## Student's Devices

If a student's device isn't working correctly or if they can't get onto something that they should be able to, try removing their profile or clearing their cache.

If you aren't sure how to do that, [click here](#) for directions.

## Subs Having Issues

### Connecting to Projector

If you are subbing for a teacher and using a Chromobook, and you are having issues connecting to the projector, [click here](#) for directions.

## How to Download Your W-2 from Weblink

Do you need to download your W-2 from Weblink, but you are not sure how to do it? [Click here](#) to access the directions.

## Turning off Device vs Restarting Device

There is a difference between turning off your device and restarting. If you click the power button on your device that just turns it off. To restart you need to click the Windows logo  and look for the power button on the lower right handside of the window that opens. Click that and now click restart.

Technology will not replace great teachers but technology in the hands of great teachers can be transformational. - George Couros
