Physical Education Waiver

According to Iowa law, all students in grades 9-12 are required to participate in physical education (PE) every year, all year long. However, a parent may request in writing that their child be waived from the PE requirement for the current school year. This provision is made for students who are in classes every period of the day and cannot work PE into their schedule.

I am requesting that my daughter/son be waived from the PE requirement for the current school year. In requesting the waiver, I understand that she/he will be required to take 7 classes and if she/he does not take 7 classes will then take PE to meet state requirements.
