the curriculum. Preferential or derogatory treatment of a single religion will not take place.

It is the responsibility of the superintendent to ensure the study of religion in the schools in keeping with the following guidelines:

- the proposed activity must have a secular purpose;
- the primary objective of the activity must not be one that advances or inhibits religion; and
- the activity must not foster excessive governmental entanglement with religion.

603.8R1 TEACHING ABOUT RELIGION REGULATION - RELIGIOUS HOLIDAYS

The historical and contemporary significance of religious holidays may be included in the education program provided that the instruction is presented in an unbiased and objective manner. The selection of holidays to be studied will take into account major celebrations of several world religions, not just those of a single religion. Holiday-related activities will be educationally sound and sensitive to religious differences and will be selected carefully to avoid the excessive or unproductive use of school time. Teachers will be especially careful in planning activities that are to take place immediately preceding or on a religious holiday.

Music, art, literature and drama having religious themes (including traditional carols, seasonal songs and classical music) will be permitted if presented in an objective manner without sectarian indoctrination. The emphasis on religious themes is only as extensive as necessary for a balanced and comprehensive study or presentation. Religious content included in student performances is selected on the basis of its independent educational merit and will seek to give exposure to a variety of religious customs, beliefs and forms of expression. Holiday programs, parties or performances will not become religious celebrations or be used as a forum for religious worship, such as the devotional reading of sacred writings or the recitations of prayers.

The use of religious symbols (e.g. a cross, menorah, crescent, Star of David, lotus blossom, nativity scene or other symbol that is part of a religious ceremony) are permitted as a teaching aid, but only when such symbols are used temporarily and objectively to give information about a heritage associated with a particular religion. The Christmas tree, Santa Claus, Easter eggs, Easter bunnies and Halloween decorations are secular, seasonal symbols and as such can be displayed in a seasonal context.

Expressions of belief or nonbelief initiated by individual students is permitted in composition, art forms, music, speech and debate. However, teachers may not require projects or activities which are indoctrina or force students to contradict their personal religious beliefs or nonbeliefs.

603.9 ACADEMIC FREEDOM

The board believes students should have an opportunity to reach their own decisions and beliefs about conflicting points of view. Academic freedom is the opportunity of licensed employees and students to study, investigate, present, interpret, and discuss facts and ideas relevant to the subject matter of the classroom and appropriate to and in good taste with the maturity and intellectual and emotional capacities of the students.

It is the responsibility of the teacher to refrain from advocating partisan causes, sectarian religious views, or biased positions in the classroom or through teaching methods. Teachers are not discouraged from expressing personal opinions as long as students are aware it is a personal opinion and students are allowed to reach their own conclusions independently.

It is the responsibility of the principal to ensure academic freedom is allowed but not abused in the classroom.

As part of the education program, students will have an opportunity to learn about their rights, privileges, and responsibilities as citizens of this country, state and school district community. 603.12 TEACHING CONTROVERSIAL ISSUES

A "controversial issue" is a topic of significant academic inquiry about which substantial groups of citizens of this community, this state or this nation hold sincere, conflicting points of view.

It is the belief of the board that controversial issues should be fairly presented in a spirit of honest academic freedom so that students may recognize the validity of other points of view but can also learn to formulate their own opinions based upon dispassionate, objective, unbiased study and discussion of the facts related to the controversy.

It is the responsibility of the instructor to present full and fair opportunity and means for students to study, consider and discuss all sides of controversial issues including, but not limited to, political philosophies.

It is the responsibility of the instructor to protect the right of the student to study pertinent controversial issues within the limits of good taste and to allow the student to express personal opinions without jeopardizing the student's relationship with the teacher.

It is the responsibility of the teacher to refrain from advocating partisan causes, sectarian religious views, or selfish propaganda of any kind through any classroom or school device; however, an instructor will not be prohibited from expressing a personal opinion as long as students are encouraged to reach their own decisions independently.

The board encourages full discussion of controversial issues in a spirit of academic freedom that shows students that they have the right to disagree with the opinions of others but that they also have the responsibility to base the disagreement on facts and to respect the right of others to hold conflicting opinions.

604.1 COMPETENT PRIVATE INSTRUCTION

In the event a child of compulsory attendance age, over age six and under age sixteen, does not attend public school or an accredited nonpublic school the child must receive competent private instruction.

A parent choosing competent private instruction for a student must notify the school district prior to the first day of school on forms provided by the school district. The forms are available in the central administration office. One copy of the completed forms will be kept by the school district and another copy will be forwarded to the area education agency.

The superintendent will determine whether the completed form is in compliance with the law. Specifically, the superintendent will determine whether the individual providing the instruction is either the student's parent, guardian, legal custodian or an Iowa licensed practitioner; whether the licensed practitioner's license is appropriate for the age and grade level of the student; that the student is being instructed a minimum of one hundred and forty-eight days per year; that immunization evidence is provided for students placed under competent private instruction for the first time and that the report is timely filed.

The school district will report noncompliance with the reporting, immunization, attendance, instructor qualifications, and assessment requirements of the compulsory attendance law to the county attorney of the county of residence of the student's parent, guardian or custodian.

Students receiving competent private instruction are eligible to request open enrollment to another school district. Prior to the request for open enrollment, the student will request dual enrollment in the resident district. The receiving district will not bill the resident district unless the receiving district complies with the reporting requirements. If the parent, guardian or custodian fails to comply with the compulsory attendance requirements, the receiving district will notify the resident district. The resident district will then report the noncompliance to the county attorney of the county of residence of the parent, guardian or custodian.

Students receiving competent private instruction from a parent, guardian or legal custodian must be evaluated annually by May 1 unless such person is properly licensed. The parent, guardian or legal custodian may choose either a standardized test approved by the Iowa Department of Education or a portfolio evaluation. If the parent, guardian or legal custodian chooses standardized testing and the student is dual enrolled, the school district will pay for the cost of the standardized test and the administration of the standardized test. If the student is not dual enrolled, the parent, guardian or legal custodian will reimburse the school district for the cost of the standardized test and the administration of the standardized test. If a parent, guardian or legal custodian of a student receiving competent private instruction chooses portfolio assessment as the means of annual assessment, the portfolio evaluator must be approved by the superintendent. Portfolio evaluators must hold a valid Iowa practitioner's license or teacher certificate appropriate to the ages and grade levels of the children whose portfolios are being assessed. No annual evaluation is required for students receiving competent private instruction from an appropriately licensed or certified Iowa practitioner.

Upon the request of a parent, guardian or legal custodian of a student receiving competent private instruction or upon referral of a licensed practitioner who provides instruction or instructional supervision of a student under competent private instruction, the school district will refer a student who may require special education to the area education agency, Division of Special Education, for evaluation.

Students in competent private instruction must make adequate progress. Adequate progress includes scoring at the thirtieth percentile on a standardized test or a report by the portfolio evaluator indicating adequate progress. Students who fail to make adequate progress under competent private instruction provided by the student's

parent, guardian or legal custodian will attend an accredited public or nonpublic school beginning the next school year. The parent, guardian or legal custodian of a student who fails to make adequate progress may apply to the director of the Department of Education for approval of continued competent private instruction under a remediation plan.

The remediation plan is for no more than one year. Before the beginning of the school year, the student may be re-tested and if the student achieves adequate progress the student may remain in competent private instruction.

An elementary classroom teacher license is appropriate for teaching or supervising home schooling in grades K-6; a middle school or secondary license is appropriate for grades 5-8, and a secondary classroom teacher license is appropriate for grades 7-12. If item 6 is blank, and the child is between the ages of 7 and 15, inclusive, during the current school year, the child is subject to the baseline testing/annual assessment requirement. (If parent/guardian/legal custodian is a licensed teacher or working with a licensed teacher who holds a license appropriate to the age and grade of the child or if the child is enrolled in a private school accredited by a regional or national accrediting organization, the child is not required to take an annual assessment. A courtesy test may be requested, see note in item number 7.)

Item 7: Children receiving competent private instruction are subject to the assessment requirement if they fit both of these criteria:

1. AGE -- the child is between the ages of 7 and 15, inclusive, of the current school year.
2. TEACHER -- the child's instruction is not provided or supervised by a person holding a valid Iowa teacher license appropriate to the age and grade of the child.

All children fitting both criteria must have a baseline test in their first year of home schooling. Each year after the baseline test, as long as they still fit both criteria, they need an annual assessment of educational progress, which may be conducted using standardized testing, portfolio assessment, or a report card from an accredited correspondence school. Children under or over the age limits by September 15 are not subject to the annual assessment. Likewise, if an appropriately licensed Iowa teacher provides or supervises a parent, guardian, or legal custodian in providing the child's instruction, the child is not subject to assessment, regardless of age.

Subjects that must be assessed:

- For children up through grade 5: Reading, Language Arts, and Mathematics:
- For children in grades 6-12: Reading, Language Arts, Mathematics, Science, and Social Studies.

Home-schooled children subject to the testing requirement must be tested annually in these subjects even if the school district does not test its own students. National percentile ranks and national grade equivalents must be included on the score report from the test scoring service.

A detailed list of tests is [in this handbook](#). Schools or AEAs providing the testing should attempt to accommodate these preferences. Schools may provide the testing themselves or may delegate it to the AEA. Schools should notify parents by October 1 of the dates, sites, and time of testing. If parents of a dual enrolled student subject to the assessment requirement request testing in their home, it must be provided at that site. If a portfolio is used as an annual assessment, the parent, guardian, or legal custodian identifies the licensed teacher to evaluate the portfolio. The deadline for completing assessments is May 1st of each year and the test administrator or portfolio evaluator must send a copy of the results to the parents and the school district by June 30. An evaluator holding an elementary teaching license is appropriate for evaluating a portfolio for students in grades K-6, a middle school license for grades 5-8, and a secondary classroom teacher license is appropriate for grades 7-12. [281 I.A.C.31.7\(4\)](#)

Special note about "courtesy testing." Occasionally, parents of children who are not subject to the baseline/annual assessment requirement may want their child tested anyway. As when an annual assessment is required, if the child is not dual enrolled, the parents pay the costs. If the child is dual enrolled, the school or AEA must provide the testing free, but need not provide a test, testing time, or testing site other than the one(s) established by the school for its regular enrollees.

Item 8: A child of compulsory attendance age, who is identified as requiring special education under [chapter 256B](#) and is receiving Competent Private Instruction, is eligible for placement under Competent Private Instruction with prior approval of the placement by the director of special education of the area education agency of the child's district of residence. It is the duty of the parent/guardian to send a copy of Form A to the school district and the Area Education Agency Director of Special Education for approval. IOWA CODE section [299A.9](#)

Note: In order for a child who receives CPI to receive special education services, the child must be dual enrolled. (See Item 9)

Item numbers 9 and 10 are optional.

Item 9: Dual enrolled students may participate in coursework or activities on the same basis as regularly enrolled students. This item is required if parents wish to have their children participate in an academic course, extracurricular activity, or to have the standardized test paid for by the district. Dual enrollment is also required if the child is to receive special education programs or services. If parents/guardians/legal custodians want their child dual enrolled in a course or activity the course or activities need to be listed. Districts need to develop procedures to ensure that dual enrolled students and their parents are given adequate notice of the time and place of the activities they have chosen.

The deadline for dual enrollment is September 15 if the parents begin CPI at the start of the school year, 14 calendar days after moving, or 14 calendar days after withdrawing from school. The district may deny dual enrollment if the request is after the deadline.

Item 10: School districts are not required to offer a home school assistance program. If your local school district has a program, students will be supervised by a licensed teacher that is hired by the school district. To participate in courses or activities that are offered by the school, the child must be dual enrolled. (This item is designed to help districts determine if they need to start a program.)

SCHOOLS-Please give parents the FERPA notification letter when a Form A is requested. Districts shall determine what directory information is and who the local contact is. When the parent gives “opt out” instructions to the school, the AEA’s have requested that the LEA send a copy to them.

PARENTS/GUARDIANS-Please review the FERPA form and return to the school.

604.2 INDIVIDUALIZED INSTRUCTION

The board's primary responsibility in the management of the school district is the operation and delivery of the regular education program. Generally, students attending the school district will receive the regular education program offered by the district. Only in exceptional circumstances will the board approve students receiving individualized instruction at the expense of the school district.

Recommendations from the superintendent for individualized instruction will state the need for the instruction, the objectives and goals sought for the instruction, the employee requirements for the instruction, the implementation procedures for the instruction and the evaluation procedures and processes that will be used to assess the value of the instruction.

It is the responsibility of the superintendent to develop administrative regulations for individualized instruction.

604.5 RELIGIOUS-BASED EXCLUSION FROM A SCHOOL PROGRAM

Parents who wish to have their child excluded from a school program because of religious beliefs must inform the superintendent. The board authorizes the administration to allow the exclusion if it is not disruptive to the education program and it does not infringe on a compelling state or educational interest. Further, the exclusion must not interfere with other school district operations. Students who are allowed to be excluded from a program or activity which violates their religious beliefs are required to do an alternate supervised activity or study.

In notifying the superintendent, the parents will abide by the following:

- The notice is in writing;
- The objection is based on religious beliefs;
- The objection will state which activities or studies violate their religious beliefs;
- The objection will state why these activities or studies violate their religious beliefs; and
- The objection will state a proposed alternate activity or study.

The superintendent will have discretion to make this determination. The factors the superintendent will consider when a student requests to be excluded from a program or activity because of religious beliefs include, but are not limited to, staff available to supervise a student who wishes to be excluded, space to house the student while the student is excluded, available superintendent-approved alternative course of study or activity while the student is excluded, number of students who wish to be excluded, whether allowing the exclusion places the school in a position of supporting a particular religion, and whether the program or activity is required for promotion to the next grade level or for graduation.

604.6 INSTRUCTION AT A POST-SECONDARY EDUCATIONAL INSTITUTION

Students in grades nine through twelve may receive academic or vocational-technical credits that count toward the graduation requirements set out by the board for courses successfully completed in post-secondary educational institutions. The student may receive academic or vocational- technical credits through an agreement between a post-secondary educational institution or with the board's approval on a case-by-case basis.

Students in grades nine through twelve who successfully complete courses in post-secondary educational institutions under an agreement between the school district and the post-secondary educational institution will receive academic and vocational-technical credits in accordance with the agreement.

Students who have completed the eleventh grade but who have not completed the graduation requirements set out by the board may take up to seven semester hours of credit at a post- secondary educational institution during the summer months when school is not in session if the student pays for the courses. Upon successful completion of these summer courses, the students will receive academic or vocational-technical credit toward the graduation requirements set out by the board. Successful completion of the course is determined by the post-secondary educational institution. The board will have complete discretion to determine the academic credit to be awarded to the student for the summer courses.

The following factors are considered in the board's determination of whether a student will receive academic or vocational-technical credit toward the graduation requirements set out by the board for a course at a post-secondary educational institution:

- the course is taken from a public or accredited private post-secondary educational institution;
- a comparable course is not offered in the school district. A comparable course is one in which the subject matter or the purposes and objectives of the course are similar, in the judgment of the board, to a course offered in the school district;
- the course is in the discipline areas of mathematics, science, social sciences, humanities, vocational-technical education, or a course offered in the community college career options program;
- the course is a credit-bearing course that leads to a degree;
- the course is not religious or sectarian; and
- the course meets any other requirements set out by the board.

Students in grades eleven and twelve who take courses, other than courses taken under an agreement between the school district and the post-secondary educational institution, are responsible for transportation without reimbursement to and from the location where the course is being offered.

Ninth and tenth grade talented and gifted students and all students in grades eleven and twelve will be reimbursed for tuition and other costs directly related to the course up to \$250. Students who take courses during the summer months when school is not in session are responsible for the costs of attendance for the courses.

Students who fail the course and fail to receive credit will reimburse the school district for all costs directly related to the course. Prior to registering for the course, students under age eighteen will have a parent sign a form indicating that the parent is responsible for the costs of the course should the student fail the course and fail to receive credit for the course. Students who fail the course and fail to receive credit for the course for reasons beyond their control, including, but not limited to, the student's incapacity, death in the family or a move to another district, may not be responsible for the costs of the course. The school board may waive reimbursement of costs to the school district for the previously listed reasons. Students dissatisfied with a school board's decision

may appeal to the AEA for a waiver of reimbursement.

The superintendent is responsible for annually notifying students and parents of the opportunity to take courses at post-secondary educational institutions in accordance with this policy. The superintendent will also be responsible for developing the appropriate forms and procedures for implementing this policy.

604.7 DUAL ENROLLMENT

The parent, guardian, or custodian of a student receiving competent private instruction may also enroll the student in the school district. The student is considered under dual enrollment. The parent, guardian, or custodian requesting dual enrollment for the student should notify the board secretary prior to the third Friday of September each year on forms provided by the school district. On the form, they will indicate the extracurricular and academic activities in which the student is interested in participating. The forms are available at the central administration office.

A dual enrollment student is eligible to participate in the school district's extracurricular and academic activities in the same manner as other students enrolled in the school district. The policies and administrative rules of the school district will apply to the dual enrollment students in the same manner as the other students enrolled the school district. These policies and administrative rules will include, but not be limited to, athletic eligibility requirements, the good conduct rule, academic eligibility requirements, and payment of the fees required for participation.

A dual enrollment student whose parent, guardian, or custodian has chosen standardized testing as the form of the student's annual assessment will not be responsible for the cost of the test or the administration of the test.

After the student notifies the school district which activities in which they wish to participate, the school district will provide information regarding the specific programs.

It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

604.9 HOME SCHOOL ASSISTANCE PROGRAM

The board, recognizing alternatives to education outside the formal public school system, authorizes the establishment of a home school assistance program. The parent, guardian or legal custodian registering for the home school assistance program will agree to comply with the requirements established by the faculty of the program.

Students registered for the home school assistance program will be counted in the basic enrollment.

604.10 VIRTUAL/ON-LINE COURSES

The board recognizes that on-line coursework may be a good alternative for students to not only meet graduation requirements but, also have the opportunity to take advanced or other courses not offered by the school district.

High school students may earn a maximum of seven (7) credits per semester to be applied toward graduation requirements by completing on-line courses offered through agencies approved by the board, such as the Iowa On-Line Learning. Credit from an on-line or virtual course may be earned only in the following circumstances:

- The course is not offered at the high school;
- Although the course is offered at the high school, the student will not be able to take it due to an unavoidable scheduling conflict that would keep the student from meeting graduation requirements;
- The course will serve as a supplement to extend homebound instruction;
- The student has been expelled from the regular school setting, but educational services are to be continued; or
- The principal, with agreement from the student's teachers and parents, determines the student requires a differentiated or accelerated learning environment.

Students applying for permission to take a virtual course shall complete prerequisites and provide teacher/counselor recommendations to confirm the student possesses the maturity level needed to function effectively in an on-line learning environment. In addition, the express approval of the principal shall be obtained before a student enrolls in an on-line course. The school must receive an official record of the final grade before credit toward graduation will be recognized.

Provided courses are part of the student's regular school day coursework and within budgetary parameters, the costs for a virtual course, such as textbooks or school supplies, shall be borne by the parents for students enrolled full-time.

It is the responsibility of the superintendent to develop administrative regulations to implement this policy.

605.1 INSTRUCTIONAL MATERIALS SELECTION

The board recognizes that the selection of instructional materials is a vital component of the school district's curriculum.

The board has sole discretion to approve instructional materials for the school district. The board delegates its authority to determine which instructional materials will be utilized and purchased by the school district to licensed employees. The licensed employees will work closely together to ensure vertical and horizontal articulation of textbooks in the education program.

The board may appoint an ad hoc committee for the selection of instructional materials. The committee may be composed of school district employees, parents, students, community members or representatives of community groups.

In reviewing current instructional materials for continued use and in selecting additional instructional materials, the licensed employees will consider the current and future needs of the school district as well as the changes and the trends in education and society. It is the responsibility of the superintendent to report to the board the action taken by the selection committee.

In making its recommendations to the superintendent, the licensed employees will select materials which:

- support the educational philosophy, goals and objectives of the school district;
- consider the needs, age, and maturity of students;
- are within the school district's budget;
- foster respect and appreciation for cultural diversity and difference of opinion;
- stimulate growth in factual knowledge and literary appreciation;
- encourage students to become decision-makers, to exercise freedom of thought and to make independent judgment through the examination and evaluation of relevant information, evidence and differing viewpoints;
- portray the variety of careers, roles, and lifestyles open to persons of both sexes; and,
- increase an awareness of the rights, duties, and responsibilities of each member of a multicultural society.

In the case of textbooks, the board will make the final decision after a recommendation from the superintendent. The criteria stated above for selection of instructional materials will also apply to the selection of textbooks. The superintendent may appoint licensed employees to assist in the selection of textbooks.

Gifts of instructional materials must meet these criteria stated above for the selection of instructional materials. The gift must be received in compliance with board policy 704.4, "Gifts - Grants - Bequests."

605.1R1 SELECTION OF INSTRUCTIONAL MATERIALS

I. Responsibility for Selection of Instructional Materials

- A. The Board is responsible for matters relating to the operation of the Shenandoah Community School District.
- B. The responsibility for the selection of instructional materials is delegated to the professionally trained and licensed employees of the school system. For the purpose of this rule the term "instructional materials" includes printed and audiovisual materials (not equipment), whether considered text materials or media center materials. The board retains the final authority for the approval of textbooks.
- C. While selection of materials may involve many people including principals, teachers, students, parents, community members and media specialists, the responsibility for coordinating the selection of most instructional materials and making the recommendation for the purchase rests with licensed employees. For the purpose of this rule the term "media specialist" includes librarians, school media specialists or other appropriately licensed persons responsible for the selection of media equipment and materials.
- D. Responsibility for coordinating the selection of text materials for distribution to classes will rest with the licensed employees, principal and superintendent. For the purpose of this rule the term 'text materials' includes textbooks and other printed and nonprinted material provided in multiple copies for use of a total class or major segment of a class.
- E. If the board appoints an ad hoc committee to make recommendations on the selection of instructional materials, the ad hoc committee is formed and appointed in compliance with the board policy on Ad Hoc Committees.
 1. The superintendent will inform the committee as to their role and responsibility in the process.
 2. The following statement is given to the ad hoc committee members:
 - *Bear in mind the principles of the freedom to learn and to read and base your decision on these broad principles rather than on defense of individual materials. Freedom of inquiry is vital to education in a democracy.*
 - *Study thoroughly all materials referred to you and read available reviews. The general acceptance of the materials should be checked by consulting standard evaluation aids and local holdings in other schools.*
 - *Passages or parts should not be pulled out of context. The values and faults should be weighed against each other and the opinions based on the material as a whole.*
 - *Your report, presenting both majority and minority opinions, will be presented by the principal to the complainant at the conclusion of our discussion of the questioned material.*

II. Material selected for use in libraries and classrooms will meet the following guidelines:

- A. Religion - Material will represent the major religions in a factual, unbiased manner. The primary source

material of the major religions is considered appropriate, but material which advocates rather than informs, or is designed to sway reader judgment regarding religion, will not be included in the school libraries or classrooms.

- B.Racism - Material will present a diversity of race, custom, culture, and belief as a positive aspect of the nation's heritage and give candid treatment to unresolved intercultural problems, including those which involve prejudice, discrimination, and the undesirable consequences of withholding rights, freedom, or respect of an individual.
- C.Sexism - Material will reflect a sensitivity to the needs, rights, traits and aspirations of men and women without preference or bias.
- D.Age - Material will recognize the diverse contributions of various age groups and portray the continuing contributions of maturing members of society.
- E.Ideology - Material will present basic primary and factual information on an ideology or philosophy of government which exerts or has exerted a strong force, either favorably or unfavorably, over civilization or society, past or present. This material will not be selected with the intention to sway reader judgment and is related to the maturity level of the intended audience.
- F.Profanity and Sex - Material is subjected to a test of literary merit and reality by the media specialists and licensed staff who will take into consideration their reading of public and community standards of morality.
- G.Controversial issues materials will be directed toward maintaining a balanced collection representing various views.

The selection decision should be made on the basis of whether the material presents an accurate representation of society and culture, whether the circumstances depicted are realistically portrayed, or whether the material has literary or social value when the material is viewed as a whole.

These guidelines will not be construed in such a manner as to preclude materials which accurately represent the customs, morals, manners, culture, or society of a different time or a different place.

III.Procedure for Selection

The process of weeding instructional materials will be done according to established and accepted standards for determining the relevance and value of materials in a given context.

605.2 INSTRUCTIONAL MATERIALS INSPECTION

Parents and other members of the school district community may view the instructional materials used by the students. All instructional materials, including teacher's manuals, films, tapes or other supplementary material which will be used in connection with any survey, analysis, or evaluation as part of any federally funded programs must be available for inspection by parents.

605.3E1 INSTRUCTIONS TO THE RECONSIDERATION COMMITTEE

The policy of this school district related to selection of learning materials states that any member of the school district community may formally challenge instructional materials used in the district's education program. This policy allows those persons in the school and the community who are not directly involved in the selection of materials to make their own opinions known. The task of the reconsideration committee is to provide an open forum for discussion of challenged materials and to make an informed recommendation on the challenge. The meetings of the committee may be subject to the open meetings law.

The most critical component of the reconsideration process is the establishment and maintenance of the committee's credibility in the community. For this purpose, the committee is composed of community members. The community should not, therefore, infer that the Committee is biased or is obligated to uphold prior professional decisions. For this same reason, a community member will be selected to chair the committee.

The reconsideration process, the task of this committee, is just one part of the selection continuum. Material is purchased to meet a need. It is reviewed and examined, if possible, prior to purchase. It is periodically re-evaluated through updating, discarding, or re-examination. The committee must be ready to acknowledge that an error in selection may have been made despite this process. Librarians and school employees regularly read great numbers of reviews in the selection process, and occasional errors are possible.

In reconsidering challenged materials, the role of the committee, and particularly the chairperson, is to produce a climate for disagreement. However, the committee should begin by finding items of agreement, keeping in mind that the larger the group participating, the greater the amount of information available and, therefore, the greater the number of possible approaches to the problem.

If the complainant chooses, the complainant may make an oral presentation to the committee to expand and elaborate on the complaint. The committee will listen to the Complainant, to those with special knowledge, and any other interested persons. In these discussions, the committee should be aware of relevant social pressures which are affecting the situation. Individuals who may try to dominate or impose a decision must not be allowed to do so. Minority viewpoints expressed by groups or individuals must be heard, and observers must be made to feel welcome. It is important that the committee create a calm, nonvolatile environment in which to deal with a potentially volatile situation. To this end, the complainant will be kept informed of the progress of the complaint.

The committee will listen to the views of all interested persons before making recommendations. In deliberating its recommendation, the committee should remember that the school system must be responsive to the needs, tastes, and opinions of the community it serves. Therefore, the committee must distinguish between broad community sentiment and attempts to impose personal standards. The deliberations should concentrate on the appropriateness of the material. The question to be answered by the committee is, "Is the material appropriate for its designated audience at this time?"

The committee's final recommendation will be (1) to remove the challenged material from the total school environment, (2) to take no removal action, or (3) to agree on a limitation of the educational use of the materials.

The committee chairperson will instruct the secretary to convey the committee's recommendation to the office of the superintendent. The recommendation should detail the rationale on which it was based. A letter will be sent to the complainant outlining the outcome.

605.3E3 SAMPLE LETTER TO INDIVIDUAL CHALLENGING INSTRUCTIONAL MATERIALS

Dear:

We recognize your concern about the use of _____ in our school district. The school district has developed procedures for selection of instructional materials but realizes that not everyone will agree with every selection made.

To help you understand the selection process, we are sending copies of the school district's:

1. Instructional goals and objectives,
2. Instructional Materials Selection policy statement, and
3. Procedure for reconsideration of instructional materials.

If you are still concerned after you review this material, please complete the Reconsideration Request Form and return it to me. You may be assured of prompt attention to your request. If I have not heard from you within one week, we will assume you no longer wish to file a formal complaint.

Sincerely,

605.3R1 RECONSIDERATION OF INSTRUCTIONAL MATERIALS REGULATION

- A. A member of the school district community may raise an objection to instructional materials used in the school district's education program despite the fact that the individuals selecting such material were duly qualified to make the selection and followed the proper procedure and observed the criteria for selecting such material.
1. The school official or employee receiving a complaint regarding instructional materials will try to resolve the issue informally. The materials will remain in use pending the outcome of the reconsideration procedure.
 - a. The school official or employee initially receiving a complaint will explain to the individual the board's selection procedure, criteria to be met by the instructional materials, and qualifications of those persons selecting the material.
 - b. The school official or employee initially receiving a complaint will explain to the individual the role of the objected material in the education program, its intended educational purpose, and additional information regarding its use. In the alternative, the employee may refer the individual to the media specialist who can identify and explain the use of the material.
 2. The employee receiving the initial complaint will advise the building principal of the initial contact no later than the end of the school day following the discussion with the individual, whether or not the individual has been satisfied by the initial contact. A written record of the contact is maintained by the principal in charge of the attendance center. Each building principal shall inform employees of their obligation to report complaints.
 3. In the event the individual making an objection to instructional materials is not satisfied with the initial explanation, the individual is referred to the principal or to the media specialist of the attendance center. If, after consultation with the principal or media specialist, the individual desires to file a formal complaint, the principal or media specialist will assist in filling out a Reconsideration Request Form in full and filing it with the superintendent.
- B. Request for Reconsideration
1. A member of the school district community may formally challenge instructional materials on the basis of appropriateness used in the school district's education program. This procedure is for the purpose of considering the opinions of those persons in the school district and the community who are not directly involved in the selection process.
 2. Each attendance center and the school district's central administrative office will keep on hand and make available Reconsideration Request Forms. Formal objections to instructional materials must be made on this form.
 3. The individual will state the specific reason the instructional material is being challenged. The Reconsideration Request Form is signed by the individual and filed with the superintendent.
 4. The superintendent will promptly file the objection with the reconsideration committee for re-evaluation.

- 5 Generally, access to challenged instructional material will not be restricted during the reconsideration process. However, in unusual circumstances, the instructional material may be removed temporarily by following the provisions of Section B.6.d. of this rule.
- 6 The Reconsideration Committee
 - a. The reconsideration committee is made up of eight members.
 - (1) One licensed employee designated annually by the superintendent.
 - (2) One media specialist designated annually by the superintendent.
 - (3) One member of the administrative team designated annually by the superintendent.
 - (4) Three members of the community appointed annually by the board.
 - (5) Two high school students, selected annually by the high school principal.
 - b. The committee will annually select their chairperson and secretary.
 - c. The committee will meet at the request of the superintendent.
 - d. Special meetings may be called by the board to consider temporary removal of materials in unusual circumstances. A recommendation for temporary removal will require a two-thirds vote of the committee.
 - e. Notice of committee meetings is made public through appropriate publications and other communications methods.
 - f. The committee will receive the completed Reconsideration Request Form from the superintendent.
 - g. The committee will determine its agenda for the first meeting which may include the following:
 - (1) Distribution of copies of the completed Reconsideration Request Form.
 - (2) An opportunity for the individual or a group spokesperson to talk about or expand on the Reconsideration Request Form.
 - (3) Distribution of reputable, professionally prepared reviews of the challenged instructional material if available.
 - (4) Distribution of copies of the challenged instructional material as available.
 - h. The committee may review the selection process for the challenged instructional material and may, to its satisfaction, determine that the challenge is without merit and dismiss the challenge. The committee will notify the individual and the superintendent of its action.
 - i. At a subsequent meeting, if held, interested persons, including the individual filing the challenge, may have the opportunity to share their views. The committee may request that individuals with special knowledge be present to give information to the committee.
 - j. The individual filing the challenge is kept informed by the reconsideration committee secretary on the status of the Reconsideration Request Form throughout the reconsideration process. The individual filing the challenge and known interested parties is given appropriate notice of meetings.
 - k. At the second or a subsequent meeting the committee will make its final recommendation.

- l. The committee's final recommendation may be to take no removal action, to remove the challenged material from the school environment, or to limit the educational use of the challenged material. The sole criterion for the final recommendation is the appropriateness of the material for its intended educational use. The written final recommendation and its justification are forwarded to the board, the individual and the appropriate attendance centers. The superintendent may also make a recommendation but if so, it should be independent from the committee's.

Following the board's decision with respect to the committee's recommendation, the individual or the chairperson of the reconsideration committee may appeal the decision to the board for review. Such appeal must be presented to the superintendent in writing within five days following the announcement of the superintendent's decision. The board will promptly determine whether to hear the appeal.

- m. A recommendation to sustain a challenge will not be interpreted as a judgment of irresponsibility on the part of the individuals involved in the original selection or use of the material.
- n. Requests to reconsider materials which have previously been reconsidered by the committee must receive approval of two-thirds of the committee members before the materials will again be reconsidered. Completed and filed Reconsideration Request Forms are acted upon by the committee.
- n. If necessary or appropriate in the judgment of the committee, the committee may appoint a subcommittee of members or nonmembers to consolidate challenges and to make recommendations to the full committee. The composition of this subcommittee will approximate the representation of the full committee.
- o. Committee members directly associated with the selection, use, or challenger of the challenged material are excused from the committee during the deliberation of the challenged instructional materials. The superintendent may appoint a temporary replacement for the excused committee member, but the replacement is of the same general qualifications as the member excused.
- p. Persons dissatisfied with the decision of the board may appeal to the Iowa Board of Education pursuant to state law.

605.6 INTERNET - APPROPRIATE USE

Because technology is a vital part of the school district curriculum and the Internet will be made available to employees and students. Appropriate and equitable use of the Internet will allow employees and students to access resources unavailable through traditional means.

Students will be able to access the Internet through their teachers. Individual student accounts and electronic mail addresses will not be issued to students. If a student already has an electronic mail address, the student will not be permitted to use the address to send and receive mail at school.

The Internet can provide a vast collection of educational resources for students and employees. It is a global network which makes it impossible to control all available information. Because information appears, disappears and changes constantly, it is not possible to predict or control what students may locate. The school district makes no guarantees as to the accuracy of information received on the Internet. Although students will be under teacher supervision while on the network, it is not possible to constantly monitor individual students and what they are accessing on the network. Some students might encounter information that may not be of educational value. Student Internet records and access records are confidential records treated like other student records. Students Internet activities will be monitored by the school district to ensure students are not accessing inappropriate sites that have visual depictions that include obscenity, child pornography or are harmful to minors. The school district will use technology protection measure to protect students from inappropriate access, including sites that include obscenity, child's pornography or are harmful to minors.

The school district will monitor the online activities of students and will educate students about appropriate online behavior, including interacting on social networking sites and chat rooms. Students will also be educated on cyber bullying, including awareness and response. Employees will provide age appropriate training for students who use the Internet. The training provided will be designed to promote the school district's commitment to:

- The standards and acceptable use of the Internet services as set forth in the Internet Safety Policy:
- Student safety with regard to:
 - safety on the Internet
 - appropriate behavior while online, on social networking Web sites, and in chat rooms; and
 - cyber bullying awareness and response.
- Compliance with the E-Rate requirements of the Children's Internet Protection Act

Employees and students will be instructed on the appropriate use of the Internet. Parents will be required to sign a permission form to allow their students to access the Internet. Students will sign a form acknowledging they have read and understand the Internet Acceptable Use policy and regulations, that they will comply with the policy and regulations and understand the consequences for violation of the policy or regulations.

In compliance with federal law, this policy will be maintained at least five years beyond the termination of funding of the Children's Internet Protection Act (CIPA) or E-Rate.

606.7 INSUFFICIENT CLASSROOM SPACE

Insufficient classroom space is determined on a case-by-case basis. In making its determination whether insufficient classroom space exists, the board may consider several factors, including but not limited to, the nature of the education program, the grade level, the available licensed employees, the instructional method, the physical space, student-teacher ratios, equipment and materials, facilities either being planned or under construction, facilities planned to be closed, financial condition of the school district and projected to be available, a sharing agreement in force or planned, a bargaining agreement in force, laws or rules governing special education class size, board-adopted school district goals and objectives, and other factors considered relevant by the board.

This policy is reviewed by the board annually. It is the responsibility of the superintendent to bring this policy to the attention of the board each year.

701.6 GOVERNMENTAL ACCOUNTING PRACTICES AND REGULATIONS

School district accounting practices will follow state and federal laws and regulations, generally accepted accounting principles (GAAP) and the uniform financial accounting system provided by the Iowa Department of Education. As advised by the school district's auditor, determination of liabilities and assets, prioritization of expenditures of governmental funds and provisions for accounting disclosures shall be made in accordance with governmental accounting standards.

In Governmental Accounting Standards Board (GASB) Statement No. 54, the board identifies the order of spending unrestricted resources applying the highest level of classification of fund balance - restricted, committed, assigned, and unassigned - while honoring constraints on the specific purposes for which amounts in those fund balances can be spent. A formal board action is required to establish, modify and or rescind a committed fund balance. The resolution will state the exact dollar amount. In the event, the board chooses to make changes or rescind the committed fund balance, formal board action is required.

The Board authorizes the superintendent and/or board secretary to assign amounts to a specific purpose in compliance with GASB 54. An 'assigned fund balance' should also be reported in the order of spending unrestricted resources, but is not restricted or committed.

It is the responsibility of the superintendent to develop administrative regulations implementing this policy. It is also the responsibility of the superintendent to make recommendations to the board regarding fund balance designations.

Prior to certification of the budget, the board will review the projected revenues and expenditures for the school district and make adjustments where necessary to carry out the education program within the revenues projected.

A budget for the school district is prepared annually for the board's review. The budget will include the following:

- the amount of revenues from sources other than taxation;

- a comparison of the amount spent and revenue received in each fund for like purposes in the two prior fiscal years.

It is the responsibility of the superintendent to prepare the budget for review by the board prior to the April 15 deadline each year.

Prior to the adoption of the proposed budget by the board, the public is apprised of the proposed budget for the school district. Prior to the adoption of the proposed budget by the board, members of the school district community will have an opportunity to review and comment on the proposed budget. A public hearing for the proposed budget of the board is held each year in sufficient time to file the adopted budget no later than April 15.

703.3 FUND BALANCE REPORTING AND GOVERNMENTAL FUND TYPE DEFINITIONS

Inasmuch as GASB 54, Fund Balance Reporting and Governmental Fund Type Definitions, which establishes accounting and financial reporting standards for all governments that report governmental funds required the District to disclose certain requirements, the District identifies the following as District operating policy.

The fund balance identified as 'committed fund balance' will be determined by the Board of Directors and will require formal board action. An identified committed fund balance should be for a specific purpose pursuant to constraints imposed by the formal action of the Board of Directors. The Board of Directors will take action to 'commit' a fund balance prior to year-end (June 30) of the year the original committed amount is determined. The exact amount of the committed balance may be determined after the year-end; however, in compliance with GASB 54 the intended committed purpose must be identified, prior to the year-end (June 30).

In the event that a committed fund balance is identified subsequent to year-end (june30), the amount will be reflected on the alance sheet as assigned for that year.

The committed amounts cannot be used for any other purpose unless the Board of Education at a public meeting by formal action makes changes or rescind the committed balance.

The Board of Directors authorizes the Business Manager to assign amounts to a specific purpose in compliance with GASB 54. As assigned Fund Balance should be reported for constraints by the District's intent to be used for specific purpose, but are not restricted or committed.

In accordance with the GASB 54 the District identifies that when an expenditure is incurred, it is applied to the highest level of classification of fund balance and then subsequently applied to honor constraints on the specific purposes for which amounts in thos fund balances can be spent.

704.2 DEBT MANAGEMENT POLICY

DEBT LIMITS

Credit Ratings

The school district seeks to maintain the highest possible credit ratings for all categories of short- and long-term debt that can be achieved without compromising the delivery of services and the achievement of adopted objectives. The school district recognizes that external economic, natural, or other events may from time to time affect the creditworthiness of its debt. Nevertheless, the school district is committed to ensuring that actions within their control are prudent.

Debt Limits

For general obligation debt, the school district's outstanding debt limit shall be no more than five percent (5%) of the actual value of property within the school district's boundaries, as prescribed the Iowa constitution and statutory restrictions.

For revenue debt, the school district's goal is to provide adequate debt service coverage of at least 1.20 times the annual debt service costs.

In accordance with Iowa law, the school district may not act as a conduit issuer or issue municipal securities to raise capital for revenue-generating projects where the funds generated are used by a third party ("conduit borrower") to make payments to investors.

PURPOSES AND USES OF DEBT

Capital Planning

To enhance creditworthiness and prudent financial management, the school district is committed to systematic capital planning, intergovernmental cooperation and coordination and long-term financial planning.

Capital Financing

The school district may issue long-term debt for capital projects as authorized by Iowa law, which include, but are not limited to, the costs of planning, design, land acquisition, buildings, permanent structures, attached fixtures or equipment, and movable pieces of equipment.

Capitalized interest may be included in sizing any capital project debt issue. The types of debt instruments to be used by the school district include:

- General Obligation Bonds
- General Obligation Capital Loan Notes
- Bond Anticipation Notes
- Revenue Anticipation Notes
- School Infrastructure Sales, Services and Use Tax Revenue Bonds
- Lease Purchase Agreements, including Certificates of Participation

Working Capital Financing

The school district may issue debt for working capital for operations after cash flow analysis has determined that there is a mismatch between available cash and cash outflows. The school district shall strive to repay working capital debt by the end of the fiscal year in which the debt was incurred. A Working Capital Reserve may be included in sizing any working capital debt issue.

Refundings

Periodic reviews of all outstanding debt will be undertaken to determine if refunding opportunities exist. Refunding will be considered (within federal tax law restraints) if and when there is a net economic benefit of the refunding or if the refunding is otherwise in the best interests of the school district, such as to release restrictive bond covenants which affect the operations and management of the school district.

In general, advance refundings for economic savings will be undertaken when a net present value savings exceeds three percent of the refunded debt can be achieved. Current refundings, which produce a new present value savings of less than three percent will be considered on a case by case basis taking into consideration bond covenants and general conditions. Refundings with negative savings will not be considered unless there is a compelling public policy objective for doing so.

DEBT STANDARDS AND STRUCTURE

Length of Debt

Debt will be structured for the shortest period consistent with a fair allocation of costs to current and future beneficiaries or users. Long-term debt will not be issued for periods exceeding the useful life or average useful lives of the project or projects to be financed. All debt issued will adhere to state and federal law regarding the length of time the debt may be outstanding.

Debt Structure

Debt will be structured to achieve the lowest possible net cost to the school district given market conditions, the urgency of the capital project, the type of debt being issued, and the nature and type of repayment source. To the extent possible, the school district will design the repayment of its overall debt to rapidly recapture its credit capacity for future use.

Generally, the school district will only issue fixed-rate debt. In very limited circumstances, the school district may issue variable rate debt, consistent with the limitations of Iowa law and upon a finding of the board that the use of fixed rate debt is not in the best interest of the school district and a statement of the reasons for the use of variable rate debt.

All debt may be structured using discount, par or premium coupons, and as serial or term bonds or notes, or any combination thereof, consistent with Iowa law. The school district should utilize the coupon structure that produces the lowest True Interest Cost (TIC) taking into consideration the call option value of any callable maturities.

The school district will strive to structure their debt in sinking fund installments for each debt issue that achieves, as nearly as practicable, level debt service within an issue or overall debt service within a particular classification of debt.

Derivatives (including, but not limited to, interest rate swaps, caps, collars, corridors, ceiling and floor agreements, forward agreements, float agreements, or other similar financing arrangements), zero-coupon or capital appreciation bonds are not allowed to be issued consistent with State law.

Decision Analysis to Issue Debt

Whenever the school district is contemplating the issuance of debt, information will be developed concerning the following four categories commonly used by rating agencies assessing the school district's credit worthiness, listed below.

Debt Analysis – Debt capacity analysis; purpose for which debt is proposed to be issued; debt structure; debt

burden; debt history and trends; and adequacy of debt and capital planning.

Financial Analysis – Stability, diversity, and growth rates of tax or other revenue sources; trend in assessed valuation and collections; current budget trends; appraisal of past revenue and expenditure trends; history and long-term trends of revenues and expenditures; evidences of financial planning; adherence to GAAP; audit results; fund balance status and trends in operating and debt funds; financial monitoring systems and capabilities; and cash flow projections.

Governmental and Administrative Analysis – Government organization structure; location of financial responsibilities and degree of control; adequacy of basic service provision; intergovernmental cooperation/conflict and extent of duplication; and overall planning efforts.

704.3 INVESTMENTS

School district funds in excess of current needs are invested in compliance with this policy. The goals of the school district's investment portfolio in order of priority are:

- To provide safety of the principal;
- To maintain the necessary liquidity to match expected liabilities; and
- To obtain a reasonable rate of return.

In making investments, the school district will exercise the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use to meet the goals of the investment program.

School district funds are monies of the school district, including operating funds. "Operating funds" of the school district are funds which are reasonably expected to be used during a current budget year or within fifteen months of receipt. When investing operating funds, the investments must mature within three hundred and ninety-seven days or less. When investing funds other than operating funds, the investments must mature according to the need for the funds.

Contracts with outside persons will include a clause requiring the outside person to notify the school district within thirty days of any material weakness in internal structure or regulatory orders or sanctions against the outside person regarding the services being provided to the school district and to provide the documents necessary for the performance of the investment portion of school district audit. Contracts with outside persons will not be based on the performance of the investment portfolio.

The treasurer is responsible for reporting to and reviewing with the board at its regular meetings the investment portfolio's performance, transaction activity and current investments including the percent of the investment portfolio by type of investment and by issuer and maturities. The report will also include trend lines by month over the last year and year-to-year trend lines regarding the performance of the investment portfolio. It will also be the responsibility of the treasurer to obtain the information necessary to ensure that the investments and the outside persons doing business with the school district meet the requirements outlined in this policy.

It is the responsibility of the superintendent to deliver a copy of this policy to the school district's depositories, auditor and outside persons doing investment business with the school district.

It will also be the responsibility of the superintendent, in conjunction with the treasurer, to develop a system of investment practices and internal controls over the investment practices. 705.1 PURCHASING – BIDDING

The board supports economic development in Iowa. Purchases by the school district will be made in Iowa for Iowa goods and services from a locally-owned business located within the school district or from an Iowa-based company which offers these goods or services if the cost and other considerations are relatively equal and they meet the required specifications. When spending federal Child Nutrition Funds, geographical preference is allowed only for unprocessed agricultural food items.

Prior to August 15 of each year and after analyzing the school district's anticipated procurement level for the current fiscal year, the school board will set a goal of ten percent of the anticipated procurement level to be purchased from certified targeted small businesses. In determining the procurement level, the cost of utilities (heat, electricity, telephone and natural gas) and employees' costs will not be included. After the goal has been established, the superintendent will file the required Targeted Small Business Procurement form with the Department of Education by August 15.

By July 31 of each year, the superintendent will file a report with the Department of Education outlining purchases of goods and services from targeted small businesses for the previous fiscal year.

The school board and superintendent will encourage targeted small businesses which are not certified with the Department of Inspections and Appeals to become certified targeted small businesses.

It is the responsibility of the superintendent to approve purchases, except those authorized by or requiring direct board action. The superintendent may coordinate and combine purchases with other governmental bodies to take advantage of volume price breaks. Joint purchases with other political subdivisions will be considered in the purchase of equipment, accessories or attachments with an estimated cost of \$50,000 or more.

The superintendent will have the authority to authorize purchases without competitive bids for goods and services costing under \$5,000 without prior board approval. For goods and services costing more than \$5,000 and less than \$25,000, the superintendent will receive quote(s) of the goods and services to be purchased prior to approval of the board. Competitive sealed bids are required for purchases, other than emergency purchases, for goods and services that cost \$25,000 or more, including school buses.

When using federal Child Nutrition funds to purchase goods and services, dollars spent annually must be estimated. It is acceptable to categorize (e.g. groceries, milk, produce, small equipment, large equipment, supplies, and chemicals). A formal sealed bid procurement process is required when annual spending in the category exceeds \$25,000 annually. An informal process is used for all other purchases under the threshold annually. Documentation of informal procurement activity is kept on file.

The purchase will be made from the lowest responsible bidder based upon total cost considerations including, but not limited to, the cost of the goods and services being purchased, availability of service and/or repair, delivery date, the targeted small business procurement goal and other factors deemed relevant by the board.

The board and the superintendent will have the right to reject any or all bids, or any part thereof, and to re-advertise. If it is determined that a targeted small business which bid on the project may be unable to perform the contract, the superintendent will notify the Department of Economic Development. The board will enter into such contract or contracts as the board deems in the best interests of the school district.

705.8 EXPENDITURES FOR PUBLIC PURPOSE

Public Purpose

The Iowa Constitution requires District funds are to be expended only for legitimate public purposes and not for private personal gain for which services of comparable value have not been rendered to the District.

The Board of Directors recognizes and supports the principle that District all funds received by the District are considered public funds and are to be expended only for legitimate public purposes and not for private personal gain for which services of comparable value have not been rendered to the District. The Board of Directors, therefore, believes it is important to designate those expenditures for officers, directors, employees, and volunteers, which are in addition to salaries and benefits authorized and/or specified in policy or contract and legitimate expense reimbursements which serve a legitimate public purpose.

Expenditures of District funds for District officers, directors, employees, and volunteers for the following purposes or such similar purchases, are commonly granted benefits for employees and volunteers in public and private organizations which aid in recruitment of personnel, promote improvement of staff morale and cooperation, and assist in building a commitment to the District, thus assisting in creating a more productive learning environment. These types of general expenditures are listed below

1. Mementoes for employee recognition for service to the District
2. Retirement appreciation function to recognize retiring employees
3. Recognition item upon the retirement of an employee
4. Recognition item upon the end of service by a Board member
5. Volunteer appreciation
6. Food items and refreshments for Board members and staff during Board meetings and/or work sessions
7. Food items and refreshments for Board committees or superintendent committees during meeting

District awards or tokens of recognition shall be determined by the School Board and/or the Superintendent or designee in advance and shall be paid for with "central" District funds under the control of the Superintendent or designee.

Examples of Appropriate and Inappropriate Use of Public Monies

This section identifies specific practices and procedures to be followed by all District employees when using public funds. The following list is intended to provide examples and may not be all inclusive.

I. Food and Refreshments

A. Alcohol

The purchase of alcohol is never an acceptable use of public monies.

B. Meetings and Conferences

Meals and snacks are normally a personal expense. Any meal or snack paid for with public funds must be a part of employment duties.

Meals and snacks can be paid for with public funds if:

- A. The meeting is four (4) hours or more and separate breaks would be disruptive to the meeting objectives.
- B. The meeting is a breakfast, lunch or dinner meeting where the meeting is shorter than four hours in duration and attendance during meal time(s) is a requirement of an employee's job duties.

The number of District employees in attendance for this meeting where food is provided must be noted on the receipt. All food receipts must be itemized – this includes catered meals.

C. Coffee and Beverages

Coffee and other beverages are normally a personal expense. A voluntary collection can be made from those who desire to have coffee and other beverages in the school/department. Except for meetings and conferences (Item B), public areas (Item G), and School Board meetings (Item H), coffee and beverages shall not be purchased with public funds.

D. Employee Break Room Supplies

Public funds should not be used to stock supplies such as plastic ware and paper products in employee break rooms. A voluntary collection can be made from those who desire to have such supplies.

E. Individual Receptions

Receptions for individual employees should never be paid from public funds. This includes retirement dinners, staff meals, welcome aboard receptions, and similar gatherings where food and/or refreshments may be served. Voluntary collections can be taken from those attending such gatherings.

F. Acceptance Occasions

The School Board and/or Superintendent may determine that the serving of food or refreshments is appropriate for selected occasions. The annual retirement reception for all District employees is one example as a way to show general appreciation and increase staff morale.

G. Public Areas

In some cases, a building or part of a building is routinely open to the public for conducting District business. The Superintendent's Office and school principals' offices are such locations.

Having refreshments of nominal value available to members of the public, such as coffee and other nominal snacks/beverages, are considered a courtesy and are authorized in these specific locations.

H. School Board Meetings

The School Board meets at a time that is intended to be convenient for the general public. Meetings routinely span the normal dinner hour. Serving meals of reasonable value to Board members and staff required to attend Board meetings is considered an appropriate expense to maintain convenient meeting times for the public and ensure efficiently run meetings by avoiding the need for meal breaks.

I. Student Incentives

Incentives purchased for qualifying groups of students from public funds as a part of an initiative, program, or recognition (e.g., rewards, honor roll) shall be of nominal value and authorized by the school principal. The incentive purchases are designed to increase student morale and promote and reward exemplary behavior.

II. Gifts

A. Employee Gifts

Expenditures of public funds for gifts, or gift cards to staff and employees are not authorized. This includes gifts purchased for staff birthdays or other personal occasions. Voluntary collections from staff would be an acceptable way of purchasing employee gifts.

B. Tokens/Clothing

The purchase of tokens of appreciation, or personal clothing (e.g., coffee mugs, pens, tote bags, T-shirts/apparel, etc.) is not authorized.

III. Flowers

A. Sympathy and Congratulations

The use of public funds for the purchase of flowers is restricted to the few occasions where a public expression of sympathy or congratulations has been determined by the School Board or the Superintendent to be in the best interests of the District. Personal donations can be made in lieu of flowers if requested by the family. Written expressions of condolence are encouraged for all other occasions where flowers are not appropriate.

B. Individual Achievements

Unless they are part of the award ceremony, flowers are not appropriate for individual achievements. Graduations have been an exception to this provision.

C. School Activities

Flowers/decorations purchased for proms, dances, homecomings, etc., may be purchased out of school activity funds, if authorized by the school principal.

IV. Awards and Recognition

A. District Awards and Recognition

At times, awards or tokens of recognition are appropriate for presentation to District staff in recognition of service and/or appreciation (Example: American Education Week, National Hot Lunch Week). District awards or tokens of recognition shall be determined by the School Board and/or the Superintendent or designee in advance and shall be paid for with "central" District funds under the control of the Superintendent or designee.

B. Break Room Equipment

Microwaves, refrigerators, coffee pots, toaster ovens and other similar equipment items may be procured with public funds for use in public reception areas and employee break rooms in order to encourage employee efficiency and improve employee morale. Otherwise, these items must be purchased with personal funds. In all instances, all fire marshal safety restrictions must be observed. These items are not authorized in classrooms and offices.

VI. Holiday Parties, Decorations and Cards

A. Holiday Decorations

Office holiday decorations shall not be purchased with public funds.

B. Holiday Cards

Holiday cards shall not be purchased with public funds.

C. Holiday Parties

Staff holiday parties and meals are a personal expense. Voluntary collections may be taken to fund holiday events. Public funds shall not be used for holiday parties.

VII. Student Activity Funds

Student Activity Funds are public funds and are to be used to finance a program of co-curricular school activities supplementing, but not replacing, the activities provided by the District. Student Activity Funds are derived from the student body as a whole and shall be so expended in accordance with Iowa law to benefit the student body as a whole.

The board will purchase insurance at replacement values, when possible, after reviewing the costs and availability of such insurance. The comprehensive insurance program is reviewed once every three years.

Insurance will only be purchased through legally licensed Iowa insurance agents.

The school district will assume the risk of property damage, legal liability, and dishonesty in cases in which the exposure is so small or dispersed that a loss does not significantly affect the operation of the education program or financial condition of the school district.

Insurance of buildings, structures, or property in the open will not generally be purchased to cover loss exposures below \$1,000 unless such insurance is required by statute or contract.

The board may retain a private organization for fixed assets management services.

711.1 STUDENT SCHOOL TRANSPORTATION ELIGIBILITY

Elementary and middle school students living more than two miles from their designated school attendance centers and high school students living more than three miles from their designated attendance centers are entitled to transportation to and from their attendance center at the expense of the school district.

Transportation of students who require special education services will generally be provided as for other students, when appropriate. Specialized transportation of a student to and from a special education instructional service is a function of that service and, therefore, an appropriate expenditure of special education instructional funds generated through the weighting plan.

Transportation of a student to and from a special education support service is a function of that service, and is specified in the individualized education program (IEP) or the individualized family service plan (IFSP). When the IEP or IFSP team determines that unique transportation arrangements are required and the arrangements are specified in the IEP or IFSP, the school district will provide one or more of the following transportation arrangements for instructional services and the AEA for support services:

- Transportation from the student's residence to the location of the special education and back to the student's residence, or child care placement for students below the age of six.
- Special assistance or adaptations in getting the student to and from and on and off the vehicle, en route to and from the special education.
- Reimbursement of the actual costs of transportation when by mutual agreement the parents provide transportation for the student to and from the special education.

The school district is not required to provide reimbursement to parents who elect to provide transportation in lieu of agency-provided transportation.

A student may be required, at the board's discretion, to meet a school vehicle without reimbursement up to three-fourths of a mile. The board may require the parent to transport their children up to two miles to connect with school bus vehicles at the expense of the school district when conditions deem it advisable. It is within the discretion of the board to determine such conditions. Parents of students who live where transportation by bus is impracticable or unavailable may be required to furnish transportation to and from the designated attendance center at the expense of the school district. Parents, who transport their children at the expense of the school district, are reimbursed at the rate per mile set by the state.

Transportation arrangements made by agreement with a neighboring school district will follow the terms of the agreement. Students, who choose to attend a school in a school district other than their resident school district, will provide transportation to and from the school at their own expense.

711.2 STUDENT CONDUCT ON SCHOOL TRANSPORTATION

Students utilizing school transportation will conduct themselves in an orderly manner fitting to their age level and maturity with mutual respect and consideration for the rights of the school vehicle driver and the other passengers. Students who fail to behave in an orderly manner will be subject to disciplinary measures.

The driver will have the authority to maintain order on the school vehicle. It is the responsibility of the driver to report misconduct to the building administrator.

The board supports the use of video cameras on school buses used for transportation to and from school as well as for field trips, curricular or extracurricular events. The video cameras will be used to monitor student behavior and may be used as evidence in a student disciplinary proceeding. The videotapes are student records subject to school district confidentiality, board policy and administrative regulations.

After two warnings for bad conduct, the building principal will have the authority to suspend transportation privileges of the student or impose other appropriate discipline.

It is the responsibility of the superintendent, in conjunction with the building principal, to develop administrative regulations regarding student conduct and discipline when utilizing school district transportation.

711.2R2 USE OF VIDEO CAMERAS ON SCHOOL BUSES REGULATION

The board supports the use of video cameras on school buses as a means to monitor and maintain a safe environment for students and employees. The video cameras may be used on buses used for transportation to and from school, field trips, curricular events and extracurricular events. The contents of the videotapes may be used as evidence in a student disciplinary proceeding.

Student Records

The content of the videotapes is a student record subject to board policy and administrative regulations regarding confidential student records. Only those persons with a legitimate educational purpose may view the videotapes. In most instances, those individuals with a legitimate educational purpose may be the superintendent, building principal, transportation director, bus driver and special education staffing team. A parent may view the video without consent from any student or parent also shown in the video if the other students are just bystanders. But if there is an altercation between multiple students, then all parents must give consent in order for the video to be viewed by parents.

A videotape recorded during a school-sponsored trip, such as an athletic event, may also be accessible to the sponsor or coach of the activity. If the content of the videotape becomes the subject of a student disciplinary proceeding, it will be treated like other evidence in the proceeding.

Notice

The school district will annually provide the following notice to students and parents:

The Shenandoah Community School District Board of Directors has authorized the use of video cameras on school district buses. The video cameras will be used to monitor student behavior to maintain order on the school buses to promote and maintain a safe environment. Students and parents are hereby notified that the content of the videotapes may be used in a student disciplinary proceeding. The content of the videotapes are confidential student records and will be retained with other student records. Videotapes will only be retained if necessary for use in a student disciplinary proceeding or other matter as determined necessary by the administration. Parents may request to view videotapes of their child if the videotapes are used in a disciplinary proceeding involving their child.

The following notice will also be placed on all school buses equipped with a video camera: This bus is equipped with a video/audio monitoring system.

Review of Videotapes

The school district will review videotapes when necessary as a result of an incident reported by a bus driver or student. The videotapes may be recirculated for erasure after 10 days.

Viewing of videotapes is limited to the individuals having a legitimate educational purpose. A written log will be kept of those individuals viewing the videotapes stating the time, name of individual viewing and the date the videotape was viewed.

Video Monitoring System

Video cameras will be rotated randomly on school district buses.

Determination of how video cameras will be used and which school buses will be equipped with video equipment will be made by the superintendent in consultation with the building principals and transportation director.

Student Conduct

Students are prohibited from tampering with the video cameras on the school buses. Students found in violation of this regulation will be disciplined in accordance with the school district discipline policy and Good Conduct Rule and will reimburse the school district for any repairs or replacement necessary as a result of the tampering.

711.3 STUDENT TRANSPORTATION FOR EXTRACURRICULAR ACTIVITIES

The board in its discretion may provide school district transportation for extracurricular activities including, but not limited to, transporting student participants and other students to and from extracurricular events.

Students participating in extracurricular events, other than those held at the school district facilities, may be transported to the extracurricular event by school district transportation vehicles or by another means approved by the superintendent. Students attending extracurricular events, other than those held at the school district facilities may be transported to the extracurricular event by school district transportation vehicles.

A student's parent may personally appear and request to transport the student home from a school-sponsored event in which the student traveled to the event on a school district transportation vehicle.

It is the responsibility of the superintendent to make a recommendation to the board annually as to whether the school district will provide the transportation authorized in this policy. It is the responsibility of the superintendent to make a recommendation regarding transportation of students in summer school instructional programs at the expense of the school district. 711.8 TRANSPORTATION OF NONRESIDENT AND NONPUBLIC SCHOOL STUDENTS

The board has sole discretion to determine the method to be utilized for transporting nonresident and nonpublic students. Nonresident students paying tuition may be, and resident students attending a nonpublic school accredited by the State Department of Education, will be transported on an established public school vehicle route as long as such transportation does not interfere with resident public students' transportation. Nonresident and nonpublic school students will obtain the permission of the superintendent prior to being transported by the school district.

Parents of resident students who provide transportation for their children attending a nonpublic school accredited by the Iowa Department of Education will be reimbursed at the established state rate. This reimbursement is paid only if the school district receives the funds from the state. If less than the amount of funds necessary to fully reimburse parents of the nonpublic students is received by the school district, the funds will be prorated.

The charge to the nonresident students is determined based on the students' pro rata share of the actual costs for transportation. The parents of these students are billed for the student's share of the actual costs of transportation. The billing is according to the schedule developed by the superintendent. It is the responsibility of the superintendent to determine the amount to be charged and report it to the board secretary for billing.

Continued transportation of nonresident and nonpublic school students on a public school vehicle route will be subject to resident public school students' transportation needs. The superintendent will make a recommendation annually to the board regarding the method to be used. In making a recommendation to the board, the superintendent will consider the number of students to be transported, the capacity of the school vehicles, the financial condition of the school district and other factors deemed relevant by the board or the superintendent.

Nonresident and nonpublic school students are subject to the same conduct regulations as resident public students as prescribed by board policy, and to other policies, rules, or regulations developed by the school district regarding transportation of students by the school district.

711.9 TRANSPORTATION OF NONSCHOOL GROUPS

School district vehicles may be available to local nonprofit entities which promote cultural, educational, civic, community, or recreational activities for transporting to and from nonschool- sponsored activities within the state as long as the transportation does not interfere with or disrupt the education program of the school district and does not interfere with or delay the transportation of students. The local nonprofit entity must pay the cost of using the school district vehicle as determined by the superintendent. Prior to making the school district transportation vehicle available to the local nonprofit entity, the "school bus" signs will be covered and the flashing warning lamps and the stop arm made inoperable.

It is the responsibility of the superintendent to develop administrative regulations for use of school district transportation vehicles to transport students and others to school-sponsored events within the state and for application for, use of, and payment for using the school district transportation vehicles by local nonprofit entities for a nonschool-sponsored activity.

711.10 SCHOOL BUS SAFETY INSTRUCTION

The school district will conduct school bus safe riding practices instruction and emergency safety drills at least twice during the school year for students who utilize school district transportation.

Each school bus vehicle will have, in addition to the regular emergency safety drill, a plan for helping those students who require special assistance to safety during an emergency. This will include, but not be limited to, students with disabilities.

School district vehicle drivers are required to attend each safety drill.

Employees are responsible for instructing the proper techniques to be followed during an emergency, as well as safe riding practices. It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

711.11 TRANSPORTATION IN INCLEMENT WEATHER

School district buses will not operate when weather conditions due to fog, rain, snow or other natural elements make it unsafe to do so. Because weather conditions may vary around the school district and may change quickly, the best judgment possible will be used with the information available.

The final judgment as to when conditions are unsafe to operate will be made by the superintendent. The superintendent will be assisted by the actual "on location" decisions and reports of the drivers.

Several drivers each year will be specially designated to report weather and road conditions by bus radio when requested to do so. Other employees and students will be notified by commercial radio when school is cancelled or temporarily delayed. When school is cancelled because of weather anywhere in the school district, all schools will be closed.

When weather conditions deteriorate during the day after school has begun, cancellation notices will be announced by commercial radio. Students will be returned to their regular drop-off sites unless weather conditions prevent it. In that case, students will be kept at or returned to school until they are picked up by the parents.

A separate fixed assets listing is prepared for fixed assets in the general fixed assets account group (GFAAG) and for the fixed assets of each proprietary and fiduciary fund. "Fixed assets" in the GFAAG will include school district buildings and sites, construction in progress, improvements other than buildings and sites, land and machinery and equipment. "Fixed assets" in the proprietary funds will include school district buildings and sites, construction in progress, improvements other than buildings and sites, capitalized interest, infrastructure, land and machinery and equipment. Fixed assets reported in the financial reports will include individual fixed assets with an historical cost equal to or greater than \$500. Fixed assets accounted for and reported in the proprietary funds are depreciated over the useful life of each fixed asset.

The fixed assets management system is updated monthly to account for the addition/acquisition, disposal, relocation/transfers of fixed assets. It is the responsibility of the superintendent to count and reconcile the fixed assets listing for the general fixed assets account group and for each proprietary and fiduciary fund with the fixed assets management system on June 30 each year.

B.Determining historical cost.

1. The historical cost of a fixed asset is based on the actual costs expended in making the fixed assets serviceable. For the initial fixed assets listing of currently owned fixed assets, records indicating the actual costs expended in making the fixed assets serviceable may be available in the central administrative office.
2. Gifts of fixed assets are given an "historical cost" of the estimated fair market value on the addition/acquisition date.
3. Fixed assets purchased under a capital lease are given an historical cost of their net present value of the minimum lease payments on the addition/acquisition date.
4. The historical cost of fixed assets in the proprietary funds must include capitalized interest and infrastructure.
5. Fixed assets for which the historical cost cannot be determined.
 - a. Search board minutes to determine the approximate acquisition date, contract approval date or project approval date.
 - b. Search central administrative office records at the time of the presumed addition/acquisition date, including those in storage, on microfiche or archives, to determine the actual costs expended in making the fixed assets serviceable.
 - c. If no records can be found to determine the actual costs expended in making the fixed assets

serviceable the school district may estimate the historical cost using back trending/standard costing after consulting with the school auditor.

C. Annual fixed assets listing reconciliation.

1. The superintendent, in conjunction with the fixed assets management team, will conduct an annual fixed assets physical count to develop the annual fixed assets listing in a manner similar to the initial fixed assets listing process in B above. At least every three years, someone other than the person in custody of the fixed assets in the building/department/room will perform the fixed assets physical count for the building/department/room.
2. Upon completion of the annual fixed assets listing, the fixed assets listing is reconciled to the fixed assets management system data base.
3. Fixed assets found to have been excluded from the data base are added to the fixed assets management system. The fixed assets management system process is reviewed to prevent future incidents of excluding a fixed asset.
4. Fixed assets unaccounted for are reported to the superintendent who contacts the supervisor of and the employee/person in charge/control/custody of the fixed asset. The employee/person in charge/control/custody of the fixed asset has thirty days to account for the fixed asset.

This cost is only applied to the fixed assets initially counted upon implementation of the fixed assets management system when the historical original cost cannot be determined. It is inappropriate to apply the back trending/standard costing method to any fixed assets acquired after the fixed assets management system implementation date.

Balance sheet accounting/class codes - the codes set out for fixed assets in the Iowa Department of Education Uniform Accounting Manual. They are: 211-sites; 221-site improvements; 222- accumulated depreciation on site improvements; 231-buildings and building improvements; 232-accumulated depreciation on buildings and building improvements; 241-machinery and equipment; 242-accumulated depreciation on machinery and equipment, 251-works of art and historical treasures, 252-accumulated depreciation on works of art and historical treasures, 261- infrastructure, 262-accumulated depreciation on infrastructure, and 271-construction in progress.

Buildings and building improvements - A fixed assets account reflecting the addition/acquisition cost of permanent structures owned or held by a government and the improvements thereon.

Capital expenditures/expenses - expenditures/expenses resulting in the addition/acquisition of or addition/acquisition to the school district's general or proprietary fixed assets.

Capital fixed assets - fixed assets with a value of equal to or greater than \$500 based on the historical cost.

Capitalized interest - interest accrued and reported as part of the cost of the fixed assets during the construction phase of a capital project. The construction phase extends from the initiation of pre-construction activities until the time the asset is placed in service.

Construction in progress - buildings in the process of being constructed other than infrastructure.

Contributed capital - the permanent fund capital of a proprietary fund. It is created when a residual equity transfer is received by a proprietary fund; a general fixed assets is "transferred" to a proprietary fund; or a grant received is restricted to a capital acquisition or construction.

Cost - the amount of money or other consideration exchanged for goods or services.

Depreciation - expiration in the service life of fixed assets, other than wasting assets, attributable to wear and tear, deterioration, action of the physical elements, inadequacy and obsolescence. In accounting for depreciation, the cost of a fixed asset, less any salvage value, is prorated over the estimated service life of such an asset, and each period is charged with a portion of such cost.

Fixed assets - long-lived tangible assets obtained or controlled as a result of past transactions, events or circumstances. Fixed assets include buildings, construction in progress, improvements other than facilities, land and machinery and equipment.

Fixtures - attachments to buildings that are not intended to be removed and cannot be removed without damage to the buildings. Those fixtures with a useful life presumed to be as long as that of the building itself are considered a part of the building. Other fixtures are classified as machinery and equipment.

General fixed assets - capital fixed assets that are not fixed assets of any fund, but of the governmental unit as a whole. Most often these fixed assets arise from the expenditure of the financial resources of governmental funds.

General fixed assets account group (GFAAG) - a self-balancing group of accounts established to account for fixed assets of the school district, not accounted for through specific proprietary funds.

Historical (acquisition) cost - the actual costs expended to place a fixed asset into service. For land and buildings, costs such as legal fees, recording fees, surveying fees, architect fees and similar fees are included in the historical cost. For machinery and equipment, costs such as freight and installation fees and similar fees are included in the historical cost.

Improvements other than buildings - attachments or annexation to land that are intended to remain so attached or annexed, such as sidewalks, trees, drives, tunnels, drains and sewers. Sidewalks, curbing, sewers and highways are sometimes referred to as "betterments," but the term "improvements" is preferred.

Infrastructure assets - public domain fixed assets such as roads, bridges, curbs and gutters, streets and sidewalks, drainage systems, lighting systems and similar assets that are immovable and of value only to the governmental unit.

Investment in general fixed assets - an account in the GFAAG representing the school district's investment in general fixed assets. The balance in this account generally is subdivided according to the source of the monies that finance the fixed assets addition/acquisition, such as general fund revenues and special assessments.

Land and buildings - real property owned by the school district.

Machinery and equipment - fixed assets which maintain their identity when removed from their location and are not changed materially or consumed immediately (e.g., within one year) by use.

Machinery and equipment are often divided into specific categories such as: transportation machinery and equipment which includes school buses and school district owned automobiles, trucks and vans; other motor machinery and equipment which includes lawn maintenance machinery and equipment, tractors, motorized carts, maintenance machinery and equipment, etc.; other machinery and equipment which includes furniture and machinery and equipment contained in the buildings whose original cost is equal to or greater than *capitalization threshold*, and fixed assets under capital leases and fixed assets being acquired under a lease/purchase agreement.

Proprietary fund fixed assets - capital fixed assets that are fixed assets specific to a proprietary fund, such as school nutrition fund or child care fund. Most often these fixed assets arise from the expenditure of financial resources of a proprietary fund.

Replacement cost - the amount of cash or other consideration required today to obtain the same fixed assets or its equivalent.

802.9 CAPITAL ASSETS

General Capital Assets:

General capital assets are assets that generally result from expenditures in the governmental funds and are capitalized in the General Fixed Assets Account Group. These assets are reported in the governmental activity column of the government-wide statement of net assets, but are not reported in the fund financial statements.

Business-Type Capital Assets:

Business-type capital assets are those assets reported in the proprietary funds. These assets are reported in the business-type activity column of the government-wide statement of net assets, but are not reported in the fund financial statements.

All capital assets are capitalized at cost for estimated historical cost and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market value as of the date received. The District does not possess any infrastructure. Improvements are capitalized, the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

The District maintains a reporting threshold of \$3,000 for general capital assets and a reporting threshold of \$500 for business-type capital assets. All reported capital assets except land and construction-in-progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the useful life.

Effective for the fiscal year beginning on July 1, 2010, and each fiscal year thereafter, the Shenandoah Community School District will conform to GASB Statement 51, Accounting and Financial Reporting for Intangible Assets.

The following criteria shall be used to identify and report intangible assets on the District's Statement of Net Assets.

Identification

An intangible asset will be recognized in the Statement of Net Assets only if it is identifiable using the following tests:

- a) Separable (it can be separated/divided from the government and sold, transferred, licensed, rented or exchanged **or**
- b) Arose from the contractual or other legal rights, regardless of whether those rights are transferable or separable.

Threshold for Capitalization

903.4 PUBLIC CONDUCT ON SCHOOL PREMISES

School sponsored or approved activities are an important part of the school program and offer students the opportunity to participate in a variety of activities not offered during the regular school day. School sponsored or approved activities are provided for the enjoyment and opportunity for involvement they afford the students.

Individuals are permitted to attend school sponsored or approved activities or visit the school building only as guests of the school district, and, accordingly as a condition of such permission, they must comply with the school district's rules and policies. Individuals will not be allowed to interfere with the education program, enjoyment of the students participating, other individuals or with the performance of employees and officials supervising the school sponsored or approved activity. Individuals, like the student participants, are expected to display mature behavior and sportsmanship. The failure of individuals to do so is not only disruptive but embarrassing to the students, the school district and the entire community.

To protect the rights of students to participate in the education program, or activities without fear of interference, and to permit the employees or sponsors and officials of sponsored or approved activities to perform their duties without interference, the following provisions are in effect:

- Abusive, verbal or physical conduct of individuals directed at students, employees, officials or sponsors of sponsored or approved activities or at other individuals will not be tolerated.
- Verbal or physical conduct of individuals that interferes with the performance of students, employees, officials or sponsors of sponsored or approved activities will not be tolerated.
- The use of vulgar, obscene or demeaning expression directed at students, employees, officials or sponsors participating in an sponsored or approved activity or at other individuals will not be tolerated.

If an individual becomes physically or verbally abusive, uses vulgar, obscene or demeaning expression, or in any way interrupts an activity, the individual may be removed from the event by the individual in charge of the event and the superintendent may recommend the exclusion of the individual from the school buildings or from future sponsored or approved activities.

Upon recommendation of the superintendent, the board will cause a notice of exclusion from the school building or from sponsored or approved activities to be sent to the individual involved.

The notice will advise the individual of the school district's right to exclude the individual from school buildings, school district activities and events and the duration of the exclusion. If the individual disobeys the school official or district's order, law enforcement authorities may be contacted and asked to remove the individual. If an individual has been notified of exclusion and thereafter tries to enter a school building or attends an sponsored or approved activity, the individual will be advised that his/her attendance will result in prosecution. The school district may obtain a court order for permanent exclusion the school building or from future school sponsored or approved activities.

It is the responsibility of the superintendent, in conjunction with the building principals to draft administrative regulations regarding this policy.

903.5R1 DISTRIBUTION OF MATERIALS REGULATION

I. Guidelines.

Individuals, including students, may have the right to distribute on school premises, at reasonable times and places, unofficial written material, petitions, buttons, badges or other insignia, except expression which:

- 1.is obscene to minors; 2.is libelous;
- 3.contains indecent, vulgar, profane or lewd language;
- 4.advertises any product or service not permitted to minors by law;
- 5.constitutes insulting or fighting words, the very expression of which injures or harasses other people (e.g., threats of violence, defamation of character or of a person's race, religion, gender, disability, age or ethnic origin);
- 6.presents a clear and present likelihood that, either because of its content or the manner of distribution, it will cause a material and substantial disruption of the proper and orderly operation and discipline of the school or school activities, will cause the commission of unlawful acts or the violation of lawful school regulations.

Distribution on school premises of material in categories (1) through (4) to any student is prohibited. Distribution on school premises of material in categories (5) and (6) to a substantial number of students is prohibited.

II. Procedures.

Anyone wishing to distribute unofficial written material must first submit for approval a copy of the material to the building principal at least twenty-four hours in advance of desired distribution time, together with the following information:

- 1.Name and phone number of the person submitting request and, if a student, the homeroom number;
- 2.Date(s) and time(s) of day of intended display or distribution;
- 3.Location where material will be displayed or distributed;
- 4.The grade(s) of students to whom the display or distribution is intended.

Within twenty-four hours of submission, the principal will render a decision whether the material violates the guidelines in subsection I or the time, place and manner restrictions in subsection III of this policy. In the event that permission to distribute the material is denied, the person submitting the request should be informed in writing of the reasons for the denial. Permission to distribute material does not imply approval of its contents by either the school, the administration, the board or the individual reviewing the material submitted.

If the person submitting the request does not receive a response within twenty-four hours of submission, the person will contact the building principal's office to verify that the lack of response was not due to an inability to locate the person. If the person has made this verification and there is no response to the request, the material may be distributed in accordance with the time, place and manner provisions in subsection III.

If the person is dissatisfied with the decision of the principal, the person may submit a written request for appeal to the superintendent. If the person does not receive a response within three school days of submitting the appeal, the person will contact the superintendent to verify that the lack of response is not

due to an inability to locate the person. If the person has made this verification and there is no response to the appeal, the material may be distributed in accordance with the time, place and manner provisions in subsection III.

At every level of the process the person submitting the request will have the right to appear and present the reasons, supported by relevant witnesses and material, as to why distribution of the written material is appropriate.

Permission to distribute material does not imply approval of its contents by either the school district, the board, the administration or the individual reviewing the material submitted.

III. Time, place and manner of distribution.

The distribution of written material is prohibited when it blocks the safe flow of traffic within corridors and entrance ways of the school or otherwise disrupts school activities. The distribution of unofficial material is limited to a reasonable time, place and manner as follows:

1. The material will be distributed from a table set up for the purpose in a location designated by the principal, which location will not block the safe flow of traffic or block the corridors or entrance ways, but which will give reasonable access to students.
2. The material will be distributed either before and/or after the regular instructional day.
3. No written material may be distributed during and at the place of a normal school activity if it is reasonably likely to cause a material and substantial disruption of that activity.

IV. Definitions.

The following definitions apply to the following terms used in this policy:

1. "Obscene to minors" is defined as:

- (a) The average person, applying contemporary community standards, would find that the written material, taken as a whole, appeals to the prurient interest of minors of the age to whom distribution is requested;
- (b) The material depicts or describes, in a manner that is patently offensive to prevailing standards in the adult community concerning how such conduct should be presented to minors of the age to whom distribution is requested, sexual conduct such as intimate sexual acts (normal or perverted), masturbation, excretory functions, and lewd exhibition of the genitals; and
- (c) The material, taken as a whole, lacks serious literary, artistic, political or scientific value for minors.

2. "Minor" means any person under the age of eighteen.

3. "Material and substantial disruption" of a normal school activity is defined as follows:

- (a) Where the normal school activity is an educational program of the district for which student attendance is compulsory, "material and substantial disruption" is defined as any disruption which interferes with or impedes the implementation of that program.
- (b) Where the normal school activity is voluntary in nature (including, without limitation, school athletic events, school plays and concerts, and lunch periods), "material and substantial

disruption" is defined as student rioting, unlawful seizures of property, widespread shouting or boisterous demonstration, sit-in, stand-in, walk-out, or other related forms of activity.

(c) In order for expression to be considered disruptive, there must exist specific facts upon which the likelihood of disruption can be forecasted including past experience in the school, current events influencing student activities and behavior, and instances of actual or threatened disruption relating to the written material in question.

4. "School activities" means any activity of students sponsored by the school and includes, by way of example but not limited to, classroom work, library activities, physical education classes, official assemblies and other similar gatherings, school athletic contests, band concerts, school plays and in-school lunch periods.
5. "Unofficial" written material includes all written material except school newspapers, literary magazines, yearbooks, and other publications funded and/or sponsored or authorized by the school. Examples include leaflets, brochures, flyers, petitions, placards and underground newspapers, whether written by students or others.
6. "Libelous" is a false and unprivileged statement about a specific individual that tends to harm the individual's reputation or to lower him/her in the esteem of the community.
7. "Distribution" means circulation or dissemination of written material by means of handing out free copies, selling or offering copies for sale and accepting donations for copies. It includes displaying written material in areas of the school which are generally frequented by students.

V. Disciplinary action.

Distribution by any student of unofficial written material prohibited in subsection I or in violation of subsection III may be halted, and students may be subject to discipline including suspension and expulsion. Any other party violating this policy may be requested to leave the school property immediately and, if necessary, local law enforcement officials will be called.

VI. Notice of policy to students.

A copy of this policy will be published in student handbooks and posted conspicuously in school buildings.

904.1 TRANSPORTING STUDENTS IN PRIVATE VEHICLES

Generally, transporting students for school purposes is done in a vehicle owned by the school district and driven by a school bus driver. Students may be transported in private vehicles for school purposes. It is within the discretion of the superintendent to determine when this is appropriate.

Individuals transporting students for school purposes in private vehicles must have the permission of the superintendent. Private vehicles will be used only when proof of insurance has been supplied to the superintendent and when the parents of the students to be transported have given written permission to the superintendent. The school district assumes no responsibility for those students who have not received the approval of the superintendent and who ride in private vehicles for school purposes.

This policy statement applies to transportation of students for school purposes in addition to transporting students to and from their designated attendance center. It is the responsibility of the superintendent to develop administrative regulations regarding this policy.
